CITY BRIEFS.

From Wednesday's Daily.

—There is a new arrival at the home of Mr. B. B. Windham. It is a girl. Mr. T. W. Warrant and wife of Ashland, parents of Mrs. W. H. Pool, are in the city.

—Misses Amy O'Neill, Florence Smith, Anna and Mary Wright, of Bellevue, are visiting friends in the city today.

—Regular meeting of W. C. T. U. Thursday afternoon at 3 o'clock, at the residence of Mrs. S. A. Davis, on Pearl street.

—Mr. Geo. Pronger, one of the striking engineers who again secured a run on the B & M near Denver, is in the city and he intends to move his family out west in a few days.

—Westlake and Ellis, the two repro-bates who way-laid a man last Sunday night near Third street, and relieved him of his watch and money, are being tried today before Judge Stiles.

—Mr. John A. Davis, president of the young men's republican club of this city, has been honored by an invitation to speak at the republican rally to be held at Council Bluffs on the 25th inst.

—The creditors of the old Cole estate are being settled with today by the administrator, Mr. C. H. Paine. The courts have been restless for the last five years on account of numerous claims to a share in the estate. Over \$785 taxes have accumulated during the unsettled term.

—Mr. S. C. Herbert is a salesman for a wholesale house of Des Moines. He apparently is a genial fellow and also very eccentric as will be seen when a few following facts are made known. Our friend, C. Whopper Sherman of the Journal and the above named gentleman have been the most intimate friends for many years, even from boyhood to the present, and during the war they both shouldered their muskets in the same company and wended their way to the fray as brothers. They stood the struggle bravely and came out as friendly as when they started in. Mr. Sherman's friend was in the city only a few days ago and as an illustration of his eccentricity we give the following proposition made by him to Mr. C. W. Mr. Herbert has for years voted the democratic ticket, but this year, he informs us, it is his intention to go solid for Harrison; and more than that he is a strong supporter of the republican candidate in every particular even in betting. While in an argument with his friend, Mr. Sherman, the other day, he expressed his desire of betting him any amount he wished to cover on the election. Mr. Sherman meekly informed him that he was not a betting character, but still he was willing to accept most any other proposition which might be laid before him. "Well, Sherman, I'll tell you what I'll agree to do with you," he said with a smile while Mr. Sherman awaited patiently for the proposition. "If Cleveland is elected, I'll agree to secure a wheel-barrow and wheel the heaviest and homeliest nigger-wench that you can find for me in the state of Nebraska, for the distance of one block on Main street—from 5th to 6th streets, if you'll agree to do the same providing Harrison is elected." We learned that Mr. C. W. Sherman, editor and proprietor of our local contemporary, the Journal, accepted the above proposition, but not without considerable hesitancy. We believe he will cry before he completes his contract, "A horse, a horse, my paper for a horse," but we believe he will cry himself "horse" and nothing will be left for him but the coop and the wheel barrow, and the great president will say "C. Whopper, C. Whopper, why persecutest thou me?"

From Saturday's Daily.

—The democratic county convention is being held at Rockwood hall today. The following nominations were made: For representative, Hon. F. E. White, of Plattsmouth, and Mr. J. H. Marquette of Ayoca; Mr. J. C. Gilmore, senator; Mr. Met Gerling, county attorney; Mr. W. D. Jorck, county commissioner. The above gentlemen were nominated by acclamation.

—Mr. Joe Fairfield, of Sidney, Cheyenne Co., at one time editor of the Morning News here, is in the city and

will remain for a few days. He was accompanied by his brother, Mack and Mr. F. W. Hughes. Mr. Fairfield gives us the encouragement that Cheyenne will go about 300 strong for Harrison. Two years ago that county returned a large democratic majority.

From Tuesday's Daily.

—The dirt which has to be removed from Main street previous to paving, is being put to good service, by raising Vine and Sixth streets at and near their intersection to the established grade.

—The Herald job rooms yesterday gave into the hands of County Clerk Critchfield the poll books for the coming election. Mr. Critchfield started with them this morning on a delivering tour over the county.

—Last evening the Odd Fellows of this city met at their hall in the Fitzgerald block for the purpose of installing a Rebekah lodge. Grand Master A. Viney, of Omaha, being in readiness. The following officers were elected: Mrs. Mary E. Boyd, N. G.; Mrs. S. P. Vanatta, vice-g.; Miss Laura Twiss, secretary; Miss Lizzie Steimke, treasurer. About 36 charter members were present and after the installing of officers they all went to the parlors of J. P. Ansell, where supper was in waiting. At 2 o'clock all went their way homeward, well pleased. The new lodge will be known as "Bad or Promise, No. 40."

