A French company is waiting for permission from the Russian government to construct a canal connecting the Sea of Azov with the Black Sea. The canal will be 180 kilometers long, will take five years to complete, and will be a great benefit to the people of southeastern Russia. This is an interesting bit of foreign gossip, but a good new way local item to the effect that Hallett is still selling first-class jewelry at low prices is of more interest to Lincoln people. Watch repairing a specialty.
Considerable excitement was occasioned Wednesday evening by the burning of a stable in the rear of 1227 P street. Many believed it to be the Burr block, and a large crowd soon gathered. The fire was quickly got under control, but when they returned to their quarters it was found that the fire boys had been robbed of a considerable amount of money, doubtless the work of the man or men who set the stable afire. Subscription papers have been circulated, and the amount lost by the boys made good. It was a dastardly deed, and the perpetrator will fare badly if caught.
