REPUBLICAN PLATFORM

The republicans of the United States, assembled by their deligates in national convent on, pause on the threshold of their proceedings to bled by their deligates in national convent on, pause on the threshold of their proceedings to honor the memory of their first great leader and immortal champion of liberty and the rights of the people. Abraham Lincoln, and to cover also with wreaths of imperishable remembrance and gratitude the heroic names of our later leaders who have been more recently called away from our councils, Grant, Garfield, Arthur, Logan and Conkling. May their meansibe faithfully cherished. We also recall with our greetings and prayer for his recovery the name of one of our fiving heroes whose memory will be treasured in the history both of republicans and of the republic. The name is that of the noble soldier and favorite child of victory. Philip H. Sheridan.

In the spirit of those great leaders and of our devotion to human liberty, and with that hostility to ad forms of despotism and oppression which is the fundamental idea of the republican party, we send frate and congratulations to our fellow Americans of Brazil upon their great act of emancipation which completed the abolition of slavery throuhout the two American continents. We carnestly hope we may soon congratulate our fellow citizens of Irish birth upon the peaceful recovery of home rule for Ireland.

WE AFFIRM OUR UNSWERVING DEVOTION to the pational constitution and to the indis-

we affirm our unswerving devotion to the national constitution and to the indissoluble union of states to the autonomy reserved to the states under the constitution, to the personal rights and liberties of citizens in all states and territories in the union and es all states and territories in the union and especially to the sup one and sovereign right of every citizen, rich or poor, native or forcign born, white or black, to cast one free ballot in the public elections and to have that ballot duly counted. We hold a free and honest popular ballot and just and equal representation of all people to be the foundation of our resulting meaning and demand effective. publican government and demand effective legislation to secure the integrity and ourity of elections which are the fountains of all public authority. We charge that the present additional to the prese distration and the democratic majority in congress owe their existence to the suppression of the ballot by the criminal nullificat on of the

constitution and laws of the United States.

We are uncrompromisingly in favor of the American system of protection. We protest against the destruction proposed by the president and his party. They serve the interests

of Europe
we will support interests of America.
We accept the issue, and confidently aspeal to
the people for their judgment. The protective
system must be maintained. Its abandousient
has always been followed by general disester

and sheriff.

We denounce the Mills' bill as destructive to We denounce the Mins our sy destructive of the country, and we heartly endorse the consistent and patriotic action of the republican representatives in congress in opposing its passage. We condemn the proposition of the democratic party to place wool on the free list and insist that the duties thereon shall be adjusted and maintained so as to furnish full and adequate protection to that in-

The republican party would effect all needed reduction of the national revenue by repealing the taxes on tobacco, which are an arrogance and burden to agriculture, and the tax upon spirits used in the arts and for mechanical parposes, and by such revision of the tariffism as will tend to check imports of such articles as a produced by our people, the production of a e produced by our people, the production of which gives employment to our labor, and release from imperatules these articles of foreign production, except luxuries, the like of

which cannot be produced at home, there shall still remain a larger revenue than is requisite for the wants of government, of internal taxes rather than surrender any part of our protective system at the joint behast of the whisky ring and agents of foreign manufacturers.

AGAINST PAUPER AND LABOR TRUSTS. We declare hostility to the introduction into this country of foreign contract labor and of Chinese labor allen to our civilization and our constitution, and we demand the rigid enforcement of existing laws against it and favor such mmediate legislation as will exclude such la-

We declare our opposition to all combina tions of capital organized in trusts or other-wise to control arbitrarily the condition of trade among our citizens and we recommend to congress and the state legislatures in their respective jurisdictions such legislation as will prevent the execution of all schemes to oppress the people by undue charges on their supplies or by unjust rates for the transportation of

their products to market,
we approve legislation by congress to prevent anke unjust burdens and unfair discrimination between states.

PUBLIC LAND LEGISLATION. We reaffirm the policy of appropriating the public lands of the United States to be homesteads for American citizens and settlers not aliens, which the republican party established in 1802 against the persistent opposition of the democra's in congress, which has brought our great western domain into magnificent deour great western domain into magnificent developement. The restoration of unearned I and grants to the public domain for the use of actual settlers, which was begun under the administration of Pres dent Arthur should be continued. We deny that the democratic party has ever restored one acre to the people, but declare that by the joint action of republicahs and democrats about fifty million acres of unearned lands, originally granted for the construction of railroads, have been restored to the public domain in pursuance of conditions inserted by the republican party in the original grants. We charge the democratic administration with failure to execute laws securing to settlers title to their homesteads and with ussettlers title to their homesteads and with us ing appropriations made for that purpose to harrass innocent settlers with spics and prosecutions under the false pretense of exposing frauds and vindicating the law.

