called himself a little "Band of Hope" boy, and could sing all their little temperance songs. Perhaps the Good Father had some wise purpose in view, when he took him home. But we know that he is forever safe from the temptations of this life.
—There are tiny moulds where the hopes of earth,
Are laid nigh the tear-wet mold;
But the light that paled at the stricken heart,
Was joy to the upper fold.
For an angel holdeth the Book of Life,
And lo! on its pages enrolled;
Are the sweet child names, that have passed
From strife
To the joy of the upper fold."

A Question?
And one the HERALD would like answered by the proper authorities is wether this office, after having been awarded the contract for the city printing by making the lowest bid for it, is entitled to receive it or not? The HERALD was duly given the contract to do the city printing, but some one without any warrant of authority had the printing of the tickets for the late bond election done at another office. The value of the work is a mere nothing but we deny that any person whatever had the right to take it anywhere except to this office, and having done so the city is not liable for a cent and should not allow the bill, we ask the council to throw it out when presented and to censure the official or person who has been guilty of this breach of contract with the HERALD.
