It's the unity  
in a community  
that gets the job done

in Neligh....

THE BLACKBURN MANUFACTURING COMPANY

Another home grown industry that is helping Nebraska communities gain a sound industrial reputation is the Blackburn Manufacturing Company in Neligh. Founded in the late 1940's by E. A. Blackburn, this firm manufactures lightweight, durable and colorfast plastic flags on steel stakes for use by soil conservationists, contractors, oil companies, public utilities and others. More than 130 tons of steel wire and 21 thousand pounds of plastic are used yearly in the manufacture of the flags which are sold in all 50 states.

Helping local industry with efficient, low-cost electric power is another benefit accruing to Nebraskans through Consumers' service.
