"New Wheat Farm" Deadline Set for July 2

Farmers who wish to be considered for a "new wheat farm" allotment for 1963 on a farm which does not now have a wheat allotment should get in touch with the ASCS County Office right away. Floyd Butterfield, chairman, Agricultural Stabilization and Conservation County Committee, said today. Such farmers have until July 2 to file applications for an allotment.

(Because the usual program deadline of July 1 occurs this year on Sunday, the 1962 deadline is extended to the end of business on Monday, July 2.)

Under the wheat allotment-marketing quota program, a "new farm" is a farm on which there is no wheat acreage history, including acreage considered as wheat under the Conservation Reserve or the Great Plains program, for any of the years 1960, 1961 or 1962.
