VOLUME XXIII, NUMBER 10.

## DYSPEPSIA

Up to a few weeks ago I considered myself the champion Dyspeptic of America. During the years that I have been afflicted I have tried almost everything claimed to be a specific for Dyspepsia in the hope of finding something that would afford permanent relief. I had about made up my mind to abandon all medicals when I noticed an endorsement of **Simmons Liver Regulator** by a prominent Georgian, a jurist whom I knew, and concluded to try its effects in my case. I have used but two bottles, and am satisfied that I have struck the right thing at last. I felt its beneficial effects almost immediately. Unlike all other preparations of a similar kind, no special instructions are required as to what one shall or shall not eat. This fact alone ought to commend it to all troubled with Dyspepsia.

J. N. HOLMES,  
Vineyard, N. J.

## ATTEMPT AT HAMILTON TO KILL THE IRISH AGITATOR.

Hamilton, May 23.—At the close of O'Brien's speech at the opera house tonight he left the hall by a rear door and took a covered carriage. On the driver's seat was John Nelson and T. P. O'Brien. The carriage faced about for the hotel a hostile crowd suddenly appeared. There was a report, the reins dropped out of John Nelson's hands, and with the exclamation, "O my God, I'm shot!" he fell forward on the seat. Eight more shots were fired without doing harm, when T. P. O'Brien succeeded in securing the reins and lashed the horses through the crowd to the hotel. Here was another hostile crowd who hooted and shouted. McMahon held the crowd at bay with a drawn revolver while William O'Brien and friends made their way into the hotel, followed by a volley of rotten eggs. The chief of Police and his men now rushed in after all was over. Nelson's wound in the left wrist, and the doctor considered it dangerous. No arrests were made.

## A DOUBLE STREAK.

Louis, May 23.—A Post-Dispatch from Little Rock says: While named Cox and Schafer were struck by lightning

## City Council.

The Council met in regular session Monday evening with all members present. The minutes of all the meetings from April 29th up to date were read.

Mr. Murphy objected to the minutes of Saturday evening, May 14th on the ground that the meeting was held specially for the locating of the proposed water mains and therefore the action taken on other business was illegal.

Mr. Greusel said it was a regular adjourned meeting and was the same as a regular meeting as far as the carrying on of business was concerned.

The mayor called for the opinion of the city attorney. The attorney replied that if the meeting was adjourned for the special consideration of one question the transaction of other business would not be legal, but if the purpose of the meeting was not specified any work whatever, could be done.

The minutes were finally accepted by a majority vote.

A petition signed by about a dozen tax-payers was presented, asking the grading of Cut-Off street, also permission to work out their poll-tax on the same.

On motion of Mr. Greusel the petition was referred to the committee on streets, alleys and bridges with power to act.

A letter from Ogallala stated that the bonds voted by that town in payment for the Water Witch fire engine, bought from this city, had been found illegal, and the city board desired Plattsmouth to accept warrants on the general fund of Ogallala in lieu of the bonds. The matter was referred to the committee on finance with power to act.

The report of the police judge for April was referred to the finance committee.

The following bills were reported, referred to the finance committee and presented again by the committee recommending their allowance: J. H. Bartner, special police, \$2; J. S. Duke, material for hose houses, locks etc., \$12.90; J. M. Schnellbacher, rent for hose house, \$3.50; J. H. Waterman, salary for three months, \$40; Cass county, fees for recording, \$4.35; Journal, for printing, \$29.75; Peter Merges, rent for council room, \$10. The bills were allowed.

The finance committee reported that \$600 were past due as part payment on the fire hose and recommended the payment of that amount to the American Hose Co.

Mr. Murphy asked if the hose had been properly tested, if it had not he thought it should be before it was paid for, as the company guaranteed it to stand a test he believed it would not be business like nor would the councilmen be doing their duty to accept the hose without first testing them. He moved that the committee on fire and water be instructed to test the hose in accordance with the contract. His motion was not seconded.

The question then arose as to the facilities the committee had for testing the hose.

