

Republican Grand Rally.

At the last meeting of the young men's republican club, committees were appointed and arrangements made to a certain extent, for a grand rally to be held in this city on the 13th of next month.

Judging by the different names in the appended list, the proposed rally will, without a doubt, be tended by unlimited success. We trust that every republican will agitate this move and aid in attracting a crowd to the city which will surpass all others ever seen here.

The following is a list of the names proposed for the respective committees with the names of John A. Davies, J. C. Eikenbary and D. B. Smith on the committee of general arrangements:

Finance committee.—D. A. Campbell, O. C. Smith, J. C. Eikenbary, J. H. Waterman, Sig Green.

Great Preparations a Memphis.

MEMPHIS, Tenn., Sept. 25.—A meeting of a joint committee of the cotton and merchants' exchanges and the city authorities was held yesterday at noon. The strict quarantine regulations which have been enforced since Saturday were amended by the adoption of the following:

Resolved, That passes be issued upon the certificate of the president of the taxing district, or the president of the board of health, to persons to come in or out of the city who live in the city or its vicinity, and who will not go to any infested district. That this authority will also cover all cases of people desiring to bring in produce or carry out supplies in wagons or other vehicles.

Resolved, That any person or persons who are at present at the quarantine stations shall be permitted to come to the city upon permits issued by the taxing district authorities, when satisfactory evidence is shown that they have not been in any infested districts.

The local military companies reported for duty yesterday, and they have been assigned to duty as pickets on the dirt roads. The official announcement states that the city is remarkably healthy, and that there has been no yellow fever in the vicinity since 1879.

The W. C. T. U. Convention

HASTINGS, Neb., Sept. 25.—The state convention of the W. C. T. U. continues with unabated interest in the proceedings. The following officers were elected for the ensuing year:

President, Mrs. H. A. Hitchcock, of Fremont; vice president, Mrs. C. M. Woodward, of Seward; corresponding secretary, Mrs. Sarah A. Wilson, of Lincoln; recording secretary, Mrs. Alma Fitch, of Hastings; treasurer, Mrs. M. Lantry, of Omaha.

The Primaries.

A very spirited contest was waged in this city between the friends of M. D. Polk on the one hand and W. H. Newell on the other, both being candidates for the state senate.

The Polk delegations were elected in the first and second wards, while the third and fourth supported Newell.

Victory is in the air and THE HERALD hopes there will be nothing said or done that would endanger the success of our ticket.

The following are the delegates elected at the different primaries, so far as heard from:

PLATTSMOUTH.—FIRST WARD. J. H. Waterman, Lem Skinner, W. W. Drummond, A. B. Knotts, H. N. Dovey, L. C. Stiles, Wm Fox.

From Saturday's Daily.

—Coroner Bocke received a dispatch from Louisville last night about 12 o'clock which stated that a man had been killed there about an hour previous and requesting him to get immediately and hold an inquest. Sheriff Eikenbary and Mr. Bocke took their departure on the flyer this morning. An inquest was held and it was found that the man had met his death by accident. The name of the unfortunate man is John Shultz, an employe on the stone quarry near Louisville. He is a married man and has two children, one seven years old and the other two. He resides a short distance from the town, and as the house is close to the railroad, that course he generally used as he walked home. He had remained in town until about 10:30 and became so intoxicated that he could hardly navigate. He had been lounging around the depot and fell asleep, when he was awakened by some of the employes and started towards home. He succeeded in reaching a culvert about one hundred yards from the depot where he must have sat down on the track and gone to sleep. After a freight train had passed by shortly afterwards, his body was discovered in a frightfully mangled condition. The head was completely severed from the body and was found near the culvert, while the body had been carried along the track for several feet, and was as badly mangled as it was possible for it to be, the wheels having passed over it in four or five places.

The Fever at Jacksonville.

