

### Meek News

By Mrs. Fred Lindberg

The Cactus Ranchette project club met at the Emma Wrede home Tuesday evening with 13 members and 3 visitors present. Roll call was answered by telling of an improvement made in their cupboards. The lesson on copper tooling was presented by Twila Hicks. The door prize was won by Mabel Wrede. Plans were made for the Christmas party, Dec. 1 at the Lawrence Dobrovoiny home.

10,000 farmers can't be wrong

#### GEHL Mix-All cuts feedmaking costs

The 10,000 owners of Gehl Mix-Alls have found that it's the best money-saving machine they have ever owned. Try it yourself... you'll save on costs by using your own grain and buying concentrate in quantity. You save the cost of grinding and mixing because you do it yourself. You save grain hauling trips to the mill. You save again by making feed in minutes... no waiting in line at the mill.

It's easy to make high quality, low cost feeds with a Mix-All. Just load your grain in the swinging auger feeder. Pour the concentrate in the low-mounted concentrate hopper. If you want to add roughage to your ration, toss baled hay slices right into the crusher-feeder. The Mix-All does the rest. In just 20 minutes you'll have two tons of finished feed a commercial mill would be proud to put out. And you can't beat the convenience of grinding and mixing when you want to. You can make a fresh batch in minutes.

You'll like the savings... many of the 10,000 Mix-All owners report that in just one year they saved enough money on feedmaking costs to pay for their Mix-Alls. Seeing is believing... so stop in soon for a demonstration of the money-saving, time-saving Gehl Mix-All.

HEART OF THE GEHL. Big 507 sq. in. grinding chamber gives real capacity. The 66 steel hammers grind all ingredients uniformly... best for mixing, best for feeding. This bigger screen and more hammers reduce power requirements for grinding.

OPTIONAL CRUSHER-FEEDER HEAD. Acts as both crusher and compression feed roller. Feeds roughage and ear corn into grinder at a steady flow. You can get this feature with or without the swinging auger feeder.
