The autumnal days have come when Nebraska, dressed in nature's gayest colors, seems to smile in her kindest mood, as she flirts with the cheerless spirit of stern winter, not to be captured until the latter days of December.

C. W. Sherman was attacked with one of his sportive freaks last night and went to Omaha to see Barnum's circus. He will probably give the town a little touch of crimson, as he takes a whirl of high life after the show.

The Bond Case.

The bond contest case was by special arrangement argued yesterday afternoon in the supreme court, and occupied the time of that august tribunal from four to six o'clock. Hon. T. M. Marquette made the principal argument for Plattsmouth, while E. H. Woolley made the principal argument for Weeping Water. An early decision is expected and from the interest taken by the court in the argument, it is confidently believed that Plattsmouth will win.

Y. W. C. T. U.

There will be a meeting of Y's on Thursday at four o'clock, at the Y. M. C. A. rooms. All members are desired to be present.

Mr. Mayberry, the people's party orator, could not get an audience to listen to him last night, hence he did not attempt to orate. The fault was largely with the committee who made a mistake in advertising the time of the meeting. Gentlemen, when you want to hold a meeting drop THE HERALD a line and the public shall know all about it. The republican party is jealous of no organization, and the more public questions are discussed the better it is for the party of Lincoln and Sumner.

A way car was attached to the Hess Opera Company special, yesterday morning for the accommodation of local passengers. The way car jumped the track at Oreapolis and frightened the ladies very badly, as well as some of the gentlemen, and as the train kept its gate of 25 miles an hour the car jumped back on the track again, certainly a very strange affair. There was no air brakes and no bell rope on the way car which made things look blue for a moment. No one was hurt.

This is the time of year when candidates for office look goodnatured and will stop and shake hands and talk with the old granger. But all other times of year, well—but then its human nature you know, and we expect we would do the same thing if we were in the same boat.

On Tuesday afternoon the 30th, Joseph Shera and family paid the last sad rite in the burial of their son Charles, at the Rock Bluffs cemetery. This was a sad affair, Charles was a young man about 25 years of age, who has been living at Rapid City, South Dakota for some time and had started to come home on a visit, but was killed last Saturday in a railroad accident, about 200 miles this side of Rapid City. The body was brought here on Tuesday and buried: something over forty wagons and carriages filled with people followed the remains to their last resting place.

Dr. Reynolds and family met with a bad accident, Tuesday while returning from the burial. When near the residence of W. W. Graves, their team became frightened at a boy and a dog that came running out to the road, and they ran away, throwing the whole family out. The result was the Doctor got two of his ribs broken, and his son Luther got his right leg severely bruised, and the ankle sprained. Mrs. Reynolds was badly hurt in the left hip and leg, so much so that she has no use of her limb. At this writing the full extent of her injuries is not known. Three other members of the family were in the buggy, but were not very much hurt.

Bees Sting a Team to Death.

While William Harris and his son James were at the McKim farm, Steubenville, on the West Virginia side of the river, two horses, hitched at the side of the barn, clipped their bridles and started to run away. Harris, seeing the runaway, tried to head the horses, causing them to turn and go through a fence into a yard where there were thirty beehives. Three hives were knocked over by the horses.

Thousands of bees swarmed over the horses, which lay down in the harness moaning piteously. As young Harris could not see the horses after he cut the traces with a butcher knife, while the bees attacked him. He started the horses off. When loose from the cattle crate the horses ran in all directions in one field, uttering unnatural squeals, at times rolling in the grass, moaning terribly.

One horse lay down in a creek, where it rolled and shrieked till death ended its sufferings. The other horse was caught and hay burned under it, but the horse died in a short time. Both were fine animals. Young Harris was stung badly, but he was bathed in a tub of soda water, counteracting the poison.—Cincinnati Enquirer.

What You Can't Do in Yamhill.

Yamhill has long been noted for its remarkable people and institutions. Now a town is being formed which will make the most model community in the world if the rules governing it are carried out. The laws which every member will have to subscribe to are substantially: No quarrelling. No improper language. No talking the name of God in vain. No swearing. No evil speaking, lying or slandering. That they regularly attend divine worship in Hope church and keep holy the whole of the Lord's day. That they abstain from the use of opium in every shape and form. No theft of any kind. No trespassing on the property of others. No dancing parties. No theatrical representations. No serenading of newly married persons. No bathing in the river on Sundays nor at any time without having first put on, in private, a decent bathing suit. No opium, intoxicating drinks or tobacco to be sold or bartered, or kept or exposed for sale. No horses, cattle, swine, goats or poultry to run at large. Pigeons to be confined within wire netting.—Albany Democrat.

Will This Clean Your Coat?

Probably there is no more exasperating thing than paint on clothes. It gets on so easily and comes off so hard. An application of naphtha once or a few times will in all cases sufficiently soften paint to allow it to be rapidly wiped off. Chloroform mixed with a small quantity of spirits of ammonia is also effective.—New York Journal.
