

Canada Finest the Gladiator. OTTAWA, Ont., Sept. 8.—The customs department has decided to enforce a fine of \$400 against the American schooner Gladiator, seized by the Canadian customs officials while towing in Canadian waters.

Placed Under Martial Law. JACKSONVILLE, Fla., Sept. 8.—The longshoremen's strike in Fernandino resulted in violent demonstrations yesterday. The government ordered the state troops from Gainesville and Ocala and called on the Nassau rifles in Fernandino. The town has been placed under martial law and fifty rioters arrested this morning.

Attempted to Wreck the Train. ULYSSES, Neb., Sept. 7.—An attempt was made to wreck the north bound passenger train this evening a mile and half north of Garrison a small station on the Atchison and Nebraska, by placing a tie on the track in such a manner as would have derailed the train. This was frustrated by the freight south running ahead of time and discovering the obstruction. The object is unknown.

YELLOW FEVER. The Disease Makes its Appearance in Baker County, Florida. WASHINGTON, Sept. 8.—The following telegram was received this afternoon: MONTGOMERY, Ala., Sept. 8.—To Surgeon General Hamilton, Washington: Our special agent reports ten cases of yellow fever at McCleary, in Baker county, and one death from black vomit. Pensacola and Marianna have quarantined against the whole of Baker county. We will proceed to follow their example, and this only exemplifies the fact that the measures you have already taken are right.

Whites and Blacks at War. ST. LOUIS, Sept. 8.—Advices from Richmond, Tex., are to the effect that the negroes ordered to leave Fort Bend county on account of the attempted assassination of W. H. Frost, will resist. A committee of six citizens went out to Jack and Tom Taylor's, fifteen miles from Richmond, in a stronghold of 500 negroes, to notify them that they had ten hours in which to leave the county. They declined to leave and defied the whites. Forty men, armed with Winchester, have gone out to enforce the order and matters have assumed such a serious phase that two local military companies have been called into service, and Governor Ross has ordered the state rangers to Fort Bend county.

China's Treaty Rejection Confirmed. NEW YORK, Sept. 8.—The Herald, in an extra prints the following: Chang Yen Hoon, the Chinese minister who was called to Peru on official business several months ago, will leave Lima on the 17th inst. for the United States. It was the minister's original intention to return to this country by way of San Francisco, where he proposed remaining a brief period in order more thoroughly to acquaint himself with the Chinese question on the Pacific slope. His change of plan at the last moment was in obedience to a notification from the Chinese emperor to proceed at once and by the quickest route to Washington in order that his majesty's wishes regarding the Chinese treaty should be communicated through him to Secretary Bayard. It may be authoritatively stated that a confirmation of the rejection of the treaty was officially received at the white house from Peking during the meeting of the cabinet Thursday afternoon.

A Distinguished Visitor. Coming to Plattsouth, whose fame throughout the United States and the state of Iowa, has made him the important person, to whom our citizens should direct their immediate attention during his short stay. Many of us have heard a great deal about the ability of Prof. Strassman, the eminent optician from Berlin, Germany, who is not only investigating the rapid decline of the eye-sight in this country, but comes prepared with a new and perfect system of chemically pure and brilliant combination glasses to equalize all inequalities of the sight and enable the sufferer to procure a concentration and uniformity of vision; giving renewed action and strength to the diseased, neglected and dormant sight. His unlimited endorsements speaks in the highest terms of his phenomenal success and only praise is heard of his works wherever he has been. Prof. Strassman also carries with him a large variety of the latest designs and inventions of Compound Cylindrical Spectacles and Eye-glasses, which are also manufactured to order. The opportunities and advantages will be such that no one can fail to obtain relief from their troublesome eyesight whether young or old.

Boodlers. SEPT. 8, 1888. EDITOR HERALD.—You speak in your yesterday's issue of Mr. McShane's withdrawal from the congressional contest in this first district as being "bad" for the "boodlers." Are you sure of that? It is street gossip that the boodler is already at work in this county, both in congressional and local representative matters and that his impudence and effrontery in the deal are only equalled by his indiscretion. This gossip is founded on the word of an old citizen of Cass and a regular delegate to the congressional convention who was requested to take stock in the sale of the Cass county delegation. Is it not about time that the republican conventions of Cass county would set down on these political prostitutes. Of course no fine work in congressional affairs in this district is expected to put this shoe on unless it fits him in some way.

