DYSPEPSIA

Up to a few weeks ago I considered myself a champion Dyspeptic of America. During the years that I have been afflicted I have tried almost everything claimed to be a specific for Dyspepsia in the hope of finding something that would afford permanent relief. I had about made up my mind to abandon all medicines when I noticed an endorsement of **Simmons Liver Regulator** by a prominent Georgian, a jurist whom I knew, and concluded to try its effects in my case. I have used but two bottles, and am satisfied that I have struck the right thing at last. I felt its beneficial effects almost immediately. Unlike all other preparations of a similar kind, no special instructions are required as to what one shall or shall not eat. This fact alone ought to commend it to all troubled with Dyspepsia.

GREAT STORM AT SEWARD.

Seward, Neb., July 12.—The thermometer registered 104° in the shade, being the hottest day we have had in two years, but towards evening a heavy rain and wind storm arose, approaching almost to a tornado, the dust flying so thick that it was impossible to see across the street. During the storm the new buildings on the fair grounds were completely demolished, and not a timber is left standing.

THE FIDELITY FAILURE.

Cincinnati, O., July 12.—In the case of W. L. Trenholm, comptroller of the currency, against the Fidelity National bank and its directors and officers, to forfeit the charter of the bank, a decree was decided upon by the parties to-day which dismisses the action against the directors and officers, but finds that the bank had violated the banking laws of the United States in divers ways. The charter, therefore, is declared forfeited. This action puts all the assets of the late bank into the hands of Receiver Armstrong, and dissolves all attachments upon its property made since the bank was seized by the government.

EDUCATORS IN CONVENTION.

Chicago, July 12.—Except at national convention of the two great political parties, no audience has ever assembled in the Chicago exposition building equal in numbers and brilliancy to that gathered there to-night at the opening session of the National Educational Association. It was estimated that 18,000 people—several thousand more than could find seats—were crowded into the great hall. The bulk of the marvellous throng was composed of active educational workers. There were three women to every man. After the preliminary Thomas concert of an hour, President William E. Shelton called the meeting to order and Mayor Roche delivered a hearty address of welcome. Several Chicago educators also spoke in a similar vein, and the president then introduced the principal speaker of the evening, Richard Edwards, LL. D., Illinois state superintendent of education. The subject of his address was "The Problem of To-day." At its close the convention adjourned till to-morrow.

FRENCH AFFAIRS.

London, July 12.—The popular feeling in Paris against President Grevy, which, during the ministerial crisis, was exceedingly strong, and only caused to subside and finally to be suppressed so far as any outward manifestations were concerned, has broken out again and rages more fiercely than ever. Recollections of the high handed measures taken by the president in his efforts to secure the installation of a ministry which should not

include Gen. Boulanger are resurrected from the tomb of the past and serve as fuel to the fire of determination that he shall not again defy the will of the people with impunity, and should the cabinet fail to hold itself together, as few believe that it will, the president will find his position extremely unpleasant, if not positively dangerous, unless he exercises the discretion his late experience must or at least should have taught him. As the situation now appears it would surprise nobody to see the populace arrayed in sullen and resolute strife against the military on the occasion of the annual fete next Thursday. In spite of the positive orders issued by the government against any demonstration of sympathy with Gen. Boulanger of whatsoever character, popular manifestations of regard for that officer multiply daily.

TURKEY APPROVES.

THE DAY AT BELFAST.

Belfast, July 12.—The twelfth day of July is being celebrated by Orangemen throughout Ulster with universal fervor. The city is crowded with Orangemen from rural districts. Several skirmishes have already taken place between the Orangemen and Catholics. The police have been reinforced so as to be prepared for any trouble.

AT LIVERPOOL.

Liverpool, July 12.—The Orange ceremonies here today resulted in a riot. The parades were attacked by a crowd of Catholics, who threw stones and other missiles at the men in the ranks. The police forcibly removed the party emblems carried by the Orangemen. About a dozen persons were arrested. Many were treated at hospitals for cuts and bruises.

AT TORONTO.

Toronto, Ont., July 12.—The Orange demonstration today was a great success. The streets along the route of the procession were crowded. There were fifty-three lodges and between 2,000 and 4,000 men in the procession.

THE BULGARIAN THRONE.

London, July 12.—Prince Ferdinand is moving heaven and earth to induce Russia to accept his election to the throne of Bulgaria, but nobody except himself, if indeed he cherishes the idea, believe that his effort will be successful. England still remains on the fence and will give no sign as to her decision to accept or reject the Austro-Hungarian prince until the powers have made known their course of action.

AN ANTI-FRENCH MEASURE.

Berlin, July 12.—The official gazette of the reichstag published an edict which requires that after the close of the present year the use of the French language in judicial pleadings be suppressed. The edict also provides that the use of French in judicial documents be suppressed at the close of the year 1888. This applies to Metz.

A physician was called after a few days, but too late to save her life. The jaw set Sunday afternoon and the child's suffering was terrible up to the hour of her death. She was conscious to the last.
