GEOLOGISTS HAVE DECIDED the earth's crust to be over 100 miles thick. This is about the thickness of the man's head who buys his railroad tickets by some inferior and poorly equipped line, when he could get a ticket by the "Burlington" at the same rate.

Some time ago Miss Theo. Laws surprised her friends by announcing her determination to fit herself for an active career as a trained nurse, and in pursuance of that determination she bade adieu to Lincoln Friday to go to Chicago where she will enter the preparatory department of the Cook County Hospital. Miss Laws' accomplishments are well known among her many friends, and that knowledge is their assurance that she possesses the requisite pluck and ability to pursue the line of work she has undertaken to a successful culmination. The life of a trained nurse either in the crowded wards of the metropolitan hospital or in private channels brings its reward to the faithful worker; but it also has its discomforts and trials and the selection of this vocation by Miss Laws with a full realization of its responsibilities and cares cannot but compel the admiration of her friends and associates.

With her good sincere regard and best wishes of our young people who confidently predict a brilliant future for her in her chosen path. Her enforced absence from Lincoln is the cause of real regret in society circles where her lively disposition and high attainments gave her a wide popularity. PLEASURES OF IMAGINATION.

With tingling ears and frostbitten fingers, the Eskimo in his northern home now chafes his stiffened hands as he cowers before the chilling wind. Towering Penacles of ice, green and blue, stand motionless where the frigid waters of the open sea tap their crystal sides. The desolate landscape is covered with enormous stretches of drifted snow, and bleak biting winds rush over them, piercing the shivering natives to the marrow. The thickly bundled walrus hunter hastens to shelter as the sharp blasts whip across the opening and benumbs him with its insufferable cold.

N. B. The above will be found soothing if read three times a day during the present weather.

THE item of foot gear with apparently well dressed people, too often sinks into unnoticeable good words.

You are judged nine times out of ten, by your dress. Your shoes constitute an important element in that direction. Keep your feet encased in slightly shoes and your reputation will shine. Neglect them, and your good name will suffer.

DO not keep thinking that such shoes are hard to procure in Lincoln. Your town has taken a step forward in this avenue. It is for you to decide whether it is a worthy one; also if it is well taken, we are open to criticism, criticism, criticism. Yours faithfully.
