Capitol News - Morrison Names Senator Otto to Administrative Assistant Post

By Melvin Paul

LINCOLN—The state's advisory Highway Commission will continue to have heavy influence on road building policies under Governor-elect Frank Morrison. Morrison says he even intends to give the commission, a seven-member group, more executive authority than it has had.

Former Republican Gov. Victor Anderson first began bestowing the effect of executive authority to the commission when he said he would abide by commission decisions except in unusual cases. Democratic Gov. Ralph G. Brooks did not change the status of the commission. Now, Morrison, also a Democrat, doesn't plan any drastic changes either.

Morrison says the governor has certain duties regarding road construction in Nebraska and he doesn't intend to shirk these. But he adds that "from a practical standpoint, states with executive type commissions have done a better job of road building than we have."

Establishment of the commission took a heavy load off the governor and state engineer in hearing problems by delegations wanting road improvements.

This summer the commission held a series of informational meetings over the state, taking the commission to the people. Everyone involved said the exchange of ideas was mutually beneficial to both highway planners and those wanting road improvements.

Nebraska cannot yet afford to close its tuberculosis hospital at Kearney. That's the opinion of Dr. E. A. Rogers, state health director. The hospital is under supervision of the State Board of Control. Rogers said TB cases and deaths have dropped but the hospital still answers a "very definite health need."

Hospitals over the state, Rogers says, are not geared to handle patients with tuberculosis. If the Kearney hospital were closed, an infected patient could remain at home and spread the disease, he added. Rogers revealed the state has under consideration an intensive tuberculosis treatment program designed to eventually stamp out the ailment.

The proposed program, Rogers explained, involves treatment with drugs where the state health department would furnish them and they would be administered by physicians throughout the state.

Support and Endorse the School Board's Plan for a New O'Neill Public High School

Important Facts on the O'Neill School Bond Election:

- What is the amount of the proposed Bond Issue?**
The amount is \$465,000.
- What tax levy will be necessary to pay for this Bond Issue?**
Based on the 1960 School District assessed valuation of \$4,727,332.00, it will require an approximate annual tax levy of 7.25 mills to pay for this bond issue over a 20 year period.
- Is this a good time to issue bonds?**
The financial consultant for our district has advised us that the 7 1/4 mill levy is on the high side and that interest costs are more favorable now than at any time during the past several months.
- What is FREE HIGH SCHOOL TUITION?**
Students who live in another school district but attend the O'Neill school must pay tuition to the School District of the City of O'Neill. The tuition money paid to O'Neill comes from a county levy on all property NOT in a high school district.
- How much does the O'Neill School District receive in "Free High School Tuition"?**
In the 1959-60 school year, the O'Neill school district received \$34,000 in tuition money.
- If the O'Neill school district did not receive this tuition money, what levy would be necessary to raise this lost revenue now used to operate our school?**
It would require a 7 1/4 mill levy to replace this revenue loss of \$34,000.

7. If we do not provide a complete curriculum for all students and the proper facilities, do we stand to lose the free high school tuition students? When?	8. How much would 7 1/4 mills for the bond tax levy cost me?																																			
Yes. Students not living in the O'Neill School District (No. 7) will have to go to school elsewhere starting in 1964.	<table border="1"> <thead> <tr> <th>If Actual Property Value is:</th> <th>*Assessed Value Is approx.</th> <th>Bond Levy</th> <th>Bond Tax Per Month</th> <th>Bond Tax Per Year</th> </tr> </thead> <tbody> <tr> <td>\$ 1,500</td> <td>\$ 525</td> <td>.00725</td> <td>\$.32</td> <td>\$ 3.80</td> </tr> <tr> <td>2,500</td> <td>875</td> <td>.00725</td> <td>.53</td> <td>6.34</td> </tr> <tr> <td>5,000</td> <td>1,750</td> <td>.00725</td> <td>1.06</td> <td>12.69</td> </tr> <tr> <td>7,500</td> <td>2,625</td> <td>.00725</td> <td>1.59</td> <td>19.03</td> </tr> <tr> <td>10,000</td> <td>3,500</td> <td>.00725</td> <td>2.12</td> <td>25.38</td> </tr> <tr> <td>15,000</td> <td>5,250</td> <td>.00725</td> <td>3.17</td> <td>38.06</td> </tr> </tbody> </table>	If Actual Property Value is:	*Assessed Value Is approx. - In other words, we in the O'Neill School District are going to pay 7 1/4 mills one way or the other—either for a new building or to replace lost revenue from free high school tuition students.**
Yes. And the loss of these students and their families will have an impact on the City of O'Neill financially as a trade and service community.