JACKSONVILLE, Sept. 25.—Sunday's norther was followed by a cold rain and drizzle that continued throughout yesterday and last night. This weather is unfavorable for the sick, but it is encouraging to note that only five deaths were reported yesterday. New cases, however, still continue in abundance. The report yesterday showed 113, of which 85 are colored and 28 whites. Total cases reported to date, 1,951; total deaths, 227. It is impossible to approximate the number of cases that have not been reported to the board of health. One physician has had over 130 cases, few of which have been reported.

Cases at Fernandina.

FERNANDINA, Fla., Sept. 25.—Yellow fever was officially declared yesterday to be here. The board of health issued the following bulletin: The board of health announces that the result of an autopsy held at 12 o'clock this day (Monday) on the body of Mr. Hood demonstrates the existence of yellow fever in the city.

[Signed] P. E. DOTTERER, President.

R. S. Lukanbill, a railroad agent, died yesterday morning.

A FAMOUS INSTITUTION.

A correspondent of the Fairfield (Me.) Journal writes as follows, from Buffalo, N. Y.:

"Editor of the Journal:—Thinking that it might interest some of your readers and make good my promise to you at the same time, I will write a few lines concerning the famous World's Dispensary and Invalids' Hotel and Surgical Institute. Let me at first disclaim any selfish motive, or desire to puff this or any industry. Thousands of dollars are expended every month to keep the merits of this Institution before the world and its managers ask for

NO FREE ADVERTISEMENTS.

A healthier or more convenient city for those afflicted could not have been selected in all of the world to place such an institution than Buffalo, N. Y. But concerning the city and its attractions I will write in some future letter. The World's Dispensary Medical Association occupies two large and magnificent buildings upon Main and Washington streets, and a branch Dispensary at No. 3 New Oxford street, London, England. The Invalids' Hotel and Surgical Institute fronts Main street and is attractive and elegant both inside and outside. Although it is

FILLED WITH PATIENTS from all over the country, it is clean and neat as any parlor and is appropriately termed the Invalids' Hotel and Surgical Institute. Large and well lighted rooms, with elegant appointments make the sick feel at home rather than in a hospital. Parlors with fine libraries and musical instruments are accessible to those who are convalescent. A staff of eighteen

SKILLFUL PHYSICIANS AND SURGEONS administer to the sick. A splendid medical library comprising all of the standard works of reference, is in a convenient room for consultation by any of the physicians. Any medical book of note or value is added to this magnificent collection of books as soon as published. The collection of surgical instruments is large and comprises every instrument of real utility and value known to the profession. A system of mechanical movements, passive exercises, manipulations, kneadings and rubbings, administered by a large variety of ingeniously contrived machinery, driven by steam is used as aiding other medical and surgical treatment in palsy, stitged joints, crooked and withered limbs and in those chronic cases so often given up by the common busy practitioner of medicine as incurable. Baths of all kinds are made use of in those cases where they are indicated. There is nothing quackish about the institution. It is run

FREE FROM ALL HUMBUG.

or deceit. A large and well appointed drug room in the basement of the Hotel contains all of the medicines and chemicals used by physicians and is in charge of authorized and skilled pharmacists and apothecaries. Each case is prescribed for according to the same rules and laws which govern any intelligent doctor when writing a prescription for his patient. There is no restriction used with the physicians in the Institution and they have the whole domain of Materia Medica to choose from. The proprietary medicines are only used or advised when in the judgment of the physician (to whom the formulas are known) they are indicated. Many and in fact every physician of any experience has found some remedies or combination of drugs, to do good work in a certain class of cases. Hence he writes the same prescription over and over again till the druggist knows it by heart and smiles when he looks at it. But it is none the less valuable for all that and the physician who knows its value does not feel hurt and stoutly defend it if he should be criticised for its frequent repetition. The doctor writing said prescription does not pretend that it will cure everything, or that it applies to every case. Upon this principle Dr. Pierce has (with much greater experience than ordinary physicians) devised, compounded and thoroughly tested

