

Survey Cards to Be Distributed State-Wide

About 20,000 livestock survey cards will be left at random in mail boxes of livestock and poultry producers by the rural carriers throughout Nebraska this week.

When filled out by farmers and ranchers and returned, these cards will help the State-Federal Division of Agricultural Statistics determine the number of livestock and poultry on Nebraska farms and ranches. This is important in Nebraska where a large part of the farm income comes from livestock and livestock products.

Only one out of every four or five producers is selected for the sample, so every farmer and rancher getting a survey card is urged to fill it out as carefully as possible and return it promptly. "We need their cooperation, regardless of size of their operations, for a successful survey." The December 1 survey is the basis for the state and national figures on the pig crop inventories of livestock and poultry on farms as of the first of the year. It covers cattle, calves, milk cows, hogs, sheep, workstock and poultry.

All They Want For Christmas

What does the GI overseas want for Christmas? His hometown newspaper, that's what. This was revealed in a survey just completed by the USO in its 23 clubs abroad, ranging from Paris to Istanbul. When all returns were in, requests for pictures of the family rated number one with the servicemen, with newspapers a close second.

As one GI put it: "It (the hometown paper) is the strongest tie I have with the States."

So, for that serviceman friend or relative of yours, why not give him a gift subscription to The Frontier? The Frontier's special price for subscriptions sent to servicemen is still only \$2 no matter where they may be stationed.

The men were arrested Nov. 10 by Sheriff Marvin Kreitman and state liquor commission agent Reed Nelson.

A search of the automobile in which the four were traveling revealed between 10 and 15 pounds of marijuana weed concealed in a bedroll, Kreitman said.

Bond has been set at \$3,000 for each man, and as of today they were still confined to the county jail unable to meet the bond.

Those arrested were Forest Brown, Arturo Lopez, Zecarias Zultierrez and Pete Awlocabe.

Immigration officials interviewed the Mexican men, but apparently satisfied themselves the men were not Mexican nationals.

Sheriff Kreitman said narcotics bureau men told him marijuana is worth about \$150 per pound at the present time. The men are believed to have obtained the narcotics in the vicinity of Norfolk, Kreitman said.

A check is waiting in the Frontier office for Casey while Jerry receives condolences and a chance to win one more time when the final winners are announced next week.
