### CAPITAL CITY COURIER, SATURDAY, JULY 11, 1891

936 P ST.

s second class matter.

### POPULATION OF LINCOLN. 65,000.

AMUSEMENTS:

The past week theatrically has been rather dull and the opera house has been open but one night, the occasion being George Thatch-ers meritorious minstrels. The house was full and the auditors full of fun before the curtain went down. The vocal numbers were excellent and instrumental melody superior to anything heard this season with a minstrel organization. Lew Dockstader was among the old favorites and as usual con-tributed his share to the evenings enjoyments. Cain and Loreno, the knock-a-bouts, the quartette of Jose, Moore, Lewis and Frillman were clever features and in short every detail of the interesting program was well rendered, not forgetting the venerable George Thatchers fine specialties. It is a

ood show and worth frequent repetition in Nebraskas fair Capital city. Nothing at Funkes next week. The spectcular "Kajanka" will however be seen there

luring the "twenties" of July. THEATRICAL TALK.

Rose Eytinge is writing a novel.

Ted Peiper, a very promising young actor, will be a member of Rose Coghlan's company next season.

Margaret Mather is negotiating with Ellen Terry for a one-act comedy now in Miss Terry's possession.

Eddie Girard, of "Natural Gas," is just \$3,500 ahead of the bookmakers and has closed his racing season.

Robert Mantell has purchased Col. Al-friend's play, "The Louisianan," and will add it to his repertoire next season.

Cus Thomas and Sidney Rosenfeld will receive \$5,000 for the comedy they are writing for Nat Goodwin, as well as a large royalty. "A Hole in the Ground" will next season be put on the road by Frank McKee. Charles Cowles and Frank Lawton will be

in the cast, which will be a very strong one The N. Y. Casino managers have tried hard to catch Henry E. Dixey for next sea-son. He was offered \$36,000 a year, but re-fused, and on Monday last signed with Charles Frohman to star in "The Solicitor," to be produced at Herrmann's Theatre, Au-

panies routed westward always play the city. Mr. Churche's new house is a model of Lin-coin enterprise. Three months ago such a project as "The Lansing" was unknown, while to-day the first story is completed and the contract calls for its completion Novem-ber first. Mr. McElfatrick, the architect, in speaking of the house says: "It will be as speaking of the house says: "It will be as handsome and as complete in appointments and stage appliances as any house in the country." This is certainly saying much, especially from such high authority, and what more can either the people of Lincoln or the traveling companies ask? The house will seat 1,800, is three tiers in hight, with a stage of \$0x45 and 65 feet to rigging loft, while the curtain opening is 36 feet square. There are twenty beautiful dressing rooms on the ground floor, as also in the entire main portion of the house. In speaking of the mination used for the theatre. Mr. Church informs us that there will be 982 incandes-cent lights, and that the arrangement will be entirely novel and unique in design. The chairs for the parquette are of rich upholst-ery, costing \$6.65 each, while the balcony seats will be equally as fine in proportion. The exits are numerous and convenient, and all doors are opened at once by electricity, simply with a push of the button in the box office. Mr. Church will remain in the city several weeks, making his headquarters at H. S. Taylor's, where he will be glad to meet his old friends and make new ones. Mr. Church is stopping at the Coleman House.

Its concentrated curative power, makes Ayer's Sarsaparills the best blood purifier.

### At Manitou.

MANITOU SPRINGS, Colo., June 27.- [Spec ial.]-Manitou is to the people what a sugar barrel is to the flies on a bright summer day -decidedly attractive. There is an absence of flies and an influx of people at Manitou that is refreshing. These June days are of the leafy June that poets prate of—cool mornings, warm enough at noontime to re mind the out door wanderer that it is summer, and evenings full of moonlight and

The walks, drives and trails about Manitou are so numerous that old timers of several season's experience find some new beauties season's experience find some new beauties whenever they go out. The country is para-dise for the lively young woman or the brawny young man who delights in explor-ing expeditions. Manitou is best reached via the Union Pacific.

Buy coal mined near your home. Newcas the Nut is conceded by all that have used it to be the best for kitchen use. Price \$4.40 delivered. Sold only by Geo. A. Raymer. Tel-ephone 390, 1134 O street.

