

FARM COLUMN.

TO REMOVE COPPER OR MILK STAINS. The Industrial Blatter recommends the use of glycerine for this purpose.

KEEP THE SKIN CLEAN.

The skin is the principal outlet of the body. Four times more matter is carried out of the body by the cutaneous surface every day than by the alimentary canal.

When a horse loses appetite there is certainly something wrong and the cause should be searched for. The mouth should be examined first; if this is all right, and the horse has not been overfed, and the breathing is not disturbed, the probability is that the digestive organs are out of order.

The neighborhoods where Granges and farmers' clubs flourish are characterized by better farming as well as a more friendly and social spirit among the people. No man does or can know everything about farming any more than about other things.

A HINT TO NURSESMEN.

Through the efforts of the agricultural and horticultural press, the people are being roused to the fact that the culture of edible nuts is a paying industry and will soon become a leading work.

A month since, the editor of O. C. H. tried to obtain a limited number of Shag-bark hickory trees, but was unable to find trees above one foot in height; and that result after an extended correspondence.

There is no time when good management of the grass lands tells more strongly than in a period of drought. If the land is in good heart and condition the roots penetrate to a greater depth than a poverty stricken, shallow soil which have little plant food near the surface and less below.

HOW TO MAKE GOOD BUTTER.

A Maine woman, Mrs. McKean, tells in the Mirror, how she makes butter. The article is right to the point: "The milk is strained through a wire strainer, with two thicknesses of cloth fastened over the bottom, into a large can; then covered up and brought into the house and strained through two more thicknesses of cloth into a Wooster Perfection creamery, and allowed to stand twenty-four hours at a temperature of 50 degrees.

stirred twice a day. The day before it is churned it is set in a warm room, stirring frequently, so it will ripen as evenly as possible. It is then churned at about 64 degrees in a barrel churn.

The Empress Augusta.

Berlin Letter. The empress has aged considerably within the last few years. Indeed, you would call her venerable were it not for the fact that she is fourteen years younger than her husband, who is ninety.
