—All persons interested in the Wm. Young cemetery are requested to meet at the cemetery on Tuesday, Aug. 21, in the forenoon to clear it off and make arrangements to keep it in order. By order of director of school district No. 6.

Gray hairs prevented, dandruff removed, the scalp cleansed, and the hair made to grow thick by the use of Hall's Vegetable Sicilian Hair Renewer.

Our Present City Administration

The public should remember that the present administration are redeeming all the pledges they made before the last election. The republican city convention passed a resolution that they were in favor of all public improvements for the benefit of the city. Mr. Richey, the present mayor, accepted his nomination on that platform, the republican councilmen accepted their nominations upon the same issue, and today we believe they have and are to the best of their ability, fulfilling their pledges. The sewer improvements are being pushed rapidly to completion. The bonds having been sold and \$10,000 is now in the bank here ready to be used and the balance subject to call. The paving of Main St. is to be commenced immediately and will be pushed to an early completion. The water mains have been extended as far as compatible with public interest the present year. The gas mains have been extended, 25 additional lights having been added to the 50 already in use. These are the internal improvements that the city was mostly interested in at that time, but there is one other that certainly demands the attention of our present mayor and city fathers and that is a new CITY HALL.

The present quarters are entirely too small and cramped and the administration should keep pace with the rest of the improvements. They certainly cannot add to the city any more substantial improvement than a new city hall, one that will be large enough to comprise a council chamber, a room for the two hose and hook and ladder carts that are located in the business center, and if possible, a station house or jail and headquarters for the police.

Councilman Murphy at the last meeting offered a resolution tending to that end and it is a matter that ought to be pushed along with the other improvements. There are several good locations that can be had and we urge the council to look into the matter.

Preparing for the Long Hours.

Nothing affords one greater pleasure than to sit down with one of our old vets, who has fought, bled and died for his country, and hear from him the imitation of a battle in full force, but in order to get the benefit of these stories you must have the faculty of drawing heavily on your imagination. Since considerable interest was manifested last night by an audience who had quietly assembled in a cosy little room for the purpose of imparting to each other thrilling experiences and listening to the hair-breadth adventures of the said vet, it was imagined by one of the party who was possessed of considerable more forethought than any of the other members of the fraternity, that to form themselves into a society, with an efficient story-teller as chairman, would be a scheme well worthy the consideration of the gentlemen present. The thought of the cold winter nights, which are only a short distance in the future, and how edifying it might be for all who participate to listen to stories which roll from the lips of those who have fought for us in the troubled days of yore, which inspire each loyal citizen who hears them. No objections were raised last night when the attendance was compelled to exercise their imaginations, and it was agreed unanimously among the said hearers that if any part of a story should "sound to us," it would be allowed to pass humorously by, as was done last night. It was moved by Mayor Richey and seconded by O. P. Smith, that a society be formed before the arrival of said winter nights, and that a social society, consisting of committees on "The tariff question, the late war, the democratic and republican parties, the prosperity of this great nation, the prohibition party, when I was a boy," and a hundred other different subjects, be formed. The motion was carried. The following gentlemen were appointed as a committee on war stories, with Mr. H. C. Ritchie as chairman: Messrs. O. P. Smith, A. B. Todd, Mayor Richey, ex-Mayor Simpson, L. E. Skinner and M. B. Murphy.

We are to have a paved street or the work commenced as soon as the sewer work is advanced far enough to allow it. A mathematician has figured out how long we will be obliged to wait for the paving if we are to be patient until the sewer work allows it at its present progress. He says it will be just 366 days.

Ayer's Sarsaparilla is designed for those who need a medicine to purify their blood. No other preparation so well meets this want. It increases the appetite and rejuvenates the whole system. Its record, for forty years, is one of constant triumph over disease.

From Friday's Daily.
—Mr. Geo. Boeck, father of Mr. W. A. Boeck, shoe dealer of this city, who lives near Murray, met with a very serious and probably fatal accident yesterday afternoon about 4 o'clock. He was in the act of tearing down an old windmill which was located near his house, and when near the top of it, the whole thing gave away, letting him fall a distance of thirty feet, on a shed which was attached to it, and from there he rolled off and fell to the ground. The windmill is an old one and its support had rotted away so that when it gave away and let him down the whole thing followed. If it had not been for the shed which protected him from the fall of the windmill, he would have been killed instantly without a doubt, and he was very fortunate, although badly injured, not being killed by such a fall. Two of his ribs were broken and he received other injuries which caused him to remain unconscious until this morning. At present his physician entertains slight hopes for his recovery.

Mr. Morton explained to his democratic audience at Weeping Water just how this nation has been running on a false industrial system for the past one hundred and more years and how the "robber tax" has been making serfs of the American people. The only thing the democratic war has fails to show, in his free trade arrangements, is how this nation has made the most wonderful progress in its material development, in every direction, under the protective system. How its citizens have the best markets in the world, home markets at that, how those markets pay the best prices for labor and produce, of any nation on the face of the earth; and how the workmen of this country have inestimable advantages over the workmen, to the same level Mr. Morton would, if his theory of trade was to be adopted in this country, reduce them. The great physical fact which this country under a system of protection presents, gives the lie to these defamers of our country's good name and reputation and furnishes a complete answer to their falsehoods.

