

There are many white soaps, each represented to be "just as good as the Ivory." They are not, but like all counterfeits, they lack the peculiar and remarkable qualities of the genuine. Ask for Ivory Soap and insist upon having it. 'Tis sold every where.

OFFICIAL PAPER OF THE COUNTY THURSDAY, APRIL 3, 1890.

EDITORIAL ETHICS. THE progressive improvement spirit is in the city today, it is in the air.

COL. FRANK IRELAND and Hon. Paul Schmitz are measuring swords on the mayoralty field in Nebraska City today.

The hounds of war are turned loose this morning. Cols. Connor Ruffner and Sherman are working harmoniously for the election of the democratic ticket.

For members of the school board we have two exceptional good men to vote for today, S. A. Davis and Wm. Ballance, they represent no clique, cranks or clan. Vote for them.

RUSH FELLOWS, of the Auburn Post, announces the beginning of the thirteenth year of that live journal, with a bright outlook for the future. Mr. Fellows is an industrious newspaper man, and when he fails the rest of us will quit.

THE HERALD'S idea of the ticket yesterday proved to be correct with the exception of city clerk. Mr. Egnobinger refused to be a candidate, whereupon C. W. Holm, an active young republican to the manor born, was nominated.

Bronze castings from Pennsylvania are being imported extensively by the English shipbuilders because the quotations on this side of the water are half a cent per pound lower than in free trade Britain. And yet "the tariff is a tax" - Ex.

The high waters have again assumed threatening proportions along the lower Mississippi. Levels are being swept away and whole cities that a few days ago were full of prosperous and happy people are now deserted, to give way to the onward march of the mighty river which in places is described as being over seventy miles wide, appearing like a great inland sea.

The positive declination of Mr. E. S. Gross, published elsewhere in the Herald, to become a candidate for Mayor, will have to be accepted by the republicans tonight. We have the assurance and know that the ticket named tonight will have his hearty support. This leaves, as far as we can learn, the field open to F. M. Richey the present incumbent. Mr. Richey has made a most excellent record and should and will receive the hearty support of the people regardless of party.

Iowa is making a fool of herself in fighting for free sugar just now. There is no doubt that the northern half of Iowa is well adapted to the culture of the sugar beet. But her people are so busy reducing railroad rates under the impression that thereby the world would forget about the great corn surplus and pay a fair price, that she has given no attention to the sugar beet question. Probably no farmer in Iowa has ever gone so far as to plant a few seeds to see how they would come out in the fall. What Iowa needs is a farmers' alliance organized to improve agriculture rather than to get office for the file leaders. - State Journal.

ARBO DAY. STATE OF NEBRASKA, EXECUTIVE DEPARTMENT, LINCOLN, March 31, 1890. To the people of Nebraska: The day is near at hand (the 22nd of April) which has been set apart by the statute as Arbor day. I therefore respectfully call the attention of the people of this state of all conditions, laboring men, tradesmen, men of all pursuits and professions to this subject, and most urgently recommend that each and all devote the 22nd day of April of this year to the planting of trees, ornamenting the grounds around your dwellings with them and with shrubbery; plant them along the highways, adorn the borders of your fields with them and plant them in groves. In no way can you confer a greater blessing upon the present generation and those which are to follow.

I entreat the people of this Commonwealth not to neglect this pleasant duty, the faithful performance of which will add so much to pleasures of life, and will largely enhance the value of your property. Especially invite the schools, both teachers and pupils, to devote this day to the purpose named.

Let Arbor day be universally observed. In testimony whereof, I have hereunto set my hand and caused to be affixed the great seal of the state. Done at Lincoln, this 31st day of March, A. D. 1890. By the Governor, JOHN M. THAYER. BEN. S. COWDERY, Secretary of State. By O. C. BELL, Deputy.

COST OF DEMOCRATIC RULE. We give below what democratic ascendency has cost this country in the single office of treasurer; if other offices of trust were added the amount would be doubled.

Maryland furnishes the latest addition to the list of defaulting democratic state treasurers. There are eight of them all told, and the amount of their thefts, together with the victimized states, is shown by the following table:

Table with 2 columns: State and Amount. Includes Louisiana (\$797,800), Georgia (\$2,000), Kentucky (\$200,000), Virginia (\$150,000), Tennessee (\$400,000), Missouri (\$1,322,000), Mississippi (\$215,612), Maryland (estimated) (\$100,000). Total: \$3,941,212.

