Considerable Debate Expected on Medical Aid for the Aged Program

By Melvin Paul
Statehouse Correspondent
The Nebraska Press Association

LINCOLN—There are 155,000 people in Nebraska who are 65 years old or more. Of that figure, 20 per cent or 31,000 are medically indigent. That means they do not have adequate funds to meet doctor bills.

This is the estimate of the State Department of Public Welfare, made in connection with the federal program that will provide aid to the states that put up matching money to care for the aged who need medical care.

A bill has been introduced in the Nebraska Legislature to provide state funds to match the federal government money in such a program. Estimated cost of the proposed Nebraska program, as included in the bill before the Legislature, is \$4.1 million for a two-year period. The federal government would pay 56.8 per cent of the cost.

Under the Nebraska bill, proposed by Sen. Sam Klaver of Omaha, reasonable costs exceeding \$50 for hospital and \$25 for surgical expenses would be paid for any six-month period. Coverage is limited to those who live alone and have less than \$125 per month net income or less than \$175 per couple.

It is expected there will be considerable debate on the measure in the Legislature. The welfare department estimates that 16,400 persons would be eligible for the new federal program in Nebraska.

Teacher Reports
The Legislature's interim committee on higher education has recommended abolition of the present Normal Board for governing state teachers colleges. The colleges are at Wayne, Chadron, Peru and Kearney. Headed by Sen. Richard Marvel of Hastings the committee thus backed a recommendation by Dr. Lyman A. Glenn of California who handled the study for the committee.

It was recommended that the governing group for the four colleges be expanded to 11 members, appointed by the governor with the board hiring an executive director.

A report on the matter said the present seven-member Normal Board is made up of men who

represent the individual colleges, or the geographical regions in which they are located. Findings said that "these members tend to favor a particular institution in all actions concerning the four schools. Thus the welfare of a college depends upon the relative influence of a single representative on the board."

The study added that "as a result, operating and building funds have been allocated over the years on the basis of personal influence rather than on any measure of objective need." The report also recommended dropping of graduate programs at the colleges unless they are fully accredited by January, 1963.

There were 57 changes in the educational structure recommended by Glenn, 34 of which were approved by the Marvel committee.

Highway Funds
Nebraska will get an additional \$10.9 million in highway funds under a plan announced by President Kennedy. The states have been urged to speed up road construction as much as possible to use the money. Nebraska would have \$44.2 million available for the fiscal year ending June 30.

Board of Control
On July 1 there will be a new member of the State Board of Control, which governs state institutions. He will be James Murphy, Omaha attorney and realtor. Murphy was named by Gov. Frank Morrison to succeed Charles Lee-man, currently board chairman.

On July 1, Vice Chairman Harold Peterson, a Republican, will move up to board chairman and Mrs. Ethel Kirwin, member, will be elevated to vice chairman. Murphy did considerable work for the governor in his election campaign.

Fake Kits
Law enforcement officials revealed they have been investigating for some time distribution of counterfeit driver's licenses, draft cards and birth registration cards. Al Scissors, director of the State Motor Vehicle Department, says the cards were being used primarily by minors to buy liquor. He estimated about 1,000 kits were in circulation, with the driver's license bearing the fake number of LI-157369.

Legislature Works
State senators have settled down to the drudgery of processing proposed legislation. The type and number of bills introduced so far indicate to veteran lawmakers that the solons might well set a record length this session and possibly break the high of 739 bills introduced in one session. At the end of the 20-day introduction period for individual senators 670 measures were in the hopper, four less than for the 1959 session which set the record of 739 bills. Small Schools

In the opinion of State Education Commissioner F. B. Decker students are being "short-changed" in Nebraska high schools which operate with 25 students or less. Decker said such small schools are limited in the courses they can offer, have a difficult time attracting high caliber teachers and operation costs are high.

Naper News

By Mrs. John Schonebaum

(Last week's News)

Mrs. Charles Kerns broke her left leg below the hip bone Tuesday morning when she was going after the mail. She slipped on the ice and fell. Mrs. Kerns was taken to the Sioux Valley hospital at Sioux Falls. Monday visitors of Mrs. Kerns were Mrs. Lester Anderson and Lowell Kerns. They also visited with Mrs. Stella Cunningham at the McKenney hospital.

The study added that "as a result, operating and building funds have been allocated over the years on the basis of personal influence rather than on any measure of objective need." The report also recommended dropping of graduate programs at the colleges unless they are fully accredited by January, 1963.

There were 57 changes in the educational structure recommended by Glenn, 34 of which were approved by the Marvel committee.
