How about that souvenir spoon? Have you sent one to your girl yet—if not about time. All the boys are sending their sweethearts these dainty tokens of affection and esteem and if you have not sent your girl one also—why, then you cannot be popular with the idol of your heart. They make most excellent birthday and other anniversary presents, mementoes etc. They are a life long remembrance and the longer they are kept or in use, the more the owner becomes attached to them. It is the great fad of the day and one which seems to be on the increase and bids fair to out-rival even the great bangle rage. Hallett is headquarters. His stock embraces everything new, neat and pretty and his prices are always right.

OUR POOR FEET.

THERE is nothing like a shoe that fits every curve and line of one's foot, with just the right and even pressure all around. Some feet are easily and quickly fitted with that "just right" feeling, and there are others that are a perpetual "tussle" to shoe-man-kind. If your foot chances to belong to the "tussling" kind, remember that we are always prepared to put our time against yours in the scramble for a fit. We shan't mind a bit if it does prove to be a matter of hours, if you don't. It's no trick with our modern shapes and forms to fit a reasonable well-formed foot, and the satisfaction of doing so, scores of times every day in the week, is prone to wane a trifle, so that we really hail a foot that is "fearfully and wonderfully made" occasionally. It starts a little dormant ingenuity to working and keeps that portion of the brain free from cobwebs.

Therefore, don't hesitate bringing your feet with you any time if you have the welfare of our brain and your feet at heart.