The City of Paris, one of the finest polices that floats upon the Atlantic, had a very unfortunate accident happen during the last trip, that might have caused the total loss of all on board. The accident to the steamer occurred when the vessel was two hundred and fifty miles off France. The passengers say they heard a loud crash, followed by an explosion. The ship quivered and the thumping of broken machinery in the engine room shook the steamer from stem to stern. She began leaking badly from a hole which had been broken in the bottom. The pumps were quickly manned and the boats were ordered to be cleared. The passengers were much excited, but the officers remained calm and their presence of mind and enforcement of regular discipline soon had the effect to restore the confidence of all on board.

Stack has been convicted of the crime of conspiracy and is liable to a year's imprisonment and a fine of \$500. Yet he remains the sheriff of New York county, and in the full exercise of all the powers pertaining thereto. This seems a dreadful anomaly. The conspiracy into which Stack and others entered is, however, a misdemeanor only in the eye of the law, and conviction of such a crime does not work a forfeiture of the office held by the chief offender. Nevertheless, charges have been preferred against the sheriff to the governor, and he has been summoned to show cause why he should not be removed. It is notorious that he should not be removed forthwith, but his removal will doubtless bring forward a great array of reasons to the contrary. - N. Y. Tribune.

PROHIBITION breeds a disposition to meddle with other people's business. Over in Iowa the prohibition wing of the state are championing a measure compelling school publishers to sell their goods to everybody at their present wholesale prices, and to give 20 per cent off of this for cash. The next thing that an Iowa legislature tackles will probably be to fix a price on cattle and hogs making a severe penalty for the man who would dare to buy a lower figure than was intended by the wise solons. A little more sumptuary legislation and a majority of prohibitionists might be ashamed of the theory, and return to their old and safer beliefs.

Suspect No. 4. Omaha, Mo. Chief Sweeney received the following telegram last night from Chief Abbey of Nebraska City, dated at Holdrege, Neb.: Have Lisk arrested. Will be in with him on No. 4. ABBEY.

The train referred to is that which arrives in Omaha at 9:35 this morning over the B. & M. Lisk's arrest fastens another link in the chain of evidence which is rapidly being forged to completion about the murderers of the white haired old couple, and the story which this fourth suspect may have to tell upon his arrival here this morning will be awaited with great interest.

To Explore Alaskan Fields. NEW YORK, March 31. - W. J. Arwell and Russell Harrison have sent out an expedition to Alaska in the interest of their Frank Leslie's Illustrated Newspaper. One of the principal agents connected with the expedition is Mr. E. J. Glave. Mr. Glave went to Africa in 1883. At the age of nineteen he had command of one of the stations far in the interior of the Congo, founded by his chief, Mr. Stanley. He and Mr. Stanley lived together six years in the wilds of Africa. He was decorated by the King of Belgium with the Star of Service, which is a gold guarantee of his having fulfilled his duty in Africa.

MONTANA CASES. Republican Contestants to Be Seated by the Senate.

It Will Come Up in the House this Week - Dorsey's Silver Measure to Be Considered - Many Public Building Appropriation Bills that Fall to Appropriation.

WASHINGTON, March 31. - The senate will take up the Montana election contest to-day. It will be debated probably for two days and the Republican contestants (Saunders and Powers) will be seated, probably by a strict party vote. When the election cases are out of the way, the dependent pension bill will be debated and disposed of. The under valuation bill follows this in the order of business, but it will hardly be reached this week. Saturday will likely be devoted to the consideration of bills on the calendar. Several set speeches on political and economic questions are expected to occur in the week, the Florida nominations will be taken up again in secret session and continued. The world's fair committee has not been called together by Senator Hiscock, but it will meet doubtless during the coming week and it may agree upon a report within the next two weeks.

