

There are many white soaps, each represented to be "just as good as the Ivory." They are not, but like all counterfeits, they lack the peculiar and remarkable qualities of the genuine. Ask for Ivory Soap and insist upon having it. 'Tis sold everywhere.

There are 200 millionaires in Berlin an increase of fifty in the last two years. Now let us have the figures from the other European capitals. If the increase has been as great as in Germany, it is high time to get the alliance organized over there to co-operate with the American farmers in knocking a hole through the bottom of the monopoly craft.—Ex.

SOME good loyal alliance man should explain how the confederate democratic General Gordon was elected to the United States Senate from Georgia when the alliance had a majority in the legislature of 57. To a man up a tree it would be pretty conclusive proof that the alliance had no higher ambition than to become the useful tail of the democratic kite.

JUDGE J. H. BROWN, of Michigan, the now man whom President Harrison has elevated to the supreme bench, is highly spoken of by his Michigan neighbors. Judge Brown is a young man, which, by the way, is a qualification generally overlooked in this position, a fine scholar, and an able lawyer of high standing. Attorney General Miller, it seems was never offered the place except in the minds of the Washington newspaper men.

PHIL ARMOUR of Chicago, the millionaire whose principal business it is to depress prices of hogs and cattle, and who might rightly be considered the worst enemy the farmers could find in a year's search, is bitterly opposed to the McKinley bill. Evidently the bill does not make the rich richer and the poor poorer; if it did, Armour would be for the bill. Mr. Bryan must have prevaricated when he criticized the bill on the above score, for no man would prefer Bryan's theories to the practical knowledge of an Armour.

THEY are having a hard winter over in Europe. The Danube and the Rhine are full of ice; London has not had a glimpse of the sun for over three weeks; Spain has had several snow storms; the Pyrenees are impassable, and even the Mediterranean is fringed with snow. In America, Pittsburg has been snow bound; Indianapolis has had a foot of snow, much of which is still on the ground; with cold rains and cloudy weather in Chicago; and ten inches of snow yesterday in Kansas City and for south of us it certainly is all in strange contrast to the dry atmosphere, fine roads and uninterrupted, bright, clear, warm sunshine of Nebraska, which is without a doubt, the veritable garden spot of all Christendom.

THE Rev. Myron W. Reed, the well known clergyman, of Denver, Col., tells an amusing incident of his military career. During the war his regiment got into Nashville one morning, and the following morning he was told to go and relieve the guard at the Capitol. He took up his company, and was told the first business was to put the prisoners to work to clean out the place. He set them to work with mops, pails and brooms, and just as they were fairly at work, a person came up and wanted to know what he was doing, making such a noise. "Here, I don't want anything of that," said Mr. Reed, "just get your broom and help these men." Do you know who I am? "No I don't know," and he told them again to get their broom and pail and fall in quick. Then he introduced himself—Andrew Johnson military governor of Tennessee, and Mr. Reed excused him.

The Great Preacher's Widow is to Write of "Mr. Beecher as I Knew Him."

It is granted to but few women to be part of such an eventful life as has been that of the wife of Henry Ward Beecher. No man of this century has had such a busy life, filled with so many honors and achievements; and to view such a career through the eyes of his life-long companion is a pleasure rarely given to a public. Mr. Beecher was a lover of the domestic fireside. "My home is my temple," he once said, and in that home he gathered round him what his nature loved best: birds, flowers, and dainty bits of china and costly gems. If he was great in public life, Mr. Beecher was greater in his home-life. In the one capacity he gave himself to the public; in the other he reserved himself for his family. In this latter light he will be viewed by his widow in a notable series of reminiscence papers in the Ladies' Home Journal, of Philadelphia, for 1891. The articles will cover the entire period of their marriage from their first year of married life, when the couple lived on \$300 for twelve months, until the closing of Mr. Beecher's great career. Mrs. Beecher will tell of "Mr. Beecher as I Knew Him," and thousands will gladly listen to her interesting story.

**CIGARS, PRICES AND TARIFFS.** Day by day the falsity of the opposition to the new tariff law as the source of "high prices" becomes more evident. It really is a law to reduce the revenue, to make prices lower, or to make qualities better in all things that are of general consumption.

Cigars of the higher grades specially have been chosen by the democratic press as a theme on which to descant on the evils of "the robber tariff." Smokers have been told that on every good cigar a "new tax" of 5 or 10 cents was laid by the "infamous McKinley bill."

The fact, as usual, has got up and kicked and mauled the democratic press. The McKinley bill guarantees to the smoker a fifteen cent cigar, better by 166 2/3 per cent than he could purchase under the lower rate of duty.

