Feed Grain Sign-up Slow; 45 Register

While the weather has not been favorable insofar as road conditions, the 1962 Feed Grain Sign-up is continuing. The deadline date for completion of the forms is March 30.

Forty-five farmers have already signed their intention to divert either corn and/or grain sorghum acreages under the program.

The county average rates of payment for diverting acreages published last week need some clarification. The corn rate of \$20.30 and \$24.30 and grain sorghum rate of \$17.10 and \$20.50 are average for both dryland and irrigated as furnished by the Nebraska ASC State Committee.

The County ASC committee made a further breakdown between irrigated and dryland for each crop. A 100 per cent farm anywhere in the county has the following rates for corn — \$17.10 and \$20.50 for dryland and \$40.00 and \$47.90 for irrigated land.

The breakdown for grain sorghum are \$13.00 and \$16.50 for dryland and \$31.70 and \$38.00 for irrigated land.

From now on, the office will be increasingly busy explaining the program to farmers and helping them fill out the necessary forms indicating their "intention to participate" in the 1962 Feed Grain Program. No indication has been received that there will be an extension of the deadline date of March 30th.

Honor Society To Initiate New Members

The O'Neill Chapter of the National Honor Society will conduct its initiation ceremony Wednesday, Mar. 14, starting at 10:30 a.m. Present members of the society, which was organized in the spring of 1961 at O.H.S. are Carolyn Fuhrer, Kay Lee Rees, Roland Johnson, Don Skopek and Mike Hand.

The National Honor Society was first proposed in 1919 by J. G. Masters, principal of Omaha Central High. It was not until 1922, however, when the constitution was adopted under the leadership of Edward Rynearson of Pittsburgh, Penna. Since its founding it has established these aims: 1. An enthusiasm for good scholarship throughout the school.

2. An encouragement of a desire for students to render service to the school and community. 3. An evaluation of the student of the potential elements of leadership qualities within him. 4. A stimulus to the student to observe and practice those acts of others that develop strength of character. 5. An encouragement to the student to continue his learning and education.

These qualities are then used in choosing members for National Honor Society. In the O'Neill Chapter the student must first have a "B" average. They are then evaluated by the teachers as to leadership, character and service. Approximately twenty five sophomores, juniors and seniors are being evaluated for membership at this time.

A cordial invitation is extended to all parents and interested persons to attend this ceremony.
