Mr. and Mrs. H. R. Harris and Bertha spent Thursday in Creighton. Mrs. Harris attended the district library meeting held in the Creighton Public Library. Mr. Harris and Bertha visited at the A. A. Cleveland home.

To The Voters Of Holt County

We are faced with a problem that is becoming far too prevelent for the good of our form of government. Why don't we have more qualified candidates for our county offices? Correction of this situation would be beneficial to all of us who value our treasured right of choice. It is distinctly to the credit of the voter to have the opportunity to choose between two qualified candidates. Let's encourage qualified candidates to pursue public office against the incumbents by lending a hand to Kieth Abart's support. The record indicates such action would stimulate interest and give us reason to go to the polls because a choice is offered.

The right stroke of the pencil on election day for Kieth Abart will serve as an inducement for other qualified men to pursue public office thereby giving us reason to go to the polls and make a choice. This right we should cherish dearly in our country. Your support in behalf of

Kieth A. Abart will be appreciated by the family. Kieth Robert

Washington By Congressman Dave Martin Fourth District, Nebraska

On Aprill 11th, in a speech on the Floor of the House, I asked: "How far has our country gone down the road toward Socialism? We are supposed to be living under a free economy in this country, but the President has challenged this concept with threats of reprisals against the steel companies because they raised their prices. The main question involved here is more basic and fundamental than the \$6 a ton steel The fundamental question involved is - can the Federal Government completely dictate to our economy; and if they do not accede to demands then threaten them with reprisals? This is exactly what happended in the recent steel dispute. This is what has happened in histhe road to Socialism. Do we want complete control by the state over all forms of our economy? Let's take a look at some of the President's proposals now before

2. A request from the White House to give the President the power (through legislation) to raise and lower taxes as HE SEES FIT. This is an abrogation of the powers of the Legislative Branch of our Government.

3. A request that the Congress give the President sole authority to regulate tariffs on goods imported into this country.

4. A request for a five-year foreign economic aid program with the President as the arbiter on where and when the money is to be spent. (This proposal

5. A request for a \$2 billion P.W.A. program on a standby baand where he feels it is needed.