This is not a republican statement. It is made by the firm of D. L. Trujillo & Sons, of Key West, Fla., every member of which is a dyed-in-the-wool democrat. "The new law," said one of the firm at a banquet given by the firm in honor of the new law, has worked to the benefit of our customers; for by importing the raw material and manufacturing at Key West, under exactly the same conditions of labor and climate as obtained at Havana, an American factory can furnish cigars made of Vuelta Abajo tobacco at from 8 to 20 cents. Thus a 15-cent cigar can be sold of 166 2/3 per cent better quality than formerly."

This is the testimony of an expert. The tobacco used will be foreign, as it formerly was, but the labor used in its makeup will be American and the capital employed in its makeup will be American. This may be the alien importers' ring, which is "the New York Reform Club," but to the American people it is a boon. Meanwhile, if your cigar dealer tells you that a fifteen cent cigar has become a twenty cent cigar "on account of tariff," tell him that the great firm of Trujillo & Sons, of Key West, say that the fifteen cent cigar of the new tariff ought to be 166 2/3 per cent better than the fifteen cent cigar of the old tariff. Competition soon will straighten the cigar question; smoking material of all kinds will be lowered in price or improved in quality "on account of the tariff."

Meanwhile, we renew our advice to the democratic press—never, under stress of any temptation, do you venture to say that any specified article is "higher on account of the tariff," because your falsehood or ignorance is certain to meet swift exposure; just confine yourselves to general denunciations of the tariff as "infamous," just keep on saying that "all prices are higher on account of the tariff." These generalities please you and harm no one, nor do they any longer deceive any one. Falsehood had its three weeks of innings before the election. Truth will have its time at the bat for the next two years.—Inter Ocean.

IN 1883 after the republicans had passed a tariff law, the democrats swept the country on what Mr. Cleveland is pleased to call a tariff reform issue, they had a majority of over 100 in congress and held it up to 1888, yet not a single tariff reform measure passed that democratic house. The old party of rebellion and oppression proved itself a great critic and fault finder, but when there came a time for action and with it the power to act we find the democratic party the same old cowardly time serving organization it has always been. The next congress might better draw their salaries at home, than go to Washington and pose as reformers without reforming anything.

TODAY is the 28th of December and yet there is not a farmer in Cass county but what could be in his stubble field plowing for the spring crop with perfect comfort if he so desired.

GOVERNOR HILL was snubbed by the Tariff Reform Club of New York Tuesday night. That banquet was given by the free-trade enthusiasts who blindly follow Grover Cleveland, and Hill was not invited to make a speech, because they feared that he might want to divide honors with the X President. The men who rejoiced over the defeat of McKinley should read interview with Congressman Eliot Warwick, who in his district has been re-elected. It Warwick was saved from defeat in a strong Democratic district by Democratic protection speeches, who in should free traders take to themselves honor of defeating Major McKinley?—Ex.

THE Southern senators in fighting against the election bill complain that it will suppress the voice of the people. It would be interesting to have them explain how the voice of the people can be more effectively squelched than it is now in the South, where the legislatures appoint every county commissioner and sheriff. If "local self government is the popular government," as Senator Carlisle says, why don't the democrats who control Southern legislatures give this local government to the counties and towns in the South?—Ex.

**SOUTH PARK!**

Continues to Offer the Best Opportunity for Investments.

THE OPPORTUNITY OF A LIFE TIME

No Excuse for not Having a Home of Your own.

Put What you are paying out for rent into a home of your own.

**7 PER CENT** Money for persons wishing to build in South Park.

No expense for commissions or abstracts of title.

Look to the future and invest now in South Park.

Among other reasons why it is better to invest in South Park than elsewhere in the city, are these:

Property is most saleable if you wish to sell; more rentable if you wish to rent; if looking for an increase in value, no other part of the city will compare with it in prospect.

The 5th ward composed largely of South Park, less than three years ago could hardly muster up a vote, at the last general election the vote was 139 and all were polled. It has been less than two years since the city invited us into the corporate limits, yet we have over 100 newly built houses and more projected.

This part of the city has a store water mains, electric arc lights, church and school privileges and an assurance that during the year 1891 a fine church edifice will be erected, of which the whole city will be proud of.

Plattsmouth's steady growth for five years past almost doubling its population; the advance stand it has taken regarding public improvements; the certainty of a new \$30,000 court house; the early completion of the great Missouri Pacific railway into the city, giving us another trunk line and competing markets; the constant increasing pay roll of the C & Q shops which one year ago was only about \$30,000 but for November 1890 was about \$45,000, together with many other well known reasons, assure a steady and permanent advance in realty, which will doubtless effect South park more favorably than any other portion of Plattsmouth.

By Calling on R. B. Windham You will be given many other points of interest that space will not admit of giving here.
