Independent Insurance Agents Will Orbit at State Convention

It takes the highest in technical training and knowledge to launch a rocket into orbit. It's the same with insurance. Only constant training can produce top performance in professional insurance service.

On October 26, the Independent Insurance Agents of Nebraska assemble in Omaha—with the leaders in their profession—to learn the latest insurance developments . . . discuss the newest techniques that will

help them provide better insurance protection for the people in their own communities.

Independent Insurance Agents realize the value of their trade association and its annual meetings. Their attendance at these conventions is another example of how they keep "in orbit" to bring the highest professional insurance standards to all of you who depend on them for reliable protection for your home, your car, and your business.