—Will somebody who has studied the subject please explain why women who are addicted to poetry generally write of the most melancholy affairs? A good many of them appear to be depressed because they cannot die without further delay and have flowers sprinkled on their graves. They don't give any good reasons for this peculiar yearning, but they go on as though their highest ambition is to perish on general principles. Others bring the sad, salt tears to our eyes by telling how some young lover went away to sea and never came home again, and how Mabel sits by her window, looking out on the night, and listening for his footsteps which will come to her ears nevermore. Then there are little girls dying while the roses bloom outside, parents dying, flowers dying, and a general carnival of death in every direction. The *Journal* is willing and eager to encourage all poets, regardless of age or sex, but it would suggest that their rhymes be stuffed with less tears, death and desolation. "The sad old earth must borrow its mirth, it has tears enough of its own."
—Lincoln Journal.

The Candidates.
—In a grocery store the reporter noticed the following authentications which appear on an advertising card hung on the wall, which presents to the eye the pictures of the various candidates for the presidency and vice presidency:
Grover—I'm a fisherman.
Turman—I use snuff.
Fisk, (prohibition)—Six long weeks in the long month of August and all I want is water.
Brooks (vice pre.)—That is the hand I hold.
Harrison—American industries protected by me. John Bull don't go.
Morton—Plenty of good cheap feed and homes for honest labor.

Killed by Lightning
FREMONT Neb., August 8.—During a thunder storm on Sunday night a seventeen-year-old daughter of a Bohemian named Marinek, living in the northwest part of this county was killed by lightning. The girl was in bed when the house was struck. A younger sister who occupied the bed with her was not hurt.

Ayer's Hair Vigor is cleanly, agreeable, beneficial, and safe. It is the most elegant and the most economical of toilet preparations. By its use ladies can produce an abundant growth of hair, causing it to become natural in color, lustre, and texture.

STANLEY the great explorer is needed now by the democratic party. An expedition will have to be organized to discover that letter of acceptance which Grover Cleveland has evidently lost. No mind reader will do.

SHAKER BOY!
—Will make the season—
Mondays and Tuesdays at Home,
one mile east of Eight Mile Grove.
Wednesday to Saturday in Plattsmouth
At Louis Khroell's stable at the foot of Main Street.

SHAKER BOY!

Is a Dark-Bay Pacer, 15½ hands high, weighing 1,200 pounds. His close, compact form and noted reputation for endurance and speedy progeny have justly earned for him the reputation, and encomium from the Editor of the "Spirit of the Turf," that he is one of the Best Sires of the age. His record is 2:26, and has paced trial miles in 2:16. His colts, Little Baby, 2:27½, and J. W. Huey, 2:24½, with more to follow in the charmed circle this summer, is certainly a great showing, and offers the public in this vicinity a grand opportunity to get valuable horses at low prices. His service of \$15.00, with \$2.00 added if not paid till after foaling, or \$20 to insure colt to stand, is only the price of a good ordinary horse, while horses of SHAKER BOY's blood lines receive from \$100.00 to \$300.00 in other localities. Horses of this kind, if not wanted for sporting purposes, can do more general work on a farm, on account of their extra nerve power, than unwealdy draft horses, and can go to town or to meeting in one-half the time, and time is money. Owners of fine mares have a rare chance now for one of the cheapest horses in the United States. Embrace the opportunity.

John Clemmons.

The wool clip of America amounts to about three hundred million pounds per annum. Its annual value is equal to about ninety million dollars. It stands sixth in value on the list of American agricultural products. The number of sheep is over fifty million, worth about one hundred million dollars; and, while the democratic administration is denying that it is for free trade it puts wool on the free list. The wool growers of the country as well as our manufacturers, who have studied the effect of protection upon this great industry claim the Mills bill will ruin prices, and destroy the market for the American production. A dark lantern committee dared not admit the wool growers of this country before the committee on ways and means to make their showing and present their reasons for opposing a further reduction of the duties on wool and woolen goods. They could not and they knew the country would not justify the action of that committee with the plain facts placed before it; hence, the dark lantern business and hence the appeal the wool growers take to the ballot box November next. There they will be heard as they were in Oregon. They were denied a hearing before the committee at Washington. They will be denied a hearing in the "solid south," but thank God a free north will hear them in November and so will the great fraud Grover Cleveland.

From the *Tribune's* exposure of his administration President Cleveland sought relief in Smith Weed's counsels and a fishing expedition. That was a cruel shot to fire into the reform administration on the very day its sham head sent his civil service message to congress.

We asked the *Journal* some several days or weeks ago to please give us the difference in the hours of labor in Great Britain and America; if we recollect correctly, the editor of the *Journal* was claiming that the short hours of labor in England accounted, very largely, for the difference in wages in the two countries. The *Herald* has waited sometime for this bit of information(?)

THE PILOT'S WIFE.
"The moon shines out, with here and there a star,
But furious cloud ranks storm both stars and moon;
The mad sea drums upon the harbor bar,
Will the tide slacken soon?
O, sea, that took'st my youngest, wilt thou spare?"
—And the sea answered through the black night air,
"I took thy youngest. Shall I spare to-night?"
"The thunder breakers sweep and slash the sands;
To westward, lo! one line of cream white foam;
I raise to darkling heaven my helpless hands;
I watch within the house,
O, sea, that took'st my eldest, wilt thou spare?"
—And the sea answered as from out a grave,
"I slew thine eldest son for my delight."
"The giant waves plunge o'er the shingly beach;
The tawny maned great lions of the sea
With paws rear howl down all human speech.
Is God far off from me?
O, sea, that sleepest my sons, mine husband spare!"
The sea's wild laughter shook and rent the air:
Lo! on the beach a drowsy face deadly white,
—George Barlow in *Belgravia*.
