A great many people have been kicking about the arch on lower Main street. We are now able to say why it has not been removed. The city marshal who is authority on such matters says the world's fair people have been negotiating for the arch but that some people in town insist on saving it for the completion of the court house celebration and that he is

inclined to think that it will be allowed to remain where it is for the celebration as that appears to be the wish of most of the citizens whom he has met.

Lennant, an old Cass county farmer, residing five miles south of Cedar Creek until about three years ago when he removed to Hayes county, Nebraska, settling near Hayes Center, was in the city yesterday. Corn is selling there now at 75 cents per bushel and gives promise of going to a dollar before it goes any lower. Lightning's Work.

Weeping Water Eagle. Lightning got in its deadly work last week, on the farm of D. Sheldon, south-west of this city, whereby two young people were sent into eternity. The bolt struck the chimney, turned into a bedroom, stairs where a young man named Wilkinson was preparing for bed, killing him instantly; on the opposite side it jumped to a wire leading to the gable end of the house which it followed down stairs striking the person of Miss Jones Hoback who was a guest of the family, killing her also. The remains of the latter were taken to the home of his family in Missouri.

"Pa," says Henry gruffly, "how I know your pa, who is he?" "Well, if you don't know him, all right," and the girl, apparently insulted, left the store. Henry then flew around to see who pa was as he thought he had made a good sale, and the more enquiries he made the worse excited he got and the less he knew, until it dawned on him in the evening somebody had fooled him.

She has grown to womanhood in this county and is certainly one of Plattsmouth's nicest young ladies, her kindly genial manner having made her a host of warm friends that wish her no worse than that her cup of happiness may always be full to overflowing. The bride was radiant in a cream colored dress of the princess pattern with a lovely corsage bouquet of that sweetest of flowers, the stephanotis, which had been chosen with rare good taste.

The groom is a young man in the employ of the B. & M. and is very highly spoken of in church circles; he is truly deserving of congratulations.

Will Streight as groomsman and Miss Laura McFarland, of Broken Bow, as bridesmaids assisted in the ceremony.

The well arranged residence was decorated with many handsome flowers, among which were noticed some southern water lilies, the gift of Mrs. Lovrin, that were exceedingly beautiful. The presents, consisting of everything that could be thought of for the embellishment of the dining room and kitchen, in silver and china, also extended to other parts of the house, and many chairs, pictures and fancy work, gave testimony of the high regard in which the happy bride was held.

The Plattsmouth Journal is author of the presumption that Congressman Connell is afraid to meet Bryan in joint debate on the issue of the day, "Bills." Connell has something else to do. He is serving the people in an efficient manner, and is not needed at home to look after his re-election. The people will be glad that. Send Bryan out the way, and Andrews can take care of him.
