Hotel Champlain.

Three miles south of Piattsburgh, on the direct line of the Delaware & Hudson Railroad, is located the new and superb Hotel Champlain, without doubt the finest and most complete summer hostlery in the country. Overlooking Lake Champlain from the summit of a bluff some 200 feet above the level of its waters, it commands a magnificent view of this inland sea that occupies so important and remantic a place in the early history of our nation. The appointments and furnishings of the hotel are at once elegant and artistic. It is built upon the solid rock, and all about is the primitive forest, while its sanistary arrangements are as perfect as genius has been able to devise and art to secure. About three sides of the house extend piazzas twenty feet in width, affording an unbroken promenade over 1000 feet long

Geographically, the Hotel Champlain has many advantages, it being readily accessible by both rail and boat. Nature has also sig-Burlington for Duluth from which place they nalized the place with charms none can resist. > Selling Books by Subscription. The method of selling books by subscription

has many advantages over any other, and is daily growing in importance and popularity. By this method the attention of the purchaser is called to valuable books of which he might remain in entire ignorance if they were sold in any other way. It is the most direct and altogether the most economical way to buy books. Books purchased at a retail book store have generally passed through the bands of from two to four middlemen, each of whom must have a profit.

The Riverside Publishing Co., St Louis, Mo., offers profitable employment to all who wish to engage in the business. Experience is not necessary, but any lady or gentleman with intelligence and industry can make a success of the worth.

Garfield Beach on Great Salt Lake, Utah. The famous health and pleasure resort, Garfield Beach, on Great Salt Lake, Utah, 18 miles from Salt Lake City, and reached only by the Union Pacific "The Overland Route," is now open for the season.

This is the only real sand beach on Great Salt Lake, and is one of the finest batting and pleasure resorts in the west. Great Salt Lake is not a sullen, listless, sheet of water, beating idly on the shore, but on the contrary is as beautiful a sheet of water as can be found anywhere. It is 21 per cent. salt while the ocean is only 3 per cent. and the water is than from the north. so bouyant that a person is sustained on its surface indefinitely without the least effort on his part. Experience has proven its great hygienic effects. Owing to the stimulating effect of the brine on the skin, or the saline air upon the lungs the appetite is stimulated, and after a bath, the bathers are ready for a hearty meal, and feel greatly invigorated.

Fine bath houses accommodating 400 people, have been erected at Garfield Beach, in connection with which there is a first class restaurant and a large dancing pavillion built out over the lake, all of these are run by the Union Pacific, who guarantee a first class resort in every respect.

The Union Pacific has made low rates of

fare for those desiring to visit Salt Lake City and Garfield Beach. For complete description of Garfield Beach

and Great Salt Lake, send to E. L. Lomax, Gen'l Pass Agent, Omaha, for copies of "Sights and Scenes in Utah," or "A Glimpse of Great Salt Lake," or

Heroism Shown at the Becent Western Union Telegraph Building Fire. The fire which partially destroyed the Western Union Telegraph building on lower Broadway in New York city the other morning was the cause for a display of heroism well worth noting. Several

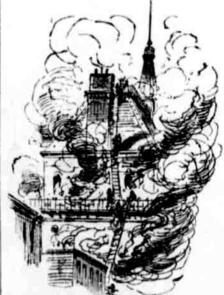

THE WESTERN UNION BUILDING ABLAZE by flame, fled to the roof, and there amid smoke and heat awaited the result. Some of the group grew almost frantic, but one of the females, hardly more than a girl in years, kept her senses. From the top of an adjacent building a ladder was run up. which failed by forty feet of reaching the roof. A fireman climbed to its highest

rung, carrying a coll of rope. "Throw it to me," shouted the nervy lass above. "I'll catch it." And catch it sho did with sure and untrembling grasp. Swiftly she made one end fast to a projec tion, and up the line swarmed the firemen, who soon placed the imperiled party out of the reach of danger.

The property loss by the fire, roughly estimated at half a million, did not, of course include more than a tithe of the actual damage. The building might be termed the heart of the Western Union service, and when the wires went down, and the enormous switchboard disappeared before the consuming heat, the telegraphic serv ice of a large part of the country was temporarily suspended. That great loss consequently ensued to business interests goes almost without saying, but the total amount sacrificed through the unexpected interruption of wire communication will probably never be ascertained. The damaged building was considered

fireproof, but its interior construction in cluded a great deal of wood, which fur

An Army of Teachers.

Thirty-four years ago a hundred or more school teachers met in Philadelphia and organized a national association of teach-Meetings of the association have been held every year, except in 1861, 1862 and 1878, and the membership has steadily increased. The society is now known as the National Educational association, and the thirty-fourth annual meeting recently closed in St. Paul, Minn. More than 12,000 teachers were present, the largest attend-ance in the history of the association, except at the Chicago meeting of 1887, when 16,000 teachers were registered and the membership fees amounted to about \$30,000. The aggregate attendance this year from the south and southwest was much greater

Many colored men and women teachers went from Virginia, Tennessee, Mississippi and the Carolinas, and Georgia sent William D. Johnson,

of Athens, who is secretary of education of the Afri can M. E. church The largest dele gation of teachers from any one state probably was from Iowa. Her membership in the registration books went above 1,100. Perhaps the most

notable feature of PROF. W. R. GARRETT. the meeting of 1890 was the display made by the manual training departments of schools in all parts of the country. Almost everything that can be made of hard or soft woods, cloth and all light materials with the use of small tools and light run ning machinery could be seen at the exhibition rooms. Those exhibits were the best possible evidence that discipline of the hand is coming to be a very important part of school work in the United States It may be worthy of note here that manual training was first tried in the schools of

western states. Professor William R. Garrett, of Nashville, Tenn., is president of the association for the ensuing year, succeeding J. H. Can

field, of Lawrence, Kan.

The annual meetings of the association have been held in all parts of the United States, from Boston to San Francisco and from St. Paul to Nashville. In 1859 the teachers gathered in Washington, and a feature of the session was a reception by Presi dent Buchanan and his cabinet. In 1865 a pilgrimage was made to Harrisburg, Pa., and the association visited the battlefield of Gettysburg, which at that time was hardly cleared of the signs of fighting. In 1870 President Grant and party called on the teachers at Cleveland while they were 'n session. In 1882, 1883 and 1885 the meet-Ladies will find this a desirable place to get ings were held at Saratoga, and in 1889 those who could afford to do so went all the way to San Francisco.
