Scott Bros. make a specialty of prescription work, and having one of the most competent prescription clerks, with fifteen years experience, can assure all patrons accuracy and prompt filling of all orders. We use none but the purest drugs and make charges reasonable. When you use engraved cards or invitations, you have the finest work of the kind that can be produced. Even her royal highness, Queen Victoria, uses just such engraved cards as are sold at the COURIER office, but instead of Lincolnites paying \$5.50 to \$5.00 per hundred for them, which is the price in London, New York and Chicago, they pay but \$2.50 per hundred. And this price does not change the quality of material or workmanship, for in the large cities you pay for style, while in Lincoln in order to create a demand we must get down close to cost prices. Call and see our work.

H. Goldsmith, for the past twenty years a resident and merchant of Philadelphia, is paying Lincoln a visit this week with a view of locating. He is so well pleased with the city that he thinks of buying it, and in case his offer to the council is not accepted he will manage to secure local interests and expects to cast his lot with us in the fall. Mr. Goldsmith's son, who came to Lincoln several months ago, has been writing home in such praise of this city that the "old man" arrived on the spot to see for himself and with the results above stated. They will open an extensive house furnishing goods store here about September first, at which time the family will be removed to Lincoln from the Quaker City. The COURIER is pleased to congratulate Messrs. Goldsmith & Son on their choice, for after visiting various other points Lincoln seems to have realized their ideal view.

Jas. Lewis, the rustler and one of the managing partners of the Lewis Hardware and Implement Co., left for the east yesterday. He will stop at Freeport and see the Henry Eggly Co. to arrange for a fine buggy exhibit at the coming State Fair, after which he will do Chicago. He expects to return next week with his estimable lady, who has been visiting at Elkhardt and unfortunately took sick while there, but is now considered sufficiently recovered to be able to journey homeward.

Prof. Gibault sends the COURIER a program of the Theo. Thomas orchestra opening in Chicago Monday evening at the Exposition building. The list shows some of Thomas' most exquisite selections together with a number of new arias. Prof. Gibault writes the COURIER that he has been invited to render a number at a grand parlor concert to be given at Mme. Schwertz's beautiful home next Monday evening, after which he will make the trip to the Thousand Islands.

J. W. Cutright will take charge of the city department of the Journal tomorrow. That tired feeling now so often heard of, is entirely overcome by Hood's Sarsaparilla, which gives mental and bodily strength.

The attention paid by tradesmen to the taste and preferences of the fair sex is one of the features of modern business. This is conspicuous in no line more than in the shoe trade, and the ladies of Lincoln have awakened to the fact that Priscoe the Shoe Man is catering to their trade most successfully with a big stock, a beautiful store, polite salesmen and courteous treatment. Special attention is invited to the line of ladies' fine French shoes with front lace and patent leather trimmings, also to the line of fine dongolas with patent leather tips for misses and children. These are but two lines. There are many others, and all tastes can be suited.

What is Scrofula

It is that impurity in the blood, which, accumulating in the glands of the neck, produces unsightly lumps or swellings; which causes painful running sores on the arms, legs, or feet; which develops ulcers in the eyes, ears, or nose, often causing blindness or deafness; which is the origin of pimples, cancerous growths, or many other manifestations usually ascribed to "humors." It is a more formidable enemy than consumption or cancer alone, for scrofula combines the worst possible features of both. Being the most ancient, it is the most general of all diseases or affections, for very few persons are entirely free from it.

How can it be cured? By taking Hood's Sarsaparilla, which, by the cures it has accomplished, often when other medicines have failed, has proven itself to be a potent and peculiar medicine for this disease. For all affections of the blood Hood's Sarsaparilla is unequalled, and some of the cures it has effected are really wonderful. If you suffer from scrofula in any of its various forms, be sure to give Hood's Sarsaparilla a trial.

Hood's Sarsaparilla Sold by all druggists. \$1.00 per bottle. Prepared only by C. I. HOOD & CO., Apothecaries, Lowell, Mass. 100 Doses One Dollar