#### The Hot Springs of Dakota.

These springs are rapidly becoming famous on account of the wonderful curative proper-ties of the waters, and the many (marvelous cures which have been effected by the thermal baths.

The town and springs are delightfully situated in a picturesque valley in the Black Hills country, abounding in beautiful scenic effects, and at an altitude of 3,400 feet above the sea level; thus insuring a pure atmo-phere and exhilarating climate, absolutely free from malaria.

Under the enterprising and progressive management of the Hot Springs company many desirable improvements have been made; among the number the erection of a commodious bath house fitted up with all modern conveniences for the comfort of guests. New hotels have been built and comfortably furnished throughout, conducted in first-class style and at reasonable rates. Those who prefer stopping at a private house will find many desirable boarding places where good accommodations are furnished

at moderate prices. The superior daily service now afforded by the Burlington Route to Hot Springs, with through sleeping car accommodations from Omaha, Lincoln, Aurora and Grand Island, makes the trip an easy and enjoyable one;

## FOR BUSINESS WOMEN.

### TYPICAL COSTUME PUT FORWARD BY OLIVE HARPER.

It is Based on a Design by a St. Louis Woman and Is Described as Being Both Convenient and Tasteful-How It Will Look.

(Special Correspondence.) NEW YORK, July 1.- A business costume for women has long been a necessity, but none has ever yet been invented that would exactly fill the need, for no woman could quite give up all grace or prettiness for the sake of convenience since the world began. But a lady in St. Louis has invented a costume to which I have added what I think is some improvement, and I hope that the costume will be generally adopted before long. It does not lack feminine and even dressy qualities, while being as near perfect as such a suit could be for

the purpose. Now for a description. The outside garment is a neat reefer jacket, with three

pockets. The lapels to the jacket can be faced with silk or velvet, or in winter it can have a deep collar 'of astrakhan or beaver, but in warm weather it is to open slightly at the neck over the corsage, jus' enough to look dressy. It can also be worn open in front, it being arranged so that the fronts fold back from the exact middle and are held in place by being button-ed back, each side on its own buttons, there being a row of button holes on each edge. This makes

BUSINESS DRESS FOR it cool enough for anything but the STREET WEAR. very hottest weather.

The material may be tweed, cheviot. serge, diagonal or camel's hair. While the costume was designed in plaid, it would be more ladylike and unobtrusive, as well as useful, in some self color, for

instance, gray, brown, dark green, navy blue or black. The priestly nun's serge makes a valuable gown and coat after this style, as there is no "wear out" to it,

and it is handsome as long as a thread of it lasts. This comes in double width and six and a half yards make a suit for a tall woman. It costs high, so that the material, with linings, buttons and trimming would cost about twelve dollars. Any lady who can sew at all can make this dress by the help of the patterns for sale everywhere, only adapting each to the model where it varies, and such a

dress is good for five years. To be really elegant the jacket and dress should be of the same goods, and that should be heavy enough to be lasting and to show its value as a material aside from any trimming. The hat should be a coque for bad weather, plain and compact, and the gloves should be

### THE NEW PARK.

Lincoln park has a fine attraction for tomorrow, the balloon race to the clouds being the great feature. This novel and interest-ing spectacle will take place at three o'clock between Professor W. H. LeRoy and Herr Kyle. Commencing this evening at eight o'clock and continuing every evening for one week, Professor Brainard's dioramic views will be exhibited illustrating a beautiful and instructive tour of the world, which will be interspersed with fancy and comical sketches. Next week commencing Monday at half past eight and continuing for six nights, a grand bicycle race will be the attraction and some great sport is expected as the con-testants are well matched and each one sure of winning the race. norrow, the balloon race to the clouds being

of winning the race. Lincoln park is proving just what the man-agers promised—a first class resort for first class people and the COURIER is pleased to learn of the success with which it is meet-ing. For full particulars as to car lines etc., see advertisement page four.

frequent intervals during the day. In the afternoon a game of ball between the "Lin-coln Giants" and Omaha's famous "Cranes" will take place. Music will be plentiful and the park will as usual afford ample amount of cool and comfortable enterts all comers. The park will be sold in five and ten acre tracts July 22nd-Old Settlers day, so take in the fun while it lasts.
