POPULATION OF LINCOLN, 65,000.

PEOPLE WE KNOW.

The marriage of Lieutenant T. W. Griffith and Miss Aileen Oakley, which is announced to occur September 2, will remove from the "single" set two of the most popular members of society. Miss Oakley's charms have made her a reigning belle and the lieutenant's manly bearing and companionableness have won for him a warm place in the friendship of the men. The wedding, by the way, will attest the popularity of the happy couple.

Edgar C. Snyder, for two years past associate editor of the Omaha *Excelsior*, has left that paper to take charge of the dramatic and society departments of the *Bee*. He will do "first nights" and have general supervision over the social work. E. C. is peculiarly well fitted for this class of writing and the *Courier* congratulates the *Bee* on its new acquisition. His wide acquaintance with the profession and keen observation of stage matters enable him to write dramatic criticisms that are always readable, generally to the point, and in accord with popular comment. In social work he is equally at home.

J. M. Gillan, who is well known in social and newspaper circles in this city, has accepted a position on the editorial staff of the *Bee*. Mr. Gillan was city editor of the Omaha *Republican* when the old ship went down.

Local pride should stimulate interest in behalf of W. J. Bryan, Lincoln's candidate for congress from the first district. In Omaha it is common for both political parties to unite to a considerable extent on Omaha's candidate for a state or national office. Lincoln might do well to follow the example of the metropolis, and she could honor no better man personally than Mr. Bryan. There is a hearty, frank enthusiasm about our distinguished townsman that is singularly winning.

ning, and his personal popularity is attested by the fact that many of his warmest friends are members of the opposing political party. The years are few since Mr. Bryan cast his fortune with Lincoln and Nebraska, but to-day the gifts of young orator is one of the best known men in the state. Our city has a self-interest in his success and his career will be closely watched by all those who like to see Lincoln and Lincoln young men forge to the front.

Fred Howe, the bright young man, who acts as clerk of the state banking commission, returned from a pleasant visit at Boston, his old home, Monday evening. Fred made the acquaintance of the brother of the Chinese minister to the United States, while enjoying the luxuries of a Pullman. The latter proved to be a well educated, entertaining man, and singularly enough Fred discovered that he knew an old chum of his, the son of a United States consul at some outlandish town in China.

Mrs. Will Scribner, who returned from Colorado last Thursday, had an interesting experience last Tuesday. A cloud burst was seen from the Denver & Rio Grande train, on which she was a passenger, while near Veta Pass, Col., and when the spot over which the phenomenon occurred was reached the railroad track was covered with two feet of water.

Word comes from the hunting party near the Yellowstone Park that L. C. Burr not many days since brought down a deer and a fine bull elk. Game is reported very plentiful.

The milk dealers' association of Omaha is wrathful, all because the city physician has given it out that impure milk is being sold in that city. They claim that such a statement reflects on each and every member of the association and while they make no denial of the charge they ask that the city physician specify as to who the guilty parties are and they further request his immediate resignation. He has not resigned as yet however and it is scarcely probable that he will. The public has aimed shafts of poignant wit at the milkman for many a moon and have walked on his neck with ungentle tread for, in those many years, in retaliation for the craveness chalk and water he has furnished with great precision and commendable regularity, yet this is the first instance for a long time in the history of Nebraska wherein the milkman has resisted these attacks. But then the milkman probably has feelings the same as other people and occasionally his temper turns as sour as the milk he peddles.

The largest whale captured during the past twenty-five years has just been caught by the Northern Light, a whaling ship now cruising in the Behring Sea. The monster contained 3000 pounds of bone valued at \$15,000, and it is expected to yield 170 barrels of oil.

Fitting the foot is not an easy matter, but with such a magnificent line as Briscoe, the shoe man, carries it is a very easy matter to find the right thing. Fit, of course, is the first principle in footwear, but with it one likes style as well. Here again does Briscoe, the shoe man, come to the front. No finer display of stylish footwear is anywhere to be found. Ladies never fail to go away pleased, and the gentlemen, too, are always well satisfied. All the latest shapes are on hand and prices are never known to be other than right.

SUMMER COMPLAINT.—A druggist at Britt, Hancock county, Iowa, relates his experience with this disease as follows: During the summer of 1882 my little girl, two years of age, was taken seriously ill with summer complaint, so common to children of that age, and after being treated by a physician and getting no better I took from my shelves a bottle of Chamberlain's colic, cholera and diarrhea remedy. She felt relieved after the first dose and in three days was entirely well.