—The improvement made in the salaries of school mistresses since the "war times" is a fair example of the advancement of all wage-earning classes. In another column will be found the minutes of a meeting of the Plattsmouth school board held in December, 1887, wherein Miss Sarah E. Harper, now Mrs. McElwain, and who is a well-known lady in Plattsmouth at present, was employed to teach school for \$15 per month—a position which is now held by ladies at salaries from \$30 to \$45 per month. The school house in which Mrs. McElwain taught the winter term of '88-4 stood where the Dorey block now is.

Proceedings of Teachers' Meeting at Elmwood Oct. 13.

Pursuant to a call of the Co. Supt. at the county institute, a goodly number of teachers met at Elmwood on 13th inst.

Morning session—The county superintendent called the teachers to order at 11 a. m. and stated the object of the meeting. On motion Mr. Spink was elected president and A. L. Timblin secretary. After a song by the Elmwood girls' club, adjourned to meet at 1:30.

Afternoon session—After music the address of welcome was delivered by Rev. C. H. Gilmore and responded to by J. A. Sutton. The subject of graded schools was then taken up and a very able paper was read by A. H. Waterhouse, who presented some forcible reasons why our district schools should adopt a general course of study. Discussion was opened by A. L. Timblin. After an animated discussion it was resolved that the county superintendent should prepare a course of study for use in our district schools and send a copy to each teacher and request its immediate adoption. The subject of arithmetic was opened by J. G. Stark followed by John Hart, and a spirited debate followed in which the subject of inventing the divisor in division of fractions was thoroughly ventilated and explained. Miss Esther Cromwell introduced the subject of reading by an ably constructed paper, and Mr. W. F. Killeer gave a short review of the different methods of teaching reading. A remark made by the president in his modest way provoked a wild war of words which finally subsided, and when the last and wild had died away, we proceeded to permanent organization. On motion Mr. Spink was elected president and Miss Esther Cromwell secretary, with J. W. Crabtree as assistant. An executive board of three, consisting of the secretaries and Mr. Sutton was appointed to assist the president in arranging programs and time and place of meeting. After a vote of thanks to the good people of Elmwood for courtesies extended, we adjourned to meet on call of executive committee. The following is a list of those present:

John Jerry Stark, Grace Dickson, T. E. Hall, Anna Wilcoxon, D. W. Crabtree, Ross A. Royce, Minnie Harsch, Addie Bailey, Maggie Free, Myrtle Curran, Lura Quinn, J. E. Leidy, Lizzie Kiefer, Anna Swan, May Clements, C. A. Clements, B. F. Sunon, J. A. Sutton, J. Hart, Ellis E. Good, Libbie Curran, Dora Free, Mrs. Marcie Wood, Emma Dunson, J. W. Crabtree, Esther Cromwell, Sattie Wilkinson, W. P. Killeer, C. Curran, Fred Hess, Jerome Burdick, A. H. Waterhouse, G. M. Beach, Maynard Spink, A. L. Timblin.

The Pontoon Bridge Question.

The pontoon bridge question which was taken up in this city some time ago and dropped again because sufficient support could not be secured, will, without doubt, come up a second time for consideration when other cities along the line have eclipsed this city in advancement. The citizens of Nebraska City now boast of their pontoon bridge among their most extensive and valuable improvements. How it is apparently a necessity they can not do without. Plattsmouth was made the first offer to secure a pontoon bridge, but little interest could be aroused in the matter. The boards of trade in cities all along the river are now considering this question, and committees have been appointed at several places to investigate the pontoon bridge and its many advantages at Nebraska City. Last Thursday the Leavenworth board of trade met and heard a report from a committee which had been delegated to investigate the work at Nebraska City. They reported very encouragingly to the meeting, and the following resolution was offered:

"RESOLVED, That this meeting of the board of trade recommends to the mayor and city council the building of a pontoon bridge across the Missouri river, and we request them to submit to the taxpayers of the city a proposition for the city to give \$10,000 towards the building of such a bridge which shall be located not further north than Delaware street and not further south than the Riverdale coal mine. The money to be paid by five installments of \$2,000 per year to a responsible party who will build the bridge and give a guarantee with a good and sufficient bond to successfully operate the same for five years, the contractor during that time to be allowed the privilege of charging the following toll: Teams, return tickets 12 cents, or ten tickets for \$1; single horse, with rider or buggy, 5 cents; foot passengers, 1 cent; herds of horses, cattle, hogs, sheep and goats 1 cent each."

