Dean Hallock Is Honored at SWCD Dinner

Dean Hallock, local Soil Conservation Service employee, was honored at a dinner Wednesday evening at the Town House when he received an Outstanding Performance award for meritorious service during the past year.

Hallock is primarily responsible for layout and checking of conservation practices, and has led the local district to an enviable record of applied conservation practices during the year.

An all-time record of 76 dams were constructed, 15 miles of terraces laid, 30 acres of waterways, and more than the usual amounts of land leveling and other conservation practices. He utilized contractor and farmer-rancher help in much of his layout and compliance checking.

In addition to regular duties he completed a correspondence course on conservation and forestry, and is currently taking a correspondence course in engineering.

Presenting the award was C. W. Buck, area conservationist from Broken Bow. Slides were shown of the supervisors' recent trip to the convention of the national association of Soil and Water Conservation districts in Philadelphia, Penn. Four supervisors and their wives attended this convention at their own expense in the interest of conservation.

Attending the dinner were local employees, Soil and Water Conservation District supervisors and their wives; Mr. and Mrs. Deane Reed; Herb Auch Moedy, area engineer; Bill Miller, ASC office manager; John Burbank, County Extension agent, and Helen Johnson, Extension clerk.
