To Nebraskans...

... a glass of beer is many things

Biggest portion of Nebraska's great wealth is in its farms and ranches. Many of the crops, wheat, corn and barley go into the making of another great American product—light, refreshing beer. Beer, too, is a part of the free American economy... a growing economy. Last year, for example, the brewing industry gave employment to more than 9,000 Nebraskans and paid more than \$4,000,000.00 in state taxes. Beer means better living for Nebraskans.

It's the unity in a community that gets the job done

The job in York... A NEW INDUSTRY

Community-wide effort, as demonstrated by the citizens of York, proves that UNITY in the community produces progress.

Attracted by this united effort, the Champion Home Builders Co., manufacturers of mobile homes, located a plant in York. It began operations about a year ago and now employs approximately 80 people.

Another factor that figured in the Champion decision to locate in York, according to company officials, was the availability of a dependable supply of low-cost electricity.

Interested in the growth and development of each of the 355 communities it serves, and of the state as a whole, Consumers Public Power District makes available every electrical power need for industry... for business... for the farm... and for the home.