If a bridge is built at this point and the farmers of Iowa offered an opportunity to cross, the business men of this city must certainly reap a benefit. Although

many contend that as the farming country for five miles into Iowa is not much value, yet better land cannot be found than that beyond that distance. Farmers will come fifteen miles or more to sell their grain for a few cents extra, and that is the place they will leave their money. Although the country for some distance on the other side would not afford the best support, yet there would be some, and back of that, would be support enough to pay for the investment.

Died.

Oct. 16th, Reginald W. Drummond, of membranous croup, only son of W. W. and Annie Drummond, aged 6 years.

"Buddie," as he was familiarly called, was an exceptionally bright boy. The blow that in this event has fallen on the family is made the heavier, owing to the suddenness with which it came. Without warning the death messenger stole into the home, and in a few brief hours the dear one was snatched from the fond embrace of father and mother. We learn that during the afternoon of yesterday he was engaged in his childish play, and before the dawning of this morning, was cold in death.

We desire to extend to Prof. and Mrs. Drummond our heartfelt sympathy, and assure them of the kind regards of the entire community in their sad and sudden bereavement. Such events are of every day occurrence and our familiarity with them may take away somewhat of interest that would otherwise be awakened in the community, but in no manner does this lessen the sorrow or assuage the grief of those who are afflicted.

How thankful ought we always to be for the great source of comfort presented to us in the blessed promises of Him who is the great Father of our race, and we hope that these may not fail of their designed office in this instance, but may give comfort, and hope to our friends in their sad trial.

Miss Rosa Harris, of Ashland, is the guest of Mrs. Sarah McElwain of this city.

On All Woolen Underwear.

A Call Will Convince You.

J. V. Weckbach.

From Thursday's Daily.

—Messrs. A. E. Todd and W. D. Jones, the republican and democratic candidates for county commissioner, weighed themselves this morning on Mr. F. E. White's hay scales. A. E. Todd the republican candidate, outweighed his opponent by thirty pounds, weighing 230. They were weighed to see who would lose the most flesh during the campaign.

—Little enthusiasm was evinced last night by the democrats in the reception of their grand orator, the Hon. J. Sterling Morton. The opera house was only partially filled, and there was a much smaller turnout than any one expected to see. Many are of the opinion that his arguments on the tariff question were very thin-skinned. For a democratic speech it could be classed among their first-class ones—full of untruths and exaggerations. No stars and stripes were visible.

—Mrs. Peterson, an old lady about 67 years of age, mother of the Peterson brothers here, met with a serious accident last night about seven o'clock. Yesterday, one of her sons had rolled some heavy barrels over the collar trap door in the kitchen and loosened the hinges. She, with Miss May, daughter of Mr. J. C. Peterson, not knowing that the hinges of the door had been loosened in that way, started to walk across it, when it gave way, letting them fall into the cellar a distance of about ten feet. The old lady's hip was dislocated by the fall, and she received several other very bad bruises from falling down the steps. The little girl's injuries were only slight ones.

Between disease and the many cheap preparations which are palmed off under the name of blood purifiers, take your chances with disease, until you can procure Ayer's Sarsaparilla—the only reliable blood purifier. Sold by all druggists and dealers in medicine.

We clip the following from the report of Consul Hotchkiss, of Ottawa, Canada, made to the state department, Aug. 31st, 1888, which shows that if the tariff is taken off of lumber it will not be any lower than it is at present:

There is no dispute that the American manufacturer controls the making of prices. In doing this he is not influenced by the Canadian supply in any degree. If the duty of \$2 is removed it will not affect the American price, because it has never been a factor and will still be unfelt. No lower price will prevail in the United States than heretofore, and no different net results will be experienced by the manufacturer.

The Canadian, on the contrary, will lay his lumber down in the American market at \$2 less per thousand, and will obtain for it the same as the American does, so that the net result of the Canadian manufacturer will be a clear gain of the \$2 which the American Government has remitted. This additional net result to the Canadian manufacturer will, however, be of very brief duration. I am confident that not a May pay-day will pass before a public notice will issue in effect that a further increase in annual and timber dues has been made an order in council, in sums sufficient to absorb the \$2 per thousand into the provincial treasuries.

A whistle has been invented and a large number have been sold already in use for tonight, which will answer the question "What's the matter with Harrison?" "He's all right!"

Every wife and mother in the country should know the great value of Ayer's Sarsaparilla, as a blood purifier. It gives tone, health, and strength, to the vital organs, corrects all irregularities, and expels impurities from the system. Young and old use it. Price \$1.

—Mr. Frank Foster, who had been confined to his room for several weeks with typhoid fever and came out last Saturday and Sunday before he had fully recovered, has taken a relapse, and now lies in a critical condition and much worse than before. His friends have doubts as to his recovery.
