Spring arrived officially March 21, and along with it our first flower of the season. A dandelion is blooming along our flowing well ditch. This last Sunday of March is a foggy, misty morning, but much more preferred to

the strong south winds on Friday and Saturday. We are wondering what March 31, the day you readers will receive the county papers, will be like. Will it go out like a lion?

With a new Easter outfit in the offing for either mother or daughter or both, here are some suggestions on accessories.

DO choose accessories that fit the personality.

DO concentrate on a few good pieces to be enjoyed for many wearings.

DO select accessories early, or at the very latest at the beginning of the season. New accessories freshen the face of a well-worn outfit.

DO plan a budget that includes change-about accessories.

DO rely on accessories to play good visual tricks.

DO make the most of a slender waistline and a good figure with a waisting belt.

DO lavish necklaces on this season's almost stark costume lines. Mix or match ropes; com-

bine single choker strands; fill in with new bibs.

DO be guided by fashion for newest combinations in texture, color and line. Fashion rules change in the most interesting ways.

DON'T accept fashion's whim unless it's really right.

DON'T get carried away by the first thing that comes along.

DON'T wait until a seasonal wardrobe's completed. Then, the flavor's gone.

DON'T take a solo flight into a fanciful new shade or texture. Accessories must harmonize; they can't live alone.

DON'T be impoverished by basics.

DON'T wear an accessory color next to the face if it does nothing for the complexion.

DON'T depart from a narrow belt of dress color if you're wide at waist or hips.

DON'T confine lavish necklaces to the throat.

DON'T get in a rut when it's so easy not to, with imaginative accessories.
