The check seems to have awakened up his English intellect and improved him in a really very much.

Mr. Pepperburg showed us two brands "The De St Root" and "La Torrono" 50c cigars, specially made for L. E. Myers the Cedar Creek druggist. In fineness of quality we readily consider these brands superior to any eastern made 10c cigars. Mr. Myers, like our Mr. Pepperburg prides himself on his reputation for high grade cigars. Our Cedar Creek people ought to give their full support in patronage to Mr. Myers as Mr. Myers is surely selling a better 5c cigar, than other houses do, who buy of eastern jobbers.

J. C. PERKINS, N. G. JOHN V. SEC.

J. G. Richey, W. D. Jones, F. E. White, W. B. Shryock, and Byron Clark made up a jolly hunting party this morning for Burwell Nebraska. It was the first prohibition crowd we have seen start out on a hunt for a long time. No commissaries were in sight, even the dogs were wrapped up in gunny sacks and carefully stowed away on ice. The snakes are said to be very bad in Wheeler county and we greatly fear the outcome of the trip without antidotes may result fatally to some of the more careless members of the party. Their return will be awaited with more than usual anxiety.

Is Consumption Incurable?

Read the following: Mr. C. H. Morris, Newark, Ark., says: "Was down with Abscess of Lungs, and friends and physicians pronounced me an incurable consumptive. Began taking Dr. King's New Discovery for Consumption, am now on my third bottle, and able to oversee the work on my farm. It is the finest medicine ever made."

Jesse Middlewast, Decatur, Ohio, says: "Had it not been for Dr. King's New Discovery for Consumption I would have died of Lung Troubles. Was given up by doctors. Am now in best of health." Try it. Sample bottles free at F. G. Fricke & Co's.

Charley Edgerton, while at work in the machine shop this afternoon, received a blow on the head by the falling of the smoke head from the drill, that felled him to the ground senseless. He was soon able to come up and have his head dressed which showed a painful scalp wound.

ABSOLUTELY WATER-PROOF

OK BITUMINOUS BUILDING PAPER

FOR SHEATHING HOUSES.

We call attention to the novelty of its construction, it being composed of two sheets of paper with an interposed layer of water-proof bitumen or asphalt, the whole united under pressure, making a sanitary mildew-proof sheathing for the sides and floors of houses, that will last as long as the building upon which it is applied.

Experience has shown that the cheap paper commonly used for sheathing houses do not protect a building for any length of time, but soon mildew and fall to pieces, making the house drafty and damp; these defects can then only be remedied at great expense.

A Good Sheathing like the O. K. Building Paper, can be obtained at a trifling cost, and it is a waste of money to use an inferior article.

Put up in rolls 36 inches wide, containing 1,000 square feet.
