INTERNATIONAL PEACE SOCIETY.

We have just received from London, England, a printed report of the thirteenth conference of the association for the reform and

codification of the laws of nations. The meetings were held in the Guild hall, London, on the 25-29 days of July, 1887. There were quite a large number of members from the United States. Hon. David Dudley Field, Hon. Chas. A. Peabody and others of New York were in attendance. Among others we notice the names of Jay Irving Manatt, chancellor of the state university of Nebraska, and Rev. W. G. Hawkins, A. M., B. D., who was invited to read a paper upon the "Public land laws of the United States." We give only the opening sentences of this paper, which is new firm to cut into the trade of these estab- printed in full. The report makes a volume

habitable, by reason of distance from markets, are opened to profitable settlement by the people; besides, the government land grants to railroads embrace only every alternate section of 640 acres on both sides of the road, the limit being within ten miles, and in a few instances twenty miles, alternate sections being reserved by government as homesteads, timber claims and pre-emptions to actual settlers. The policy of the railroad is the same as the government, to dispose at cheap rates and on easy terms to actual residents and tillers of the soil.

This policy has brought a thrifty and indus trious population of over ten millions of people to settle in the states west of the Mississippi within a very few years. One state alone, Nebraska, within twenty years having received a population of nearly one million people, the corn crop of last year being 127,

000,000 bushels, to say nothing of large stock and east of the Rocky mountains products. There are yet seven million acres of fertile land west of the Missouri river open to settlement.

This paper is confined to the regulations pertaining to agricultural lands. The laws pertaining to mineral and the so-called desert ands should form a distint paper. There are yet some millions of these lands which have not been surveyed, or as yet open to settlement. The paper closes with a very brief synopsis of the agricultural land laws of the Cincinnati band. Newspaper men from all propriate ceremonies. Cincinnati the Scene of Many Prominent Gatherings-The Fress Bauquet.

Editorial Correspondence.

After touring around the many large cities between Lincoln and Cincinnati, passing a day pleasantly at Chicago, St. Joe, Indianapolis, and other points, the writer for the first time finds himself in Cincinnati, the original Queen city, and that too, under circumstances most pleasant. It was early Saturday morning that myself and friend arrived here, and since that time music has filled the air, and the immense crowds that thronged the streets gave certain evidence that the city was not living

its ordinary life, but that an extra occasion was on dit and so it was. The suprence lodge of Elks was just closing a very successful and interesting session and in honor of the

event, the city was in gala dress. Every house was adorned with emblematic flags and decorations with the Elk head a prominent lecturer on most everything, whether stationary or flying. The Elks were well represented and the meeting is said so have been the most enjoyable as well as most profitable ever

held, closed Friday evening with an elaborate banquet at the Highland house, one of Cincinnatis most popular resorts. Saturday and Sunday most of the Elk's were leaving for home, and today (Monday) the scene about town is considerably changed.

The Elk ornamentations are being removed trust for the people. The land laws are so and in their place the beautiful insignias of in the Western association. framed that encouragement to the increase of the Knights of Pythias are going up. Arches large landed estates is avoided as much as of magnificent proportions are being and have of the Western league, Denver being the sole been erected and every few moments the sound of an additional band is heard march-

One of the finest arches in the city spans Fifth street between Vine and Race. It is made of gaspipe with several rows of lights displaying welcome greetings in red, yeljow and blue colored jets. It is a beautiful piece of work, and displayed by a private individual. Various other appropriate arches bearing the mottoes of the order, words of welcome, initials "F. C. B.," monograms and the colors of the order are everywhere to be seen. Every business house, however small, has some sort of K. P. decoration and the shop windows of the larger establishments are works of art. Some show the Pythian knight in full dress, another on horseback, another as Damon and Pythias, another a beautiful picture of supreme chanceler Douglas, and others in almost countless different designs.

Having received an invitation from the Cincinnati Press Club some two weeks ago to be present at the dedication of the press handquarters, at the Cincinnati Centennial buildings I availed myself of the proffered kindness to participate in the festivities on Satur-

day. The exercises were very interesting and especially so when it is known that at the conclusion of the dedication a sumptuous spread with champagne accompaniments was served. It was a very dainty, yet interesting affair.

Having luxuriously sufficed the inner man; a line of march was formed and headed by the parts of the country numbering over two was present and conducted the exercises, and

Richard Smith, viz: "Though an angel should write, still 'tis devils must print." At intervals during the banquet de lightful music was rendered by the celebrated

Cincinnati orchestra and thus one of the most pleasant occasions tendered the press of the central states was closed. Leave to-night for Philadelphia and my next will be from New York or the seaside. LOU W.

Base Ball Notes,

The University club defeated the Domestics in a well-played game Tuesday afternoon by a score of 11 to 10. Stephens and Whistler and Kimerer and Barnes occupied the points for the respective teams.

The Ulysses club-which, by the way, is a very good one-defeated the University club Wednesday afternoon in a rather one-sided contest. Stephens, the University twirler, sprained his arm in the first inning, and did no effective work thereafter. The result was occasion. The house was well filled, and the fancy dances, rope walking, speech making 17 to 4.