The house begins the week with individual suspension day and members having bills in which they are interested call them up for passage on recognition by the speaker. The Republican members of the committee on territories intend to bring up another statehood bill for consideration - that providing for the admission of Idaho. The Democrats will oppose the bill on the grounds on which they opposed the Wyoming bill. The army appropriation bill will be further considered and passed, and it is possible that the fortifications appropriation bill will be taken up for consideration. On Tuesday evening the Democrats will oppose the bill on the grounds on which they opposed the Wyoming bill. The army appropriation bill will be further considered and passed, and it is possible that the fortifications appropriation bill will be taken up for consideration.

Silver Legislation. WASHINGTON, March 31. - No definite agreement has been reached in regard to the time when the Jones silver bill in the senate and the Dorsey measure in the house, will be taken up for consideration, but it seems likely that the senate will discuss the subject first. The bill has been given a place well down on the senate order of business and it may not be reached for several weeks. There is little doubt that there will be some modification of the silver question at this session of congress. It is what form the bill will finally go to the president, is still a problem. But a general belief exists that the Jones measure will go through substantially in the form in which it was reported from the senate finance committee. Senator Jones, who has been discussing the matter only with the other members of the senate, believes that there is a large majority in favor of the measure as it stands; but he admits that debate may result in the adoption of some modification not as yet suggested. Mr. Dorsey is quoted as saying that he would be willing to accept the Jones bill as a compromise between the two measures. The measure reported from his committee is a collateral result of the passage of any one of these laws, will be the coming of the mint at Carson City Nevada. This measure is used chiefly for coining silver coins, and the decree in the coinage which will follow the issue of certificates of gold coinage, will be the coming of the City mint of nearly all of its work, and will fix its coinage in the suspension of the mint.

Public Building Bills. WASHINGTON, March 31. - The house of representatives recently has passed many senate bills appropriating money for public buildings, but in several cases the appropriation clause has been taken out of the bill. This action recalls the remark made by a representative recently when an appropriation bill was reported from the committee, "It is a pity that a large majority in favor of the measure as it stands; but he admits that debate may result in the adoption of some modification not as yet suggested. Mr. Dorsey is quoted as saying that he would be willing to accept the Jones bill as a compromise between the two measures. The measure reported from his committee is a collateral result of the passage of any one of these laws, will be the coming of the mint at Carson City Nevada. This measure is used chiefly for coining silver coins, and the decree in the coinage which will follow the issue of certificates of gold coinage, will be the coming of the City mint of nearly all of its work, and will fix its coinage in the suspension of the mint."

The Iowa Legislature. DES MOINES, Ia., March 31. - In the house a bill was passed for punishment of fraud in the sale of nursery stock. A bill for the protection of stock breeders was amended and a device suggested. In the senate a resolution was passed for the appointment of a committee to prepare a reception for the grand Army of the Republic state encampment on April 8. A bill passed to authorize the bonding of county indebtedness, and to authorize certain cities to levy taxes to pay for changing natural water courses into sewers. The joint rates bill passed under suspension of the rules in the same form it came from the house.

St. Louis, March 31. - Late returns from the Mississippi levees report the waters steadily advancing southward from Skipton crisscross, in the towns of Mayfield, etc. The levees are being hurriedly repaired and the water is being kept out of the fields. The levees are being hurriedly repaired and the water is being kept out of the fields. The levees are being hurriedly repaired and the water is being kept out of the fields.

DOOMED TO DESTRUCTION. The Entire Mississippi Levees from Vicksburg to New Orleans.

ST. LOUIS, March 31. - Mr. J. J. Hogan, of Memphis Commercial, arrived here direct from the flooded district a long the Mississippi river. He says the situation is alarming, and in his opinion the flood has not reached the high at north. At Laconia Circle, which is situated in Desha county, Arkansas, and comprises about 20,000 acres, the scene is a heart-rending one. This strip of country is now inundated to a depth of five to twenty feet and the inhabitants, numbering between 2,000 and 3,000 people, whites and negroes, women and children - are perched on rooftops and haystacks and in the levees. Live stock not already drowned, are maintaining a precarious existence with their wretched owners, in some instances on the roofs of residences and elsewhere on improvised platforms or wrecks. Starvation is taking on the title, while the human victims are in a state of less deplorable condition as to food. From Helena, the entire Mississippi delta country, reaching from Vicksburg to Shreveport and down to New Orleans, seems doomed to destruction. Mr. Hogan reports that all the people in the wide district threatened who realize the true situation, are fleeing to their lives.

