

# FARM SAFETY BEGINS WITH YOU!

## DON'T TAKE CHANCES - TAKE CARE

Most farm accidents are preventable. Take the precaution of checking all farm machinery to see that it is operating safely. Remove accident hazards from your barn and other buildings. Keep alert, take care on every farming job—and instruct your help to do likewise.

## Safe Farming Is Good Business

## DEATH TAKES NO HOLIDAY

The grim spectre is always on the job . . . Never more so than when most folks are off on theirs. You take your life in your hands when you take the wheel of your tractor. Take a little longer to get the job done . . . and live a lot longer.