ADMISSION OF TERRITORIES. The government by coegress of the territories is based upon necessity only to the end that they may become states in the union: therefore, whenever the conditions of population material resources, public intelligence and morality are such as to insure stable local government. ernment therein the people of such territorie should be permitted, a right inherent in them to form for themselves constitutions and state governments and be ad nitted into the union rending preparation for statehood all officers thereof should be selected from bona fid-residents and citizens of the territory wherein residents and citizens of the territory whereir they are to serve. South Dakota should oright be immediately admitted as a state in the union under the constitution framed and adopted by her people, and we heartily endorse the action of the republican senate in twice passing bills for her admission. The refusal of the democratic house of representafixed of the democratic house of representatives, for partisan purposes, to favorably consider these bills is a wiliful violation of the sacred American principle of local self-government, and merits the condemnation of all justice. The pending bills in the senate for act to enable the people of Wishington, North Dakota and Montanna territories to form conditions and actablish state appearant. Dakota and Montanna territories to form con-situtions and establish state government-should be bassed without unneces ary delay. THE MORMON QUESTION. The patitical power of the Mormon church the territories as exercised in the past is the territories as exercised in the past is a menance to free institutions too dangerous to be long suffered. Therefore we pledge the republican party to appropriate legislation asserting the sovereignty of the nation in all the territories where the same is questioned and in furtherance of that end to place upon the statute book legislation stringent enough to divorce political from ecclesiastical power, and thus stamp out the attendant wickedness of polygamy.

OUR MERCHANT MARINE,

We carnestly recommend that prompt action be taken in congress in the craciment of such legislation as will best secure the rebubilitation of our American merchant marine, and we protest against the passage by congress of a free ship bill as calculated to work injustice to labor by lessening the wages of those changaged in preparing materials as well as those directly employed in our shippards. We demand appropriations for the early rebuilding of our navy, for the construction of coast fertifications and modern ordinance and other approved modern means of defense for the protection of our defenseless harbors and cities, for the payment of jest persions to our soldiers, for necessary works of national importance in the improvement of the harbors and channels of internal, [coastwiser - and fereign commerce, for the encouragement of the shipping interests of the Atlantic, Guif and Pacific states as well as for the payment of the maturing public debt. This policy will give employment to our labor, activity to our various industries increased security to our country, promote trade, open new and direct markets for our products and cheapen the cost of transportation. We affirm this to be far better for our country than the democratic policy of loaning the government's money without interest to "pet banks."

The conduct of forcless affairs by the present The conduct of foreign affairs by the present administration has been distinguished by ineficiency and cowardice. Having withdrawn from the s-nate all pending treaties effected by republican administrations for the removal of foreign burdens and restrictions upon our commetce and for its extension into a better market, it has neither affected nor proposed any others in their stead. Professing adherence to the Morree doctrine, it has seen with idle complacency the extension of foreign influence in Central America and of foreign trade everywhere among our neighbors. It has refused to charter, sanction or encourage any FOREIGN RELATIONS.

It has re-fused to charter sanction or encourage any American organization for constructing the Nicaragua canal, a work of stal importance to the maintenance of the Monroe doctrine and of our national influence in Central and South America, and necessary for the development of trade with our Pacific territory, with South America, and with the further coasts of the Pacific Ocean. FISHERIES QUESTION. We arraign the present democratic adminis-tration for its weak and unpatriotic treatmen of the fisheries question, and its pushlianimous surrender of all privileges to which our fishery vessels are entitled in Canadian perts under the treaty of 1818, the reciprocate marintine legislation of 1830 and comity of nations and which Canadian fishing vessels receive in the ports of the United States. The name of American applies alike to all chizens of the republic, and imposes upon men alike the same obligation of obedience to the laws. It should and mustlafford him protection at home and follow and protect him abroad in whatever land he may be on a lawful errand.

CIVIL SERVICE REFORM.

