PEN, PAPER AND INK.

Outing for June gives timely prominence to the social functions which Lawn Tennis is fulfilling; it is becoming an important portion of the life of America's sons and daughters. As the Lawn Tennis editor rightly says, "it is especially the ladies' game, and its tournaments bring out the happiest and pleasant sides of human nature."

Outing seems determined to make us thoroughly familiar with the scenes and incidents of England's cycle of fashionable sport. In the June number "the historic homes of British sports" are continued by "Merlin," whose wistful sketches of "The Derby," and "The Cup," under the title of Epsom and Ascot, aided as they are by the illustrations of Temple brothers and G. Child Hassam, add another, and a graphic chapter, to the permanent souvenir of England which the completed series will make.

The June Magazine of American History is as usual rich with interest. In the opening article, "Some Old New Yorkers," the Hon. Charles K. Tuckerman presents a most entertaining variety of personal reminiscence, anecdotes, and pen portraits of well known citizens, nearly all of whom were of national reputation, with some choice illustrations, the frontispiece of the number being a remarkably fine portrait of the distinguished Bishop Wainwright, of the period under review. The second article is an illustrated sketch of the famous Simon Kenton of early Kentucky by Miss Annie E. Wilson, entitled "A Pioneer and his Corn-Patch." Then follows a strong, carefully prepared historic essay on Canadian affairs by Dr. Prosper Bender, significantly styled "Our Northern Neighbors, Difficulties to Union, Race and Creed Troubles, Uncertain Future." Mrs. Lamb furnishes an agreeable picture of social and other antique matters as seen through correspondence a century old, called "American Belles and Brides in England."

The wind of Thursday night blew in the large windows in Louis Meyer's store front but with that gentleman's customary enterprise the damage was repaired before noon yesterday and no one that now passes could discern that the storm had played sad havoc with the premises.

Stuart Robson has accepted a play from Prof. Corbett, entitled "Is Marriage a Failure?"

If you have a tooth for delicacies your every want may be supplied at King's Grocery, 1126 N street. Call up 61.

\$13.00 Round Trip to Cheyenne next Wednesday on the Interior Land and Immigration Co's. excursion. Tickets good going or returning on any line. Call on E. T. Gadd, manager department "D," room 9 Richard's block, for further particulars.

The new Wednesday evening train for Cushman park will be an attractive feature. Picnickers can go out on the 4:30 p. m. train and return at 7 or 9:30 p. m., spending the evening in the woods all for 15 cents. The regular train this evening will leave at 6:30. Trains leave the park at 7 and 9:30 p. m.

Second grand excursion to Cheyenne next Wednesday. Round trip \$13.00 with choice of roads in either direction.

The English Doctors.

Who are located at 229 North Tenth street, have extended the time of free medical services for one week.

All who visit them before the evening of June 7th, will receive services until September 7th free. The object in pursuing this course is to become rapidly and personally acquainted with the sick and afflicted. The doctors treat every variety of disease and deformity, and will perform all surgical operations free.

The amount of candor and honor manifested by these gentlemen toward the afflicted has secured for them an unparalleled success. Office hours 9 a. m. to 8 p. m.

Burlington Route - Still Another New Fast Train.

The B. & M. keenly alive to the wants of the traveling public, have placed in service a new train whose superior appointments are sure to merit immediate recognition. This train leaves Lincoln at 7:25 p. m., arrives at Omaha at 9 o'clock and Chicago at 1 p. m., the time being but slightly in excess of that of our celebrated "Flyers." A through sleeper accompanies this train, and breakfast and dinner are served in dining cars.

The local service between Lincoln and Omaha is now as near perfection as can be desired, including, as it does, four daily trains in each direction, the running time being only eighty-five to ninety minutes.

As we have frequently remarked heretofore, do not waste your money in making experimental trips by other lines represented as being equally as good as the "Burlington." They are not.
