The McCannville-Keefe athletic combination, comprising some very good professional talent and men of high standing, will be at the Waterman opera house Saturday night, July 12th. As it will be the first exhibition of the kind ever in Plattsburgh they ought to get a good house.

A number of the untried partially prepared to take freight train No. 27 at 8 o'clock this morning, to go to Louisville to attend the democratic county central committee meeting there today. Either the train did not wait long enough, or the travelers tarried too long in making final preparations for the democratic love feast, for long toward 9 o'clock they were seen to make another and surer effort by pulling out by team overland.

Edward Rosewater made such a signal failure in his effort to defend the liquor traffic at the Beatrice chautauqua that the high license people are beginning to demand his withdrawal from the platform. This is a free country and why not let the great Edward speak to his heart's content. His weakness will but strengthen the prohibition cause. If he had exercised the least bit of judgment, he would have stood from under when Sam Small turned loose.

The great railway rate debate occurred at 2 p. m. today, between Hon. T. M. Marquette and Hon. C. H. VanWyck on the Crete chautauqua grounds. Tomorrow at the same hour and place Dr. T. De Witt Talmage will have for the subject of his lecture, "Big Blunders." We don't know whether his subject has any reference to the little Omaha editor's "tackling" Sam Small for a joint discussion of the prohibition question or not, but shouldn't wonder if it suggested the subject.

I. O. O. F. Mystic encampment No. 31, I. O. O. F., installed the following officers last evening for the ensuing term: Frank Boyd, C. P.; T. E. Williams, S. W.; John Corey, J. W.; P. D. Bates, H. P.; Dr. C. A. Marshall, scribe; B. C. Kerr, treasurer.

PYTHIAN CONCLAVE.

Thousands of Sweltering Knights in Line at Milwaukee.

MILWAUKEE, July 7.—The streets are alive with uniformed men and every train served to swell the sweltering mass. The weather is intensely hot and the Pythian knights presented the very picture of discomfort. It is exceedingly difficult to get at the number of knights in town today as many brigades have not formally reported.

Some trouble is expected when the last of the crowd comes into town. Originally it was intended by the contiguous committees to provide 3,000 tents for visitors but the number was cut down to 350. Adjutant General McKee says the accommodations will be seriously inadequate and he is greatly puzzled to know where to place his men.

Gossip is already heard about the probable location of the next biennial convlave. Strong effort will be made to get the encampment for Omaha, with Lincoln, Neb., also asking for it. Boston will also make a strong bid for the convlave on the strength of her close race for it against Milwaukee in the last meeting. The Indiana brigade will pull for Indianapolis, and the hoosier city stands a fighting chance against all the rest.

The following is an unwritten law of the order: George B. Shaw, of Eau Claire, a millionaire lumberman, will, with scarcely any doubt, be made supreme chancellor.

AGREED ON SILVER.

Senate and House Conferrees Reach an Agreement.

MR. BLAND SAYS IT WILL BE LAW.

The River and Harbor Bill, the Original Package Measure, and the Torrey Bankruptcy Bill to Receive Attention—Exploding a Sensation—China's Demands.

WASHINGTON, July 8.—After routine business a motion was made by Mr. Morrill that the tariff bill be considered. After considerable discussion the motion was lost—yeas, 20; nays, 23. Senators Plumb, Allen, Casey, Mitchell, Spire and Stewart voted with the Democrats against taking up the bill. After a brief consideration of the bill to establish a United States land court, consideration of the two shipping bills was resumed.

Mr. Rangan said that he agreed most heartily with the purpose of building up again the mercantile marine of the United States, but that he did not agree with the policy of the pending bills. The United States could not expect to build up commerce when the policy of its revenue legislation was destroying the existence of internal commerce.

After the close of Mr. Reagan's remarks the election bill was received from the house and was, on motion of Mr. Frye, ordered to lie on the table until the return to Washington of the chairman of the committee on privileges and elections, Mr. Hoar.

Mr. Morgan addressed the senate on the shipping bills. He suggested to Mr. Frye to let the experiment be tried of permitting American citizens to buy ships abroad and to sell them under an American register. All hostile commercial legislation had long since been abandoned by all nations except by the United States in that one instance of forbidding the use of vessels under the American flag that are not built in the United States.

Mr. Morgan yielded the floor temporarily, and Mr. Sherman presented the conference report on the silver bill. After it was read in full he gave notice that he would call it up for action in the morning.

