ABOUT THE INDIANS.

LATEST REPORT OF THE COUNTY SEAT.

Indiana's Tin Plate Industry—Council Proceedings.—Policeman's Ball.—Local Brevities.

Latest From the Seat of War, PINE RIDGE AGENCY, S. D. (via Rushville, Neb.) Dec. 9.—The hostiles camped on White river near the Bad Lands are quarrelling among themselves over the question of coming into this agency. Chief Two Stripes and his band wish to come, but the young bucks will not listen to such a proposition. So strong is the feeling on both sides that fighting may take place. One faction is apparently as firm as the other. Six government scouts sent out from Pine Ridge Sunday morning have not yet returned.

The main topic of conversation yesterday was the council held on Sunday with the Indians from the White river. There is no dissent in the opinion as to its value.

The true Indian requisites for life and happiness is complete in amount in the Bad Lands at their present camp. They have an abundant supply of food, water and wood, enough of all to last them forever if they can maintain their position, and from what scouts and others acquainted with the country say there are only three entrances or rather narrow passes leading to the table land where they are encamped, the table land affording considerable good pasturage for stock. These same scouts say fifty men could easily at each of these passes keep a small army at bay. Shells and cannon balls would not afford any assistance, as the canons cannot be taken across these exterior portions of the bad land, adjacent on all sides to the table land.

That General Brooke realizes the very serious task on hand is shown from his scheme of trying to withdraw the Indians from this place. He possibly thinks they will merge from this place and nimbly tumble into the military trap. Why should they come out and leave their homes and supplies unprotected? It is well known in Indian warfare Indians do not usually begin an attack upon their enemy. Certainly not unless they have overwhelming numbers and a superiority of position. They know as well as General Brooke know that troops are massed all about the edge of the Bad Lands ready to advance in there if they can do so. Then why should they be tempted to leave them, giving them credit of a small degree of intelligence? If the Indian is ever cunning he certainly is in time of war, and no one is better acquainted with the country the number of his enemies, etc., than he, and it seems folly to suppose he would abandon such a position as he possesses as he passes if fighting is to be done.

The Indians have every advantage they could ask in acting upon the defensive. Is it then reasonable to suppose he will leave all without consideration and take the field on the offensive.

The County Seat.

The latest reports from the country are to the effect that the necessary number of names for the petition which is being circulated are more difficult to get than was at first supposed. Prominent persons from the west end say that the country was all canvassed with the intention of laying the matter before the commissioners Monday morning last, but that when they got in and began to compare notes it was discovered that they were several hundred names short of the required number, and a new start was made over the same territory. The number of votes cast at the last election in this county was 5,035, the necessary three-fifths that must sign the petition in order to call an election would be 3,081 leaving for present location 2,054. Or in other words there must be 2,055 voters who do not sign the petition in order to prevent an election. Let us see what we may rightfully expect; Plattsmouth city and precinct give us 1,624 votes, Rock Bluffs 289 out of her 314 votes, Eight Mile Grove 200 out of her 242 votes, Liberty close to 300 out of her 376 votes. South Bend will give us 50 more. We consider the above figures conservative as we have allowed nothing to Manly which is fighting the new move harder than Plattsmouth. There is also many business men in Weeping Water who do not care to build up a competitor right at their door and who will not sign a petition. We have been assured by men in Wabash and Elmwood that there were men in both

places who would not sign a petition for removal together with many farmers on the ground of increasing the taxes. Taking the figures we have given and Plattsmouth has 2,413 votes or 359 more votes than we need to defeat the proposition. In no way can we figure out a possibility of success for our fair young competitor on the Platte.

Tin-Plate Mill in Indiana. New Castle (Ind.) Courier.

The Elwood Land Improvement company Thursday succeeded in locating there a tin-plate mill, organized largely by Cleveland capitalists. The mill will employ 400 men, of whom 250 will be skilled workmen, at wages ranging from three dollars to ten dollars per day. Work will be begun on the buildings at once, and the owners expect to have the plant in operation by the time the new tariff goes into effect, or possibly a couple of months before. The abundance of natural gas was the great inducement that brought the plant to Elwood.

"There is a very comfortable profit," said one of the projectors, "in the manufacture of tin-plates at the prices that have ruled during the past two or three years, and so many mills are being projected that I do not look for any advance in prices, but the new duty gives us the assurance that the market will not be cut from under us by a wealthy combination of foreign makers, who can afford to do a losing business for two or three years to hold the market. No American capitalist has had the hardihood to fight the Welsh Tin Trust since it closed up the American mills some years ago by sending to all their customers a circular offering to cut in two any quotation the American manufacturers might make."