Professor Strassman's Success. Prof. A. Strassman has made many friends since he came to the city, both socially and professionally. The opportunity that he has afforded to those whose eyes, for any cause or in any way, needed attention, has been a rare one, and has been taken advantage of by the very best people of the city and section. He has proved to these his remarkable knowledge as an optician, in the broadest sense, and given relief where others have failed. He frankly tells those whom he cannot help and whatever he says may be depended upon. Those to whom this item is of interest will do well to call on him at once; this week if possible. —Nebraska City Press, Aug. 16, 1888.

Another Bomb Found in a Chicago Merchantile Establishment. CHICAGO, Sept. 7.—A bomb was found this afternoon by men working at George F. Kimball's glass establishment at the corner of Wabash avenue and Congress street. The men were engaged in moving some empty packing cases which for a week have been lying against the building on the Congress street side. As they cleared away the boxes next to the wall, what appeared to be a piece of gas pipe rolled out and was picked up by one of the men. It was found to be a gas pipe bomb about seven inches long and an inch in diameter. One end was plugged with brass, in which was fitted a percussion cap, the object of which was to explode the contents of the bomb when falling against the ground or wall of a house. The end of the missile was closed with metal. The bomb was taken to police headquarters and turned over to Inspector Bonfield. The greatest secrecy was maintained in regard to it. The find may prove an important one, as only a week ago a revolver was found among the boxes in the same place.

Days. Ah, there are days when all my dreams of youth seem as dead, like flowers of early spring Nipped by an icy frost in blossoming; When grace and beauty seem deformed, ungodly, And love unlovely as a night of rabi; When the faint songs that I have lived to sing Sound hollow as the cold and cheerless ring Of mockery on the golden shrine of truth. Yet such days pass, these leaden hearted days, And others follow that are like sweet strains Heard in the joyous, fragrant summer air; Then life is precious, and its devious ways Flow like green meadows after tender rains, And the soul seeks to find the world so fair. —George Edgar Montgomery.

The Period of Pictures. The present is most certainly the age of pictures, a period when the pencil vies in potency with the pen, and when illustrative art enters every round of thought, until it occupies a field so wide that no one can know its limits. The pencil in its race with the pen seeks its work in unworked places. It conveys ideas to minds that would be slow in awakening to mere words. It has recently become a part of the daily newspaper reader's enjoyment to find a clever little cut making more enjoyable the lon mot, and adding a zest to the funny paragraph. In the story, the song, the advertisement and the poem, the illustration now plays an important part in the daily paper's contents. It is a poor newspaper, indeed, that cannot, in every issue, show its readers some illustrations, so placed as to enhance the interest and the readability of its contents. In the realm of advertising, the illustration has evidently "come to stay." It attracts and retains the eye, and serves a double purpose. A high degree of artistic ability finds employment in producing the advertisements seen in the better magazines of today. These pictures, in fact, compare favorably with any in the body of the magazine itself. It evidently pays to spend time and money in the employment of this illustrative art.

Outside of the current literature of the day, the advent of the pictorial age is equally evident in the liberal use made of pictures as a stimulant for business of all kinds. There are more pictures and better pictures used in advertising schemes than has ever been the case before. If the public taste for pictorial art was not a growing one, this could hardly be the case. The cleverly illustrated daily paper, used for a double purpose. A high degree of artistic ability finds employment in producing the advertisements seen in the better magazines of today. These pictures, in fact, compare favorably with any in the body of the magazine itself. It evidently pays to spend time and money in the employment of this illustrative art.

Consumption Curable. It cannot be too often impressed on every one that the much dreaded consumption (which is only lung serofuloh.) is curable, if attended to at once, and that the primary symptoms, an often mistaken as signs of diseased lungs, are only symptoms of an unhealthy liver. To this organ the lungs are indebted for pure blood, and to pure blood the lungs are indebted no less than to pure air for healthy action. If the former is polluted, we have the hacking cough, the hectic flush, night-sweats and a whole train of symptoms resembling consumption. Rouse the liver to healthy action by the use of Dr. Pierce's Golden Medical Discovery, take healthy exercise, live in the open air, and all symptoms of consumption will disappear. For weak lungs, spitting of blood, shortness of breath, chronic nasal catarrh, bronchitis, asthma, severe cough, and kidney affections, it is a most wonderful remedy.

REPUBLICAN PLATFORM. The Republican platform, adopted at the national convention in Chicago, is a noble and courageous document. It declares for the preservation of the Union, for the maintenance of the Constitution, for the protection of the rights of all citizens, and for the promotion of the general welfare. It is a platform of principle and action, and it is one that should be firmly adhered to by all who are true to the cause of the Union and the rights of the people. The platform is a clear and concise statement of the party's position on the most important questions of the day, and it is one that should be read and understood by every citizen of the United States. It is a platform that is worthy of the party that it represents, and it is one that should be proudly held up as a standard of conduct for all who are true to the cause of the Union and the rights of the people.

