### Sheep Raisers Plan Annual Show, Sale

The Nebraska Registered Sheep Breeders association will hold the 25th annual Ram Show and Sale at the Nebraska State fairsgrounds August 4.

Ted Doane, Extension animal husbandman at the University of Nebraska, says 98 yearling rams and 23 yearling ewes will be offered at the sale. "This sale would be a good place to acquire stud rams as well as good commercial rams as well as excellent replacement yearling ewes," Doane points out.

Guest speaker at the event will be Professor M. A. Alexander, who has been serving on the University of Nebraska staff in Turkey. He will discuss agriculture in the Middle East with particular emphasis on sheep production. Alexander is past secretary of the Nebraska Sheep Breeders association. Following a vacation in Nebraska, he will resume his post in Turkey. Aam judging will begin at 9 a.m. August 4. The "Sweepstake" ram is slated to be picked at 10:45 a.m. The show will include Tom Dean, retired shepherd at Kansas State university, Manhattan, Kan., and Bill Eery, University of Nebraska shepherd.

Payments under the 1960 national wool program were mailed July 18 in Holt county. Floyd Butterfield, chairman of the County Agricultural Stabilization and Conservation committee, has announced.

The payments are in connection with marketing of wool and unshorn lambs during the year from April 1, 1960 through March 31, 1961.

The 1960 program payments in Holt county amounted to \$9,021.31, after promotion deductions, and went to 96 different wool producers. The average shorn wool payment was \$77.35 and the average unshorn lamb payment was \$90.10.

On shorn wool, the date of payment is 47.5 percent of the dollar returns the producer received from the sale of shorn wool during the year, or \$47.60 for every \$100 received. This is the amount necessary to bring average wool prices up to the announced incentive level of 62 cents per pound under the National Wool Act. On unshorn lambs, the rate is 80 cents per hundredweight of live animals sold.

Deductions of 1 cent per pound from shorn wool payments and 5 cents per 100 pounds of live weight from lamb payments are made for advertising, promotion, and related market development activities on wool and lamb. This self-help program, authorized by the National Wool Act, is carried out by the American Sheep-Producers Council, Inc., which was established for that purpose. Deductions from payments were approved by producers in a referendum held in 1959.