Towns Most in Danger. VICKSBURG, March 31. - Late returns from the Mississippi levees report the waters steadily advancing southward from Skipton crisscross, in the towns of Mayfield, etc. The levees are being hurriedly repaired and the water is being kept out of the fields. The levees are being hurriedly repaired and the water is being kept out of the fields. The levees are being hurriedly repaired and the water is being kept out of the fields.

The Cyclone at Golconda, Ill. GOLCONDA, Ill., March 31. - The cyclone of the 27th struck this place from the southwest, being accompanied by rain and hail in floods and vales. The two-story frame house of Jonathan Routette was driven to pieces and its inmates tossed about like playthings. All were more or less seriously injured. Mrs. Louisa Routette, Miss Lucy Routette was struck by a flying timber and killed outright. George Taylor's residence was torn to pieces. His wife was killed and other members of the family were seriously injured. All the outbuildings were wrecked. A German boy, name unknown, was drowned. Rumors are constantly running in from residences destroyed, orchards ruined, and men, women and children killed or washed away by the rushing waters.

Fifty Lives Lost at Clay, Ky. NASHVILLE, Tenn., March 31. - The Chesapeake and Nashville railroad suffered a loss of property by Thursday's cyclone. About 500 feet of high trestle works were destroyed and 300 feet of iron bridges were blown from their pillars. They were broke and twisted into thousands of pieces and shapes, and are a total loss. The company hopes to be able to run trains over the road in two weeks. A mile of track was torn up by the cyclone.

A Specter from Clay, Ky., says that the number of lives lost will not fall short of 50, while the damage to property is estimated at 70,000.

EVANVILLE, Ind., March 31. - Three men of the Newport News and Mississippi Valley railroad bridge across the Cumberland river, near Knoxville, Ky., were blown into the river by Thursday's cyclone. The loss of property in the vicinity of Knoxville is estimated at 50,000. Twelve persons are reported to have been killed, and about thirty seriously injured. At Eatonsville, Ky., nine persons were killed.

AMPESSA D. SALANCA LAKE, N. Y., March 31. - Since Friday fifteen inches of snow has fallen here and the storm is unabated. This is the heaviest fall of snow throughout the Adirondacks in years.

JOHNSTOWN, Pa., March 31. - The people of this city yesterday sent \$500 to the Louisville sufferers. More will be sent the present week.

ST. LOUIS, March 31. - At 6 o'clock a. m. an electric light wire set fire to the five-story elevator of the J. W. Kaufman Building, causing a fire which spread to the street and the Pacific railroad. The flames were soon under control and spread to the main building. There were 50,000 bushels of wheat in the elevator, all of which was destroyed. Loss on elevator and mills \$200,000, and the machinery and stock on hand was worth \$80,000. The whole is a total loss. Covered by insurance.

NEWCASTLE, Pa., March 31. - The opera house and three other buildings were destroyed by fire. Loss \$5,000, partially covered by insurance. A fire which started at the time of the fire and threatened the destruction of the city. It is believed the fire was of incendiary origin.

SPORTING GOSSIP. The Players' League Schedule - Western Athletes - Dempsey's Deep Disgust.

PITTSBURG, March 31. - The arrangement of another schedule with no conflicting dates with the National League, will come up for consideration at the special meeting of the Players' League, to be held in New York next Wednesday. To effect this it will be necessary the making of an entire new schedule. Manager Hanlon said: "A change of this character could be made with business propriety. So far as Pittsburgh is concerned, conflicting dates in-pire us with no dread, but I see no good reason, however, for a warfare such as the National League has mapped out, and the disturbance is of its creation, as our schedule was the first to appear. As the schedules are now arranged, New York, Brooklyn, Philadelphia, and Boston are without base ball attractions on July 4. A change should be made in the schedule regardless of any charges of tameness, etc., the National League may make. The Players' League will not leave the patronage offered by these cities go unutilized. Business interests make conflicting dates at any time unnecessary and impracticable. Neither the public nor our diversaries can find fault, if in emergencies such as exist, we rise to the practical sense of guarding our own interests."

