## Atkinson Man Is Injured in Fall From Roof

ATKINSON — William Ahle, 77, Atkinson World War I veteran, is convalescing at the Atkinson Memorial hospital from a broken neck received Oct. 17 in a 14-foot fall from the roof on the house at the Fred Tesch ranch 16 miles northeast of here.

Mr. Ahle was helping shingle the house at the ranch home when a bundle of shingles slipped and struck his foot causing him to lose his foothold.

Enroute to the scene of the accident Dr. James Ramsey, driving his own car, and the Seeger ambulance following minutes later escaped possible serious injuries when they received a jolt when crossing a small wooden bridge which stood inches above the roadbed.

Both front tires on Mr. Ramsey's car were flattened by the impact and the rims bent. He continued on to the Tesch place.

The ambulance also hit the bridge but managed to keep the car under control. Three tires on the vehicle were damaged but none deflated and there was no delay in getting the injured victim to the hospital.

Mr. Ahle is a retired farmer—John, Crumly, Jean Finley, Carolyn Hallman, Andrea Wetlauffer, Beelaert, Tom Melcher, Peggy

Legislation authorizing the feed grain program for the 1962 crop provided that support for corn could be set at a level not less than 65 per cent of parity. Since the national support price of \$1.20 per bushel set last January is 74.5 per cent of the October corn parity price — above the legal minimum level, no change is being made in the 1962 crop corn support as previously announced.

Farmers who cooperate in the 1962 feed grain program are eligible for price support on their share of the farm's normal production of corn. Producers who have not been notified of the normal production figure for their farms may obtain the figure from the ASC County Committee. To be in compliance with the 1962 program cooperators must have diverted at least 20 per cent of their feed grain base acreage to conserving uses.

Feed grain surplus is being substantially reduced for the second consecutive year as a result of the feed grain program. A 10-year trend of ever-increasing supplies has been reversed, and on October 1 this year the corn carryover is an estimated 1,550 million bushels, down 350 million from a year earlier.

## Holt County Ranch Tour Held Wednesday

The Holt County Ranch Tour was held October 17. The tour was joined at various points by about 50 different people. Ranchers and their wives on the tour viewed windbreak plantings and blow-out control areas, studied range site differences in types of grasses and listened to explanation of problems and reasons for doing conservation work. A demonstration of the use of cattle grub control chemicals was given.

Ranchers, Claude Liermann and Elmer Vogel explained their respective ranch operations and what they had done in range and cattle management.

Holt County Soil Conservation Service personnel and University of Nebraska Extension specialists assisted by answering questions and giving explanations. Lunch was served by the ladies of the Amelia Methodist church.

Dairy farmers in district 14 of American Dairy Association of Nebraska will hold a district dairy meeting Thursday, Nov. 1, at the Tropical Gardens, O'Neill, commencing at 8 p.m. The counties in District 14 are: Boyd, Brown, Cherry, Grant, Holt, Hooker, Keya Paha, Rock and Thomas.

Each year American Dairy Association of Nebraska holds district meetings throughout Nebraska for the purpose of reporting to dairy farmers the program of American Dairy Association, national and on the state level. Each year approximately one-third of the directors' terms expire and these need to be re-elected or new directors elected to fill these positions.

T. A. Evans, Dairy Marketing Specialist, University of Nebraska, will be the featured speaker. The state manager of ADA, Sam Lewis, will report on the past year's activities and will present the 1963 promotional plans for American Dairy Association.

The new physical fitness film will be shown. This film, "The Time of Our Lives", in a very subtle way, points out the need for dairy products in our daily diet to keep us in good physical condition.

Everyone interested in dairying is invited to attend one of these meetings.

## Support Rate For '62 Crop Corn is \$1.13

The final rate for 1962-crop corn in Holt county will remain at \$1.13 per bushel, Floyd Butterfield, Chariman ASC Holt County Committee, has announced. This is the same as the minimum rate set in advance of the season to help growers plan their operations.