Most of the councilmen expressed themselves as willing to accept the hose without the test as they were guaranteed to stand a pressure of 450 lbs. for four years and the \$600 was only a partial payment, and if the hose proved not good afterward the remainder of the money could be withheld until the guarantee was fulfilled.

On motion of Mr. McCallen the \$600 was ordered paid.

Mr. Greusel then moved that the committee on fire and water be instructed to take five sections of hose to the shops to be tested, and that they be present at the test. Motion carried.

The financial committee recommended the adoption of a resolution changing the sum of \$138.29 then in the Fitzgerald judgment fund to the Dovey judgement fund as the Fitzgerald judgement had been settled. Resolution was adopted.

Mr. Weckbach presented an ordinance for the vacating of a portion of Marble street between blocks 8 and 49, the ordinance was passed under a suspension of the rules.

A petition from J. W. Sage asking permission to place the dirt he excavated from his property on Sixth street, in preparing to build a barn, on the south side of the Sixth street bridge was referred to the committee on streets, alleys and bridges, with power to act.

Mr. Dutton presented a resolution requiring the laying of three blocks of water mains, beginning at the corner of Tenth and Rock, running west to Eleventh, then north two blocks, and the establishing of two fire hydrants, one at the corner of Rock and Eleventh and the other at the corner of Eleventh and Marble, at \$50 per year per hydrant.

Mr. Weber said he was not in favor of adopting this resolution as there were formalities of the law to be complied with before the city and if

this one resolution was adopted, petitions would come in from every ward asking for mains and hydrants and he did not think the city could stand the expense, but if it could and this resolution was passed he would see some petitions in from his ward. The resolution was adopted.

Mr. Weckbach, chairman of the special committee on printing, reported on the bids for city printing, favoring the Herald for the job work and the Journal for the advertising. On motion the printing was given as suggested.

Mr. Murphy then asked permission to speak on a personal matter, which permission being granted, he directed his discourse at Mr. Sherman, editor of the Journal, in regard to articles which appeared in the Journal during last week, accusing Mr. Murphy of having acted selfishly in having had two hydrants placed near his property, the hydrants being of no service whatever, to anybody but himself.

Mr. Murphy denied the statement most emphatically, said it was false and had been thrown at him simply because he belonged to a different political creed than Mr. Sherman. He said the nearest fire hydrant to his property was 150 feet away and the other one something over a block and nearer to the residences of his neighbors than to his. Mr. Murphy continued his address, giving Mr. Sherman's character as an editor a thorough overhauling, and showing his disapproval of the inventing and publishing of such reports very emphatically.

Mr. Dutton said he was accountable for those hydrants being placed in Mr. Murphy's neighborhood and Mr. Murphy had nothing to do with the placing of those hydrants in their present position. Mr. Dutton also said he had one hydrant near his property but it was not there for his benefit as much as for his neighbors.

Mr. McCallen said he did not think it would hurt him very much to have a hydrant on both sides of his house.

Mr. Weber said that according to the Journal the mains had been extended three blocks to accommodate him, he only wished it were true.

Mr. Greusel said there was a hydrant at his corner and he was glad of it, but he was not the cause of their being there, nor could a better location be found.

The mayor said he thought the councilmen were all in hard luck but if reports were true he had three hydrants at his place.

The council ordinance was then produced, read by title, laid over till next meeting, and council adjourned.

TO ALL EX-SOLDIERS AND SOLDIERS OF THE UNION ARMY.—You are earnestly requested to meet with us at the G. A. R. hall on next Sabbath morning at 10:30 to attend Devine services in a body at the M. E. church. We hope to see every man in Plattsmouth and vicinity, who served in the Union army present on that occasion. J. W. JOHNSON, Post Commander.

## THE LATEST NEWS.

### FROM FOREIGN SHORES.

Washington, D. C., May 22.—The tide of immigration continues to flow in the direction of the United States. Nearly 150,000 emigrants have been landed since Jan. 1. This is nearly 50 per cent in advance of the number for the corresponding month of last year. One day recently the arrivals at Castle Garden were 9,000. If the increase continues at the same rate, the arrivals for the year will be a round 500,000. It is not likely that they will get up to the figures of 1883, when they amounted to 770,000. Of course the Irish and Germans still predominate in the arrivals. That has always been the case, and is probably more marked now than usual. All the Irish who are dissatisfied with their lot—and there are but few who are not—and can get away, are coming apparently. The number of Irish who have come to this country during the last century is in round numbers 4,000,000. Germans, ditto. They come, however, from every country. Ireland and Germany 4,000,000 each, England 1,000,000, France, Sweden and Norway ditto. This year will bring the grand total of immigrants in the country up to 14,000,000.