Western Athletic Tournament. ST. LOUIS, March 31. - The final bouts of the Western Association of Amateur Athletes were held at Entertainment Hall, Governor Francis being among the distinguished guests present. Chicago captured most of the honors. John Wynn of St. Louis, won the featherweight boxing prize; Steve Dwyer of St. Louis, the lightweight; W. McAuliffe, of the Union Athletic Club, Chicago, the middleweight and heavyweight. In wrestling it is the victor, was William Murray, Union Athletic Club, Chicago, featherweight; Barney McFadden, Missouri Athletic Club, St. Louis, lightweight; John Dwyer, St. Louis, middleweight; John Dwyer, Chicago, heavyweight. Forty of the contestants in the heavyweight wrestling, had his shoulder dislocated.

A Promising Youngster. PITTSBURG, Pa., March 31. - Pittsburgh will have the honor, without doubt, of nominating the first horse who will compete for the \$30,000 stakes offered by the Charter Oak driving park association for a race to be held by foot of 1888 in Hartford, Conn. in 1892. The nominator are Con Murphy & Co., of the Meadowslands stock farm, near Washington, Pa., and the number, M. L. W. is a bay colt foaled in 1888. M. L. W. is by Brown Wilkes, first dam Harlow, by Belmont, and second dam Kate Harlow, by Harold, M. L. W. by his breeding and appearance, gives promise of making a great bid for the coveted stake.

Demosey Discontent. SAN FRANCISCO, March 31. - Jack Dempsey left for Portland, Ore., without giving warning to the California Athletic Club, of which institution he is the boxing instructor. His friends say he is so disgusted, because he could not match with LaBlanche, that he will not return to San Francisco, but will accept with the Joe McAuliffe combination. Young Mitchell promised Dempsey to fight LaBlanche, and it is probable a match will soon be arranged between them. Many believe here that Mitchell can whip the "Marine."

A Russian Count. BOSTON, March 31. - The Globe devotes considerable space to an interview with Roman Ivanovitch de Lippman, who, as Count Zuboff, has been charged with swindling numerous society people in this city and to have been sailing under false colors. The Count presents, innumerable postal cards and letters in support of his statements. Among his correspondents are letters from Alfred Webb, Dublin, correspondent of the New York Nation; John Cooke, of Dublin university, and Ward & Dowsley, the London publishers. These letters tend to show that he is not an impostor and that he used the name Zuboff before he came to this country, as well as to prove that he is a count.

Commercial Agencies Disturbed. YANKEE, D. T., March 31. - The Bradstreet and Dun commercial agencies are disturbed lest they be forced, under a new law, to cease doing business in South Dakota. The law in question provides that every commercial agency doing business in the state must have a capital of \$20,000, and must also deposit \$20,000 in the state treasury, subject to judgment and garnishment of persons injured financially by the agency making the deposit.

Struck Oil. LENA, O., March 31. - S. P. Boyer struck oil on the Parker farm, five miles west of this city. The well is flowing at the rate of 1,400 barrels per day, and is situated one mile east of the famous Tangle well, which was drilled in the spring of 1886 and is still going, having produced 700,000 barrels of oil since that time. This Parker well is a great surprise, as it develops new territory.

Scheme to Fleeze the Falls. BEFALO, N. Y., March 31. - Plan have been perfected for utilizing the force of Niagara Falls by means of a tunnel, having its head some miles above the falls themselves, and being just below them. The capital stock of the Niagara River Hydraulic Tunnel Power and Sewer company has been increased from \$200,000 to \$2,000,000.

Feed Duff is Dead. PHILADELPHIA, March 31. - Fred Duff, well known on the minstrel stage as the female impersonator, died here of consumption. The deceased was about 31 years of age, and a native of Liverpool, England. For several years past he has been a member of the Caracross Musical company.

In Defense of Law. SEATTLE, Wash., March 31. - Captain J. C. Nixon, owner of the sailing schooner Olla L. Alger, when interviewed said his schooner and many others would go into Behm's sea this year to catch seals in defiance of the law.

Diphtheria Epidemic. BELVIDERE, N. J., March 31. - An alarming epidemic of diphtheria prevails at East Stroudsburg, Pa. Deaths are occurring daily. The disease originated in improper drainage.