THE MORMON QUESTION. The political power of the Mormon church in the territories as exercised in the past is a menace to free institutions too dangerous to be long suffered. Therefore we pledge the republican party to appropriate legislation asserting the sovereignty of the nation in all the territories where the same is questioned, and to further legislation stringent enough to divorce political from ecclesiastical power, and thus stamp out the attendant wickedness of polygamy. The republican party is in favor of the use of both gold and silver as money, and demands the policy of the democratic administration in its efforts to demonetize silver. We demand the reduction of letter postage to 1 cent per ounce. In a republic like ours, where the citizen in the sovereign and the official the servant, where no power is exercised except by the will of the people, it is important that the sovereign people should exercise intelligence. The free school is the promoter of that intelligence which is to preserve us a free nation. Therefore, the state or nation, or both combined, should support the institutions of learning sufficient to afford to every child growing up in the land the opportunity of a good common school education.

OUR NEIGHBOUR MARINE. We earnestly recommend that prompt action be taken in congress in the re-organization of our American merchant marine, and we protest against the passage by congress of a free ship bill as calculated to work injustice to labor by lessening the wages of those engaged in preparing materials as well as those directly employed in our shipyards, and to deprive the government of the revenue derived from the construction of coast guard cutters, and other vessels of war, and to deprive the government of the revenue derived from the sale of the surplus of its navy, for the construction of coast guard cutters, and other vessels of war, and to deprive the government of the revenue derived from the sale of the surplus of its navy, for the construction of coast guard cutters, and other vessels of war.

WE WILL SUPPORT INTERESTS OF AMERICA. We accept the issue, and confidently appeal to the people of this country, to maintain the system as it is. Its abandonment, its abandonment has always been followed by general disaster to all interests except those of the market of Europe. We denounce the Mills' bill as destructive to general business, labor, and the farming interest, and that it is a measure of the kind of the consistent and patriotic action of the republican representatives in congress in opposing the passage of a bill of the kind, which would be destructive to the interests of the country. We will support the interests of America, and we will support the interests of America, and we will support the interests of America.

AGAINST PAUPER AND LABOR TRUSTS. We declare our hostility to the introduction into the country of foreign contract labor, and of our hostility to the introduction into the country of foreign contract labor, and of our hostility to the introduction into the country of foreign contract labor.

CIVIL SERVICE REFORM. The men who abandoned the republican party in 1884 and continue to adhere to the demagogue have deserted the cause of reform in the civil service. We will not fail to keep our pledges because they have broken theirs, or because they are now taking the lead in the reform. We will support the interests of America, and we will support the interests of America.

ADMISSION OF TERRITORIES. The government by congress of the territories is based upon necessity only to the end that they may become states in the union. Therefore, whenever the conditions of republican government are present, public intelligence and moral capacity equal to those of the states are shown, and the people are ready to accept the responsibility of self-government, they should be admitted as states in the union.

South Park Still in the Front! Twenty One Reasons For Purchasing Lots in South Park. 1. As a whole they are the finest lying lots in the city. 2. They are shaded with beautiful forest trees. 3. They are located between Chicago and Lincoln Avenues, the two finest drives about the city. 4. They are only a ten minutes' walk from the business portion of the town. 5. Ten minutes' walk from the new Driving Park and Fair Grounds. 6. By reason of their location between the two main thoroughfares into the city, they are more accessible than lots in other additions. 7. The only addition in the city reached by two established avenues. 8. The only new addition to the city reached by water mains and with a prospect of being supplied in the near future with complete water privileges. 9. New sidewalks recently constructed to within a few feet of the addition and will shortly be extended. 10. New brick school house now being constructed. 11. Will certainly have street car privileges at no distant date. 12. If you wish a fine view of the river, locate on a lot in South Park. 13. If you wish a slightly and picturesque view of Plattsmouth, it can be had from a South Park lot. 14. To persons in the railroad employ, the eastern portion of South Park is the most desirable residence locality in the city. 15. To persons desiring a residence on Chicago Avenue, the western portion of South Park is available for that purpose. 16. The B. & M. railroad track runs near the east line of the addition, furnishing good facilities for manufacturing industries. 17. If you locate in South Park you will have good neighbors: Mayor Simpson, John R. Cox, John A. Davies, John L. Minor, J. V. Webback, Chas. Harris, John H. Young, Henry Waterman, W. C. Ingraham, Jerry Farthing, Thos. E. Reynolds, S. A. Davis, L. A. Miner, O. M. Weed, Frank Irish, J. N. Glenn, C. L. Colemon, S. A. Speakman, A. Beeson, Chas.