Mr. Frye made some additional remarks in favor of the bill.

After a brief secret session the senate at 5:40 adjourned.

House.

In the house Mr. Dorsey of Nebraska moved to suspend the rules and pass a concurrent resolution requesting the president to return to the house the bill extending the time of payment to the purchasers of the lands of the Omaha tribe of Indians in Nebraska.

Mr. Outwaite of Ohio demanded a second, and the Democrats refusing to vote, left the house without a quorum. Mr. Dorsey thereupon withdrew his motion.

On motion of Mr. Payson the house went into committee of the whole for the consideration of the senate bill to forfeit certain lands heretofore granted for the purpose of aiding in the construction of railroads with a house substitute therefor.

Texas' Millers' Protection.

WASHINGTON, July 8.—The interstate commerce commission will take up today the case of the Kaufman Milling company, of St. Louis, vs. the Missouri Pacific railroad and other railroads centering there. The case is a test case, brought by the millers of Missouri and Kansas, and involves a new and very important point. In nearly all other parts of the country the rates on wheat and flour are the same. Leading into Texas the rates on flour are made higher than those on wheat, which is a virtual protection of competition between Texas mills and mills outside the state for the Texas flour trade. The millers of Missouri and Kansas claim that the millers in the wheat belt have a natural advantage, to which the consumer in Texas or anywhere else is entitled. They ask, therefore, that the Texas roads be compelled to make the rates on wheat and flour the same.

An Agreement on the Silver Bill.

WASHINGTON, July 8.—The conferrees on the silver bill have reached an agreement. It is on the basis of a purchase of 4,500,000 ounces of silver monthly, the issue of silver certificates to be legal tender and to be redeemed in lawful money.

The conference report was signed by the Republican conferrees only. Senator Harris and Representative Bland refused to sign it.

Mr. Bland said to a reporter that he was not satisfied with the conference report, but he would present no minority report. "I have no doubt the report will be agreed to in the senate, and in the house" said Mr. Bland. "The Republican party has agreed upon it, and it will be put through. I guess there is no question of the president signing it."

Why? WASHINGTON, July 8.—To-day is the day fixed by the interstate commerce commission for the railroads to show cause why the commission should not order a general reduction in food products, in accordance with the recommendation made by the report made by the commission to the senate some time ago.

Boston Saloons. BOSTON, July 8.—Under the present statute the number of liquor licenses in Boston is limited to one for every 500 of the population. By the gain in the census, according to Supervisor Wadlin's report, the police board will be enabled to issue ninety-five more licenses.

Puddlers' Helpers Strike. LANCASTER, Pa., July 8.—The puddlers' helpers in the Susquehanna Rolling mill at Columbia went on a strike. The puddling mill is shut down in consequence and sixty-five are thrown out of work.

Tariff Bill Postponed. WASHINGTON, July 8.—The senate, by a vote of 23 to 20, refused to take up the tariff bill. This means merely a postponement for the purpose of considering the river and harbor bill this week.

THE AMERICAN ASSOCIATION.

All Save the Brooklyn Club in Flourishing Condition Financially.

LOUISVILLE, Ky., July 8.—The directors of the American association met here at noon. St. Louis was represented by Chris Von der Ahe, Syracuse by G. K. Fraser and Toledo by C. H. Morton. The failure of the Athletic club to reach here in time necessitated its being represented by proxy. President Phelps presided, and the first business was the question of contested fines. After hearing the statements of the clubs the directors unanimously decided to sustain the umpires in each instance. Gen. Beiser and Manager Powers appeared before the board and stated the situation in regard to playing ball at Windsor Beach on Sundays. The board decided that the association should take up the fight of the Rochester club and directed President Phelps to proceed to Rochester and employ counsel to contest the matter in the courts. The matter of the contested forfeited games played respectively at Toledo and St. Louis, was taken up next. It was decided in the absence of statements from the umpires that no action be taken until they filed their statements with President Phelps. All clubs in the association presented reports showing their financial condition. All clubs, excepting Brooklyn, were in a flourishing condition. Mr. Kennedy of the Brooklyn club, assured the directors that he had received additional backing and would strengthen the club. President Phelps appointed Wesley Curry an association umpire. He has been umpiring in the International league.

TO BOYCOTT THE NORTH.

Strong Feeling Throughout the South on the Federal Election Bill.