A FEW PRESCRIPTIONS

of remedies which in certain cases are curative and stand the test of time. They are not patent medicines nor are they recommended to cure every disease that flesh is heir to. They are favorite prescriptions advised in those cases where they are applicable. Those medical men who cry 'fraud' and 'quack' should remember that one man has as much right to his favorite remedies as another. Neither is it any more disgrace for a man to advertise and

PAY FOR IT LIKE A MAN

than it is for a physician to get some one to write an item for the paper telling about his skill in performing a surgical operation. I have seen an old physician who was a stickler as regards medical codes and professional etiquette, stop the editor of his local paper on the street and tell him how ill ex Gov. X. was and he had just given him a pill or put a plaster on his back. The doctor knew the news paper would contain the news of his being called to see the ex-Governor in its next issue. But nevertheless he shudders when he sees a legitimate advertisement which has been paid for. The people of this country are familiar with the por-

trait of R. V. Pierce, M. D. The doctor would be readily recognized by any one who had seen his portrait. His head is large and well orbed, and ability and enterprise are stamped upon his features and movements. Starting without fame or fortune he is today the widest known medical man of the age. The fact that he resigned his seat in congress to attend to his vast business speaks louder than words of his interest and devotion to his profession. Patients from the most distant states arrive daily for treatment at the Invalids' Hotel and Surgical Institute. The World's Dispensary, which fronts Washington street, is

A GREAT HIVE OF INDUSTRY.

Here the proprietary medicines are put up and the printing and binding done. Fourteen large presses, driven by power, with numerous folding, trimming, cutting and stitching machines are constantly running in this department. Here the famous 'Common Sense Medical Adviser' is printed, over 230,000 copies of which have been sold. Everybody in Maine is familiar with the Memorandum Books from the World's Dispensary. To speak of each floor with its work and uses would make too long an article. Some idea of the magnitude of the business can be had when it is known that there are nearly three hundred persons employed in the two buildings. It is a strong recommendation for any man or business to be popular at home. It is putting it mildly when it is said that the Institution is popular in Buffalo, and both it and its Chief honored and loved by the inhabitants of the great metropolis of the lakes."

The Cass county delegation returned from Lincoln this morning in fine feather and as jolly as though they had brought home with them the congressional nomination. Judge Chapman expressed himself as pleased with the nomination and especially with the manner in which his sturdy delegation from Cass acquitted themselves and also with the manner in which the convention was conducted. There is no doubt but Mr. Chapman would have been the nominee of the convention had the Lancaster delegation done what was expected and what that delegation unquestionably should have done. Now for the democratic convention and then the jury of sovereigns in November.

It is certain that the arguments which President Cleveland urges are those which Cobden used to employ forty-five years ago, and which any English free trader would employ now.—London Times, July 6, 1888.

The Old Doctors

Drew blood, modern doctors cleanse it; hence the increased demand for Alteratives. It is now well known that most diseases are due, not to over-abundance, but to impurity, of the Blood; and it is equally well attested that no blood medicine is so efficacious as Ayer's Sarsaparilla.

"One of my children had a large sore break out on the leg. We applied simple remedies, for a while, thinking the sore would shortly heal. But it grew worse. We sought medical advice, and were told that an alterative medicine was necessary. Ayer's Sarsaparilla being

Recommended

above all others, we used it with marvelous results. The sore healed and health and strength rapidly returned."—J. J. Armstrong, Weimar, Texas.

"I find Ayer's Sarsaparilla to be an admirable remedy for the cure of blood diseases. I prescribe it, and it does the work every time."—E. L. Pater, M. D., Manhattan, Kansas.

"We have sold Ayer's Sarsaparilla here for over thirty years and always recommend it when asked to name the best blood-purifier."—W. T. McLean, Druggist, Augusta, Ohio.

"Ayer's medicines continue to be the standard remedies in spite of all competition."—T. W. Richmond, Bear Lake, Mich.