IT SU TS PL - TTSMOUTH. The B. & M's New Scheme for Reaching Fort Omaha.

Omaha, Mo. No conclusions were reached by General Managers Clark and Holdrege in their conferences for a joint right of way, through New Fort Omaha and Mr. Clark returned to St. Louis Sunday morning. Negotiations were left in such shape, however, that an agreement will probably be entered into within the next ten days. A proposition from Mr. Holdrege, contemplating the use by both companies of one track between Nebraska City and South Omaha, is now under consideration. Mr. Clark took it away with him, promising to return his answer some time this week. If its terms are accepted the B. & M. secures a line from Nebraska City to Plattsmouth, by simply building a short line between Union and Plattsmouth the Missouri Pacific gets what it wants.

The reservation right-of-way has virtually been abandoned for another equally as desirable outside and along the west of that tract though it makes the cut-off line a little longer. If Mr. Holdrege's proposition is accepted his company will in exchange for the Missouri Pacific track privileges between Nebraska City and Plattsmouth extend like service to the latter over the B. & M. road from Plattsmouth to South Omaha.

REPUBLICANS AHEAD.

A Hasty View of the Polling Places at 2:30. In the first ward 110 votes have been cast, which is a poor showing for this former democratic ward. The hard fight is on councilman, which is very close, the friends of Salisbury stoutly asserting that he is ahead. The vest pocket vote in this ward and, in fact, all over the city makes a safe prediction on the majority almost impossible. The poll workers at this ward think Richey, up to this time, is ahead of his ticket.

In the second ward the fight is kept up by all along the line; total vote polled at 2:30, 142 on the general ticket, 132 on the bond ticket, with no votes against the proposition. Morgan's friends claim the vote was running ahead of his ticket, a leading and appearance, gives promise of making a great bid for the coveted stake. Brown and Osborn are running close together though all parties concede Brown was ahead, Osborn's friends going to offset the gain by voters who had not yet arrived from the east part of the ward.

In the third ward 145 votes have been cast. Murphy is ahead, with Larson's friends making a hard fight. Richey is running ahead, while Morgan is not running much though it is his home ward. In the fourth ward the vote is remarkably light only 90 votes having been cast. Connor's friends claimed he was ahead but this was denied by the other side. Peter Hanrahan was thought by some of poll workers to be ahead of Gutsch and if the scales did not turn would be elected. The republicans have the advantage in this ward with good poll workers and we shall expect a good report when the votes are counted.

But little could be learned from the fifth; they used no separate ballot box for the school board, which will prevent the counting of that vote in that ward. It is generally thought the republican school board will be elected. There will not be ten votes against the bonds in the entire city.

From appearances now the lightest vote for years will be one of the results of today's work. Col. Connor is seen all over the town whispering orders to his faithful captains while Mayor Richey with Judge Sullivan gives to the different wards, feeling the public pulse and putting in a good lick where most needed.

Bucklen's Arnica Salve. THE BEST SALVE in the world for Cuts, Bruises, Sores, Ulcers, Salt Rheum, Fever Sores, Tetter, Chapped Hands, Chaldishas, Burns, and all Skin Eruptions, and positively cures Piles, or no pay required. It is guaranteed to give satisfaction, or money refunded. Price 25 cents per box. For sale by F. G. Fricke & Co.

The Ladies. There should be eight hundred people at the opera house tomorrow night. The entertainment will be one of the best given this year and will amply repay any who care to spend a pleasant and enjoyable evening. Every dollar raised by this entertainment, which is gotten up by the ladies of the Presbyterian church, will be used in the purchase of a magnificent pipe organ for the new church. The good people of Plattsmouth can help along a most worthy scheme by being in attendance at this entertainment; no individual would feel the loss of the money, while in the aggregate, great good would be accomplished.

If you suffer prickling pains on moving the eye, or cannot bear bright light, and find your sight weak and failing, you should promptly use Dr. J. H. McLean's Strengthening Eye Salve, 25 cents a box.

DR. MARSHALL, DENTIST, will be in his office on and after March 12, prepared to do ALL kinds of dental work by latest improved methods.