CINCINNATI, O., July 8.—A prominent wholesale merchant of Charleston, S. C., who does not wish to be named, is in the city and talked freely on the southern sentiment regarding the federal election bill. He says the people of the north have no idea of the intense feeling that exists among all classes in the south on the proposed measure. There is no disposition to talk about it or to make threats, but the passage of the bill will be the signal for the creation of the extreme bitterness, and a feeling that will undoubtedly undo all that years of peace has accomplished, and that will find manifestation in action. First of all every northern product as far as possible will be boycotted. Following this will come the most extensive and effectual boycott on class labor the world has ever known. Arrangements are already under way to secure abroad thousands of white laborers, and every negro employe in the entire south will be discharged, and no southern men will, under any pretext, give one of them employment, the object being to drive them into the north and west.

Fountain, a noted lawyer and politician of Las Cruces, was shot as Pine Alto, Young Fountain, who was about 23 years of age, had some words with a Mexican woman who keeps a boarding-house and enchillada stand, when she drew a revolver and shot him. Fountain died at 10 o'clock. He made the statement before his death that the woman was not to blame. The Mexican woman, whose name is Candelaria, stated that she did not intend to kill Fountain, but shot to scare him.

Murderer Fish.

AUBURN, N. Y., July 8.—Warden Dursten has been served with a notice of appeal which serves as an order to stay proceedings in the case of Frank Fish, the Canandaigua murderer, under sentence of death by electricity, and the time for whose execution was originally fixed for the week commencing July 13. The motion for a new trial, which was denied by the supreme court, will again come up, and the proceedings will not be in the form of a test of the constitutionality of the law.

Spaulding, clerk of the court of this county, accompanied by an Indian named Nogay, left here for the interior of the reservation for the purpose of prospecting for coal. FIFTEEN LIVES SACRIFICED.

A Mother and Seven Children Crushed to Death in a Wrecked Building at Fargo—Seven Perish in Moorhead—Many Houses Demolished.

FARGO, N. D., July 8.—About midnight a strong wind prevailed, but no attention was paid to it until 2:30 o'clock, when in a few minutes the citizens realized that a tornado had veered down upon their city and left a birchmark that will be remembered in years to come. The storm demolished the Manitoba and Milwaukee freight houses, threw down the electric light towers, destroyed the fronts of the Davis block, the open house block, the Continental block, the Garfield block, the Webster block, unroofed the Northern Pacific freight depot, also the Republican office and the Chapin hardware store. The court house tower is badly twisted and deposited on the sidewalk on Tenth street. The Luger Furniture company's warehouse is damaged, and numerous bricks from the Argus brick block lie on the ground. The rear battlement on the Bank of North Dakota lies on the ground in ruins. The Jenny block and Exchange hotel suffered badly. Dozens of small buildings are demolished. The entire family, consisting of mother and seven children, of the late Capt. McCarthy were killed at their residence at the corner of Ninth and Fifth streets. The family had taken refuge in the cellar, and in some manner were caught in the timbers of the falling building. A fire crashed to death.

The excitement is intense and thousands of miners are rushing into the camp.

Enumerators Will Bring an Action.

DULUTH, Minn., July 8.—At a secret meeting of the Duluth census enumerators, at which nearly all were present, it was voted to employ counsel and take measures looking to the prosecution for criminal libel of Editor Frank A. Flowers, of the West Superior Telegram and Grandeur, the enumerator who made affidavit that they had committed frauds on the census by padding the Duluth returns.

HORRIBLY STABBED.

A Free For All in Omaha Last Night.

About 10 o'clock Henry Oeldemann and Lee Hennenhofer became engaged in a controversy at Oeldemann's saloon, over union labor matters. Hennenhofer was finally ordered out of the saloon, but he refused to go. Oeldemann undertook to eject him and a fight ensued in which Hennenhofer was finally shoved out of the door, but knocked Oeldemann down when they reached the sidewalk. Oeldemann begged for mercy and Hennenhofer stooped to pick him up, when several other men rushed from the grog shop and renewed the scuffle. Hennenhofer received a fearful stab in the right side, which will probably prove fatal, but he is not positive about the party who struck the dastardly blow with the knife.

There are several witnesses who saw the affray but they refuse to say anything until put upon the stand. Hennenhofer was conveyed to his home where he lies in a critical condition. Oeldemann and New, his partner, were arrested and placed in jail.