A Handsome Present.

The 5th being his estimable lady's birthday, Mr. A. C. Zeimer presented Mrs. Zeimer with one of the finest sets of china ever brought to Lincoln. Some six months ago a traveling salesman representing a foreign china factory called, and the ever thoughtful Zeimer, having an idea that an elegant set of china would make a fitting birthday token, ordered one especially made by a European firm It is neatly ornamented, contains about two hundred pieces and is made of the very best china. The present arrived last week without a single break and now Mrs. Ziemer's friends cannot say enough in admiration of the beautiful present.

THE COURIER, by the way, desires to join Mr. Zeimer's hosts of friends in wishing her continued good health and many happy returns of the day.

Mr. Mahler's Day at Cushman Park. On Tuesday, June 19, Messrs. Andrus & Son will give Mr. Mahler the use of the park for his outing with his friends; also a special train which will leave at 10 o'clock a. m. and return at 6 p. m. It will be a basket picnic. Gentlemen and children together will enjoy base ball, lawn tennis, croquet, games, danc ing. All Mr. Mahler's friends are welcome Over 1,000 invitations will be issued.

BORBY SHAFTO.

The presentation of this pleasing play at the Funke last evening was a most enjoyable audience most appreciative. The children acquitted themselves very creditably, and their plause ter of Bobby Shafto was taken by Miss Jessie Leland, that of Nida, the sailors lass, by Daisy Fotvin, Mother Goose by Mabel Sperry, Gypsy Queen by Hattie Huffman, Mercury by Bessie Lane and Spirit by Mrs. Speliman. The performance was under the personal direction of Mr. Jacob Mahler, and passed off very smoothly. It will be repeated at a matinee this afternoon.

The feature of the evening was the dancing of the elegant minuet by the following young ladies and gentlemen: Miss Hattie Leland and Mr. Elmer Henkle, Miss Carrie Leland and Mr. C. R. Richter, Miss Aileen Oakley and Mr. Oscar Funke, Miss Belle Oakley and Mr. Fred Houtz, Miss Hallie Hooper and Mr. Will Maxwell, and led by Miss Anna Hawkins and Mr. Jacob Mabler,

THE CATTLE KING.

The sensational border drama of "The Cattle King" will be given at Funke's to-night by Mr. J. H. Wallick and company. One car load of scenery is necessary for the proper presentation of this play, and arrived this morning. Read what the Philadelphia *Times* says of it.

James H. Wallick and his strong company produced a new play entitled "The Cattle King" at the National Theatre last night. It is a melodrama of the most approved border is a melodrama of the most approximation of the second sec ing down bofore triumphant innocence. An English nobleman becomes involved in finanial difficulty and a Mexican cattle king come to his rescue and at the same time demands his daughter's hand. But the daughter ob-jects to a "Greaser," and to escape him flies to America in search for her brother. Her search leads her into the wilds of New Mexico. The rejected Mexican follows her with his band. Now comes in the American hero, another cattle king, one of the kind that just hunger for a shot at a Mexican. The feud between the Mexican and the American is not only a bitter one, but an intensely exciting one upon the stage. Of course there can be but one end. Bob Taylor, the American, overcom

A Gala Day of the Pleasant Hour Club

The picnic given in honor of the Pleasant Hour Club by Mr. A. B. Smith, was one never to be forgotren. Mr. Smith dld all in his power to entertain his guests, and the greatest success of the season was the result. A special train left the B. & M. depot at exactly five o'clock, Wednesday evening returning at 11:30

Lawn Party.

A very pleasant lawn party was given Tues-day evening by Miss Gertie Gardner to a number of visiting relatives, Mrs. F. A. Dailey of Duluth, Minn.; Mrs. Carl Sibley, of Franklin, Pa., and Miss Minnie Gardner of Chicago. Dancing and cards formed the staple amusements of the evening, although the guests found other pleasant ways of bying entertained. A delightful reflection of strawberries and ice cream was served, and all have reason to be glad they were present. The following were present:

They Kept Apart.

Mr. Marise de Lazan, of this city, who is known in literary as well as fashionable society, is the author of several successful dramas. Like many men of talent, he has his peculiarities, if such they be, and one of them is the wearing of clothes that are extremely fashionable. He is careful of their cut and has a habit when seated of drawing his trousers up a little, so that the unhandsome bagging at the knees may not result. In an elevated road car recently he was absorbed in thought and mechanically drew up one of his trousers legs and then took a tug at what he thought was the other. A man side him angrily grasped his arm and said: "What do you mean, sirf" Mr. Lazan looked down, saw an exact counterpart of his own trousers on the other man and fied to a forward car without an explanation. Reaching the bridge car, he breathed freer and sat down. The man he sat beside jumped up and rushed to the front platform, where he remained until the other end of the bridge was reached, keeping an eye suspiciously on the absent minded dramatist. It was the owner of the twin trousers. - Brooklyn Eagle.
