New Souvenir Spoons.

Always introducing something new and always bound to lead. These seem to be the characteristics of Eugene Hallett, the Jeweler. For months past he has shown to the public a line of souvenir spoons that for variety, beauty and value could not be duplicated anywhere else in Nebraska. Not satisfied with this he now introduces a new and very pretty idea in this popular line, known as the Florida orange spoon, and it leads them all. He is also showing something very dainty and artistic in a new Lincoln spoon which the ladies say is the handsomest they have ever seen. Its design and general finish is unlike any other, and Hallett's enterprise in securing them for his trade is receiving its just reward in a big demand. There are some jewelers that want to get a novelty until someone else has sold some. Hallett does the reverse. He gets everything new as early as possible and lets the other fellows come in afterwards--and the people know it, too.

Artistic Dress Making.

Misses Sampson & Pyott, after seven years of constant devotion to the art of fine dress making, feel confident that they can satisfy the most critical demands made upon them. We solicit a call at our apartments over Dorsey's dry goods store, 1121 N street.

\$100 Reward \$100.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure known to the medical fraternity. Catarrh being a constitutional disease, requires constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surface of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers, that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address: F. J.