### THE NATIONAL DRILL.

Washington, May 23.—The opening formalities of the national drill took place at noon.

men cleared a space about the flagstaff in front of camp headquarters in the monument lot. The Washington light infantry corps of this district marched in and formed a hollow square about the camp ground flagstaff. General Angur and his staff entered the square, the chaplain invoked God's blessing upon the camp, the new garrison flag was drawn to the mast head, the troops presented arms and the surrounding crowd cheered. The national drill was thus formally opened.

It looks more hopeful for the management of the drill tonight. Several military companies arrived today and went into Camp Washington, and with them came thousands of visitors who went to boarding houses and cheap hotels, in almost every instance, whereat the proprietors of the principal hostleries who contributed from \$300 to \$800 each to the drill, cursed. They are roaring mad and blame the committee having the visitors in charge. The committee have opened their books and correspondence to prove that they have done all they could for the hotel men who made contributions, but the visitors have objected to the prices and the boarding houses reap the harvest of their superior coadjutors. The prospects are that the attendance will be fairly good, the drill first-class and that prices and expenses will be paid in full.

The dress parade at five o'clock this afternoon was a success. About 2,000 soldiers participated and there were probably 10,000 spectators. Tomorrow the real business begins; so far these have only been preliminaries. The weather is warm and rain is predicted.

### DESTRUCTIVE HAIL AT FRANKLIN.

Franklin, Neb., May 23.—[Special to the Bee.]—One of the most terrific hail storms that ever visited this region passed over here yesterday about 3 o'clock. Hail stones about one inch in diameter fell during a tremendous gale and covered the ground to a depth of two inches. All growing crops were completely driven into the ground and stock were hit until they were all bruised and bleeding. Several head of cattle and horses are known to have been driven into wire fences and terribly mangled. If it reached all over the country as bad as in this section, the amount of damage must be very great. All public and private buildings had their windows completely riddled on the north and many glasses broken on the east. Shutters and wire screens were driven in and houses were flooded with water. The damage to the academy building alone is estimated above \$200. The churches and public school buildings are also badly damaged. A cloud seems to have burst north of town and the streets and all low ground were covered with rushing torrents of water and dry creeks were deep enough to swim a horse. Nothing like it was ever known even by the oldest inhabitants. We shall await the reports of other points with great interest as reports from a mile and a half east of town say that the hail covered the earth six inches deep or more.

### A VILLAGE DESTROYED.

Superior, Wis., May 23.—The village of Hawthorne, on the Omaha road, about eighteen miles south of that place, was burned entirely by fire, which is now sweeping through valuable timber in that vicinity. No lives were lost. The pecuniary loss cannot be estimated at present. Reports of fire at Ironwood and vicinity are denied this morning. A special from Hurley says no fire exists there.

### A BALLOONIST'S TERRIBLE FATE.

Oskalosa, Iowa, May 23.—A large crowd witnessed a fearful accident here to-day, by which William Andrews, an amateur balloonist, was dashed to death. The balloon was inflated by hot air, and rose rapidly about seven hundred feet, Andrews clinging to the trapeze. Suddenly it was observed that the balloon had caught fire, and Andrews was seen climbing upward, endeavoring to put out the fire. He was unsuccessful, and in a moment his body came whirling down and struck on a business block, being dashed into an unrecognizable mass. Several ladies fainted.

### COUNTING THE CASH.

Washington, May 23.—Acting Secretary Thompson to-day appointed a committee to make an examination of the books and assets of the United States treasurer, incident to the transfer of that office from Jordan to Hyatt. The examination began this afternoon and can hardly be finished inside of two months. Treasurer Hyatt will formally assume charge of the office to-morrow morning.
