Western lands to trade for desirable Plattsmouth property. CLARK & HOWARD, 13-4 Weeping Water.

—Will J. Warrick handed us a letter to read, last week, that he had just received from his father in Washington, Penn. His father stated that they were having a well bored there for \$1.40 per foot, and the contractors were furnishing everything, the derrick used cost \$500, the boiler, \$500, and the engine, \$200; all of which the contractors furnished. The casing for the well cost about \$1,400. This gives our gas company a basis upon which they can figure as to what it will cost to sink a well here in Plattsmouth.

—The Journal in its issue of June 16th in making mention of a marriage on the previous day, near Cedar Creek, insinuated that the minister who performed the ceremony traveled from Plattsmouth over muddy roads in a livery rig, and after performing the ceremony received the meager amount of two dollars, leaving him the livery bill to pay. This is not true, the expense of the carriage out and back was paid by the groom, extra of the fee and it is a pleasure to the HERALD to correct the false and undeserved reflections cast upon him in the Journal article.
—Misses laced serge shoes 35 and foxed 50 cents only, at Merges. 141f

Mr. Hesser kindly took us out among his raspberries where we ate our fill of the delicious fruit, while we stained our fingers and our faces to our hearts content. We were shown through the green house and laden with choice flowers, and then we were not permitted to leave until we had partaken of a bountiful supper provided by the kind hospitality of Mrs. and Miss Hesser. As we drove away we left our good wishes and quietly took note of the coming crop of blackberries and shall watch the almanac to see when they will be ripe.

City Council.

The city council held a regular adjourned session last Wednesday evening. All members were present.
A petition from the property owners on Main St., between Second and Sixth, asking for the paving of Main from 2nd to 6th street, and the calling of a special election to vote bonds to pay for the paving of intersections, was read. The petition was changed by inserting the west side of 7th in the place of 6th street. A motion from Mr. Murphy to grant the prayer of the petitioners carried.
A petition from the fire department asking for more hose and 24 water-proof coats, for the use of the firemen, was read. The coats were ordered bought, but the advisability of getting the hose was left to the committee on fire and water.
William Osborn, of the fire department, asked the council to designate a location for the new hose cart.
Mr. White moved the cart be located in the 2nd ward. Mr. Grusel amended by making the location Wintersteen hill. The motion passed as amended.
The long-delayed "cow-ordinance" was then called up. It provides for the appointing of a pound-master whose duty it shall be to arrest any live stock, what ever, found running at large in the city limits and a fine for each head of stock arrested, also, after due notice, for the selling of the stock at public auction.
The ordinance was put on the 1st reading when a remonstrance signed by 84 petitioners was read. The remonstrance had no effect and the ordinance was read by title the second and third times and adopted under a suspension of the rules.
An ordinance establishing grading and paving district No. 1 was read and amended, making the 1st district extend from the west side of 2nd St. to the west side of 7th, and leaving the payment of the pavement occupied by the Plattsmouth St. R. R. Co. also 18 inches on each side of its track. Mr. Murphy moved the ordinance be read the second and third times and adopted under a suspension of the rules. The motion was seconded but questions arose and Mr. Murphy withdrew his motion and the ordinance was laid over till the next meeting.
An ordinance requiring the streets and alleys of all additions to the city to conform with those of the city, was read. On motion of Mr. Murphy the ordinance was read as usual and adopted under a suspension of the rules.
An ordinance to prevent the discharge of explosives in the city limits, and also to prevent the selling of fire crackers etc. to boys under 12 years of age, was laid over for amendments.
The mayor then appointed an appropriation committee for 1887 consisting of Messrs. Grusel, Weckbach and Jones.
Mr. Weber moved that the committee on streets alleys and bridges be instructed to repair or remove the bridge on the corner of 8th St. and Washington Ave. Motion carried.
Mr. White moved that the chairman of the committee on streets alleys and bridges be instructed to do away with a pool of water on the corner of Vine and 6th St. The chairman, Mr. Dutton, said he would attend to it.
The mayor suggested that the city buy four more balls and chains, and get a stone pile and put the tramps to work. On motion of Mr. Dutton the balls and chains were ordered bought.
On Motion of Mr. McCallen the mayor was instructed to appoint a "crack-shot" to do away with the surplus canine.
Council then adjourned to meet the following Friday evening.

—For cleansing and healing foul and indolent ulcers, sores and abscesses and removing the bad odors arising therefrom, and for sloughing contused and lacerated wounds, Darby's Prophylactic Fluid is unequalled.
"I have used Darby's Prophylactic Fluid in hospital and private practice for ten years and know of nothing better for sloughing contused and lacerated wounds, foul and indolent ulcers and as a disinfectant."—J. F. HEUSTIS, Professor Mobile Med. College.

South Park.

SOUTH PARK is situated immediately adjoining the city of Plattsmouth on the south between the two main thoroughfares into the city, Lincoln and Chicago Avenues, and on the line of the B. & M. railroad extending south from the company's machine shops. The proprietors of this valuable addition propose to spare neither pains nor reasonable expense to make it not only pleasant but profitable to all persons purchasing lots. In the center of this handsome addition a

of magnificent forest trees has been reserved for the use and pleasure of the city. Chicago and Lincoln avenues furnish the only circuitous drive out and into the city which avoids hills, and the level grade suggests the early construction of our street railway to this locality, and to this end liberal inducements will be offered.

South Park is less than nine blocks from the business center of the city, and but a few rods from the great manufacturing interests of the B. & M. railroad, thus making it a desirable residence locality. The proprietors of this addition propose to re-invest the proceeds of the sale of the first 100 lots, in choice residences, which will be offered for sale on monthly payments. This will enhance the value of the lots purchased.

Now is the time to invest, for permanent use or speculation. Without exaggeration or fictitious booming, Plattsmouth realty is growing more firm in value each day, advancing on the basis of a permanent business foundation.
