### An Ocean Record Broken.

SAN FRANCISCO, Cal., September 18.—The German ship *Enterpe* arrived from Cardiff this morning, laden with coal, in ninety-four days, beating by two days the best previous record between the ports which was made by the *Merioneth*, belonging to Spreckles. The *Enterpe* was built by Barrow, of England, and is owned in Hamburg.

### Cored to Death.

WICHITA, Kan., Sept. 18.—Robert Somerville, a young New Yorker, met with a frightful death on Saturday night. He was visiting at the ranch of Mr. Johnson, a stockman, south of here, and went out into a corral where some fine cattle were kept. A ferocious young bull attacked him, and before aid reached him he was gored to death. The cattle, about fifty in number, afterward became unmanageable, and before the body could be taken from the corral they commenced fighting and strewed the remains of the young man over the field. Two persons who attempted to rescue him were seriously, if not fatally, injured.

### Yellow Fever Spreading.

WASHINGTON, Sept. 18.—The secretary of the interior has received a telegram from Surgeon General Hamilton dated at Camp Perry, Fla., Sept. 17, which says Dr. Posey has yellow fever, contracted at Gainesville, and there are rumors of cases at Wellborne and Ferninda. The whole neighborhood is alarmed on account of refugees breaking their parole at Hendersonville.

### Yellow Fever Spreading.

HAVANA, Sept. 18.—The number of deaths in Havana from yellow fever during July was 86. During August 114 persons died of the same disease.

### Talk of a London Paper on the Quebec Threats.

The Daily News has a belligerent leader upon the Quebec threats for secession and annexation. It begins: "We are evidently on the eve of a period of trouble in Canada. The failure of the fisheries treaty and threats of commercial retaliation, now so very near fulfillment on the part of the United States, have excited public feeling throughout the entire community."

It adds: "Quebec is evidently talking to England rather than to the Dominion in these propositions to throw in its lot with the republic on the other side of the border. The language of that kind from Quebec is unphilly nothing novel. It has long been remarked that the division between French and British Canada grows sharper every day."

The article concludes thus: "The situation is a grave one, but it ought not to be beyond the resources of statesmanship. We must look it full in the face. Its difficulties and its hardships are enough."

### The Highwaymen Shot and the Money Recovered.

NASHVILLE, Tenn., Sept. 19.—A special from Carthage, Tenn., says: Yesterday afternoon as John Smith, a stone contractor of the Nashville & Knoxville railroad, and his book keeper, Mr. Shreiner, were between Gordonville and Lancaster, on their way to pay off of hands, they were stopped by two men who demanded the \$1,000 they had in a gripaek. They fired at the robbers, but Smith was struck on the head and rendered insensible, and Shreiner fled. The robbers escaped with the money, but were soon overtaken in the woods by a party of railroad men who were notified by Smith as soon as he recovered consciousness. One of the pursuers, named Johnson, mortally wounded one of the robbers and shot the other so severely that he may die. The money was recovered and the robbers taken into custody. They were former employes of the road and knew when Smith would pass and the amount he would have with him.

### Ordered to the Samoan Islands.

WASHINGTON, Sept. 19.—The secretary of the navy has telegraphed Rear Admiral Kimberly, commanding the Pacific station, who is now at San Francisco, to send one of the vessels of his squadron to the Samoan islands for such services as may be required in the protection of American interests. The United States steamers *Alert*, *Vandalia* and *Adams* are now cruising in the vicinity of the Hawaiian islands, and one of these will be sent to Samoa at once.

### Sedentary Habits.

In this age of push and worry, the business man and the professional man are alike unable to devote any adequate time to exercise. In the daily round of toil and pleasure, no suitable provision is made for that important function, and the result is that men of sedentary habits become subject to many forms of ailments arising from a torpid or sluggish liver. Constipation, sick headache, biliousness and dyspepsia are all due to the impiger action of the liver. Dr. Pierce's Pleasant Purgative Pellets cure these troubles by restoring the liver to its normal condition.

### Severe Literary Labors.

Cholly—You look tired, old fellow; what's been doing?  
Dolly (briefly)—Literary work.  
Cholly (surprised)—Don't say! What branch, old man?  
Dolly—Well, you see, I know a man who writes papers, and this morning he asked me to help him edit the words in an article he was going to send down town. Mighty hard work, I assure you. Almost as hard as writing, don'tcherknow?—Judge.

### They Diminish Self-Reliance.

The committee appointed to consider the situation of the London unemployed poor report that "works started for the relief of the unemployed, even though they be in some degree useful and beneficial, are in the long run an injury instead of a benefit to the community, by discouraging the real spirit of work and thereby diminishing self-reliance and enterprise."—New York Sun.

### Prairie Chickens Moving West.

Prairie chickens, like other natives of the wilds, are opposed to civilization, and are being pushed back toward the frontier with the advance of the immigrant. During the last ten years they have been moving west so fast that they are no longer seen in Illinois, Iowa and Minnesota, and now flock in western Nebraska or Dakota.—Chicago Herald.

### scaved into Matrimony.

The peasant girls of South Russia are flocking into matrimony owing to a rumor of the government's intention to impress into military service as "sappers" all unmarried females between 20 and 30.—New York Journal.

A year is like an apple—round, full, complete and juicy. It makes little difference into which side we bite.—Mary E. Spencer.

The sweetest of sweet girls who will wait for you is worth her wait in gold.—New Orleans Picayune.

The Romans are said to have first used feather beds.

### He Found the Owners.

Assessor Thomas Brown, after the first day's round, complained that he had not found an owner for a single dog in the ward, though there were hundreds. Taking him aside, we told him that if he would take the trouble to kick the dogs he met, he might get the desired information. He came home on a day that night, the vanquished of sixteen fights.—Detroit Free Press.

### What Statistics Say.

Recent French and English statistics indicate that, while the average duration of life is increasing through improvement of the health of children, the number of extremely aged persons is diminishing.—Arkansas Traveler.

There are fifteen Siamese students—four of them ladies—undergoing various kinds of professional training in England. They are sent by the government of Siam.

Unmarried women and widows have had the municipal suffrage in Finland since 1879.

### Dress the Hair

With Ayer's Hair Vigor. Its cleanliness, beneficial effects on the scalp, and lasting perfume commend it for universal toilet use. It keeps the hair soft and silken, preserves its color, prevents it from falling, and, if the hair has become weak or thin, promotes a new growth.

"To restore the original color of my hair, which had turned prematurely gray, I used Ayer's Hair Vigor with entire success. I cheerfully testify to the

### Efficacy

of this preparation."—Mrs. P. H. Davidson, Alexandria, La.

"I was afflicted some three years with scalp disease. My hair was falling out and what remained turned gray. I was induced to try Ayer's Hair Vigor, and in a few weeks the disease had nearly disappeared, and my hair resumed its original color."—(Rev.) S. S. Sims, Pastor U. B. Church, St. Bernard, Ind.

"A few years ago I suffered the entire loss of my hair from the effects of letters. I hoped that after a time nature would repair the loss, but I waited in vain. Many remedies were suggested, none, however, with success. I then used Ayer's Hair Vigor, and I began to see it. The result was all I could have desired. A growth of hair soon came out all over my head, and grew to be as soft and heavy as I ever had, and of a natural color."—Mrs. J. H. Pratt, Spofford, Texas.
