SUMMER COMPLAINT.—A druggist at Britt, Hancock county, Iowa, relates his experience with this disease as follows: During the summer of 1882 my little girl, two years of age, was taken severely ill with summer complaint, so common to children of that age, and after being treated by a physician and getting no better I took from my shelves a bottle of Chamberlain's colic, cholera and diarrhea remedy. She felt relieved after the first dose and in three days was entirely well.

THE WORLD OF SOCIETY.

HE lengthening shadows of fast fleeting summer have served as a bugle call for the legion of Lincoln's absentees and for a couple weeks every incoming train has been laden with returning pilgrims.

From mountain and seaside, from inland lake and rural retreat from the fashionable resorts of the east and the golden shores of the Pacific, from the wilds of the north and tropics of the south, from foreign land and old ancestral halls, from everywhere—have the wanderers come. Singly and in companies have they come—some from a three month's sojourn in others from a few days' outing.

And the Juniors are also bestirring themselves. Both clubs will probably re-organize on the old basis, although there are some new schemes proposed. The first party will occur in a few weeks. Don't Care to Eat. It is with the greatest confidence that Hood's Sarsaparilla is recommended for loss of appetite, indigestion, sick headache, and similar troubles. This medicine greatly tones the stomach, assists digestion, and makes one "real hungry." See the new correspondence papers in tabular form just received at the COURIER office. We have all the latest waves, in all the fancy and plain paper, including a number of very pretty novelties. Envelopes to match all papers.

The prompt use of Ayer's Sarsaparilla will invariably cure all affections of the kidneys.

Mr. and Mrs. W. B. Oult who have been visiting their daughter, Mrs. O. G. King, returned to their home New York this week.

What is Scrofula. It is that impurity in the blood, which, accumulating in the glands of the neck, produces slightly lump or swellings, which causes painful running sores on the arms, legs, or feet; which develops ulcers in the eyes, ears, or nose, often causing blindness or deafness; which is the origin of pimples, cancerous growths, or many other manifestations usually ascribed to "humors." It is a more formidable enemy than consumption or cancer alone, for scrofula combines the worst possible features of both. Being the most ancient, it is the most general of all diseases or affections, for very few persons are entirely free from it.

How can it be cured? By taking Hood's Sarsaparilla, which, by the cure it has accomplished, often when other medicines have failed, has proven itself to be a potent and peculiar medicine for this disease. For all affections of the blood Hood's Sarsaparilla is unequalled, and some of the cures it has effected are really wonderful. If you suffer from scrofula in any of its various forms, be sure to give Hood's Sarsaparilla a trial.