The men who shandoned the republican party in 1884 and continue to adhere to the democratic party have deserted not only the cause of honest government, but of sound finance, of freedom had purity of the ballot, but especially have deserted the cause of reform in the civil service. We will not fail to keep our pledges because they have broken theirs, or because their candidate has broken his. We therefore repear our declaration of 1884, towit: The reform of civil service auspiciously begun under republican administration should be completed by a further extension of the reform system aircady established by law to all grades of the service to which it is applied. The spirit and purpose of reform should be observed is all escentive appointments, and all laws at varience with the object of existing reform legislation should be reperied, and that the dangers to free institutions which lark in the powers. The gratitude of the nation to the defenders of the union cannot be assured except by laws. The legislation of congress should conform to the piedges made by a loyal people, and be so enlarged and extended as to provide against the possibility that any man who honorably wore the federal uniform shall become an in-mate of an almshouse or depend at on a rivate about. In the arcange of an averdowing charity. In the presence of an overflown treasury it would be a public scandal to do le for those whose valorous service praserved the government. What may be the little cloud no larger than a man's hand on the labor horizon, is the strike of a few of the employes of the Reading Iron Works in consequence of a ten per cent reduction of wages. The bulk of the men have temporarily accepted the reduction under protest, awaiting the action of the Conn cil of the Knights. This is clearly a good time for the iron-workers to ask what would happen if the adminstration of the country should be turned completely over to the tender mercies of the free traders. -N. Y. A REPUBLICAN paper says that the reoublican bandana is the stars and stripes. The democrats have a pretty large share in that bandana, too. In fact the American people have intrusted them with its custody. Who is it that raises the naional emblem on our national buildings?

The democrats between twenty-five and thirty years ago renounced their share in the stars and stripes. The American people have not intrusted it to the democratic keeping at all, but have simply and cautiously permitted the democrats to give some evidence of the sincerity of their repentence by protecting them with the flag while the spirit is working in them. There being, however, no indications manifested in the four years of probation tolerated to the democrats that there is any sincerity in their protestations of repentance, the American people, through the republican party, have taken | can we see by the dawn's early light what charge of the flag again. The Thompson episode, the return of the rebel flags episode, and the adoration of the British flag through the synonym of the "red" bandana, is conclusive proof that the democrats are false to their trust. It may also be incidentally observed that the janitors usually raise the flag over public buildings. No orthodox democrat could | Banner, but one of old Al. Thurman's conscientiously peform such an act .-Express.

MET THE LIE.

The republican platform refutes the lying claim of the St. Louis declaration that the democratic party restored to the market 100,000,000 of unearned railroad lands. The total amount so restored is 50,000,000 acres, and this by the joint action of both houses of congress, under bills introduced by republicans and in pursuance of conditions inserted by the republican party in the original grants. Not one acre of such uncarred lands has been restored to the people by the demoadmitted to the convention except such as cratic party. The claim to the contrary was a bold attempt of the democracy to appropraite credit due the republican party. It required a remarkable display WHEREAS. —JOSEPH RODMAN DRAKE.

The account above given by Mr. Drake of the origin of "The Star Spangled Banner" is undoubtedly correct. Generation after generation of young Americans have declaimed his immortal lines to admiring audiences, and no one has been found between the two oceans sacrifegious enough to insinuate that Drake was mistaken-that freedom's flag failed to correspond with his beautiful description. So it was at least until the democracy

went to St. Louis to organize for the great fight of this year. Then some of the reckless leaders of that party attempt ed to introduce a new "emblem of sweet Liberty." They remarked to each other -between drinks, with voices a good deal suffused with plug tobacco-"O, say, so proudly we hail?" And the answer invariably was: "Yes, yes, we can distinctly see it. What so proudly we hall is a red bandana accentuated with yellow snuff." What the leaders adopted, the rank and file said amen to. The conse quence is that today all orthodox democrats are waving, not the Star Spangled

Nay, more. It is understood that President Cleveland in his letter accepting a renomination will argue that there is a cipher in possession of the Democratic National Committee which resolves Mr. Drake's lines into something of this sort: When Free-trade, from her topmost crag, Unfurled her standard to the air, She thrust aside the old-time flag

DEMOCRATS ARE INCONSIS-TENT.

Four years ago they pranced up and down the country prophesying that a continuation of those horrible "war taxes" would impoverish the people and transform merchantile industries into asylums for the poor. Let us manage the affairs of government, said these deciples of free trade, and civil service reform for democrats only, and at one fell stroke we will wipe from the face of the statute books every vestige of a high protective ariff which they pretured as more damiging than pestilence, famine or war. A ufficient number of people who were too old to remember distinctly the past reord of this party, or too young to know from observation that it never made promises with a view of keeping them, placed them in power.

They have now been four years at the read of the government and for a much onger time have they been in the majorty in the lower house and during all his time tariff laws continued in force and mills and factories continued to run,

But now on the eve of a presidential election the democrats come up smiling with a "Mitls Bill" which they offer to he American people as a test of their ancerity in abolishing those abominable
