THE Omaha World-Herald is in high glee over the failure of Brazil to accept Mr. Blaine's reciprocity terms. In other words, the small bored editor of that paper would be a traitor to the national flog; would oppose what he knows is for the best interests of the government under whose standard he lives, all on account of the fact that if reciprocity is carried out the democratic party will again find itself ten years behind the procession. A man must be a brass mounted knave that would place party before all else, yet we have the evilence b fore us in the W-H. every day that Mr. Hitchcock is exactly that sort of a man.

A TRIVELING man of more than ordinary acumen stel ability has been writing some practical observations on the home last week and winds up his series of articles as follows;

was when I started out last November. The lying ascertious as to its advancing prices have long since been proven to belies. The factories of the country have felt its impulse. not by increa ed prices, but by having the home markets. Let me give one incident that came to my notice, and I will drop my note book into the drawer where my order book rests, and leave them together until I start on another trip.

I took a section in the sleepin coar With Mr. Harrison, who represents the large manufacturing house of Howard Bros. & Co., New York City, with factories in everal localities. Said he. "Thave had homense trade in garter webbing. We used to run thirty looms on straddle would be ruinous to any other cotton and two looms on silk webbing, but nearly all the silk webbing sold came from France, The McKinley bill advanced the duty on it.

BRITISH GOLD.

Our free trade friends grew very itdiguant last fall when we claimed their unpatriotic, un-American zeal for free trade whs awakened and kept warm by British gold. We had ample reasons at the time to believe the truth of the as sertion, but for the benefit of those who thought they were not allying themselves with a commercial enemy of this country we append the following special cable dispatch, which is self exp'anatory; LONDON, February 9 -A curious libel case has just been before the law courts a Swede It appears that a Swedish newspaper, Motala Posten, accused certain persons of high social position, one being the late General Director of Customs and another the present lord Lieutenant of the County of Stockholm, with having received subsidies from the Cobden Circb amounting to £12,000 for carrying on a

free trade agitation in their country. The court dismissed the libel, the writer pleading that all the statements were true, and claiming that Prince Bismarck had been able through the German Embassy in London, to obtain a copy of the club's secret accounts, and these accounts fully bore out the state-

ments that had been made. The writer of the article received his Information in such a way that there could be no question bout its authenticity, and he further alleged that these secret accounts would very oon be published in Berlin.

If \$50,000 has been sent to "educate" Sweden, what amount has been sent to 'educate" the United States?

THE democratic press during the last campaign particularly dwelt on the subject of silk plushes (on which the tariff count of the impressive announcement | was increased by the McKinley bill) asserting that the price had been almost doubled and that it would continue Jackson is dead. He returned Harrison has made himself famous. The comments on the appointment from all quarters are of a very commendatory I am home from my long trip. There is not | nature. The pre-eminent qualifications as much said about the Mckinley bill as there of Mr. Foster for the responsible position are everywhere admitted. Even the democratic press are unable to point out a flaw in the ex-governor's record, and are thus compelled to admit the wisdom of the president's choice.

THE lying campaign which was conducted by the democracy last fall, especially as it referred to the McKinley bill is already beginning to react on that party. This is as it should be, and if repub icans will teach thoroughly the true American policy of protection, from now until the ides of November, 1892, there can be no question about the success of the party which has almost uninteruptedly guided the ship of state for the past thirty years with such marked

THE Washington dispatches say that Senators Quay and Cameron and General Dudley are booming Alger, the lumber king, for President in 1892. This may all be very well, but the actions of G-neral Alger in his efforts to obtain the nomination before do not rebound to his ject to the whims and caprices of a credit. The republican party has too many good and able men within its ranks to afford to take up this piece of cheap Michigan pine timber at the behest of the Quays and Dudleys.

THE Nicaragua Canal is second in importance, of course, only to the Sucz Canal among the great works of modern times. The refusal of the United States government to take charge of this work under the administration of President Cleveland caused a temporary suspension of the enterprise. Thereupon, however a private company was organized, and in another shape the United States government has again taken it up-a shape in which it is said that the constitutional difficulties in the way of the original plan have been avoided. This matter has been in the hands of the Finance Committee of the senate during this session of congress, of which Senator Sherman is chairman, and this committee has prepared a favorable report for an appropriation to push the work to completion. An explanation of this report and of the committee's reason therefor, as well as of the commercial importance of the canal itself, will be made in The Forum for March, by Senator Sherman himself. He goes into detail in explaining the financial aspects of the plan, as well, of course, as its political hearings, and thus at once thrusts the subject forward as a matter of public concern.

Silver Wedding Anniversary.

TURITISMUUTH, NEBRA'KA, FERRUARY 26, 1891

On Saturday, the 21st day of February the twenty-fifth anniversary of their wedding at their pleasant home in Rock THE pleasant relations heretofore ex- Creek Valley, one mile west of Rock Bluffs. About fifty of their old time riends, and a few of their young friends met at their house to preserve the memory of the event, to have a good time, and talk about incidents that happened long, long ago, and to remind them that they were not forgotten by their old friends and neighbors. It is seldom that one has the pleasure of meeting so many old time Nebraskans, many that were present on this occasion, having come here in the "fifties" when the Indians and their cattle (the buffaloes) had possession of nearly all of Nebraska Ter ritory.

These old timers can tell of many pleasant incidents and also of many hardships they had to endure in the olden time. One thing worthy of special mention is the fact that money was so scarce in the years of '58 and '59 that cottonwood lumber was considered legal tender for debt, on the basis that 100 feet of lumber was worth one dollar in

It was about this time in the history of Nebraska that gold dust was discovered in paying quantities at Pike's Peak, Oh! what a rush there was then to get wealth. Everyone was more or less excited, and horses, mules, oxen and cows were used to haul the outfits, as the ladings were called, across the plains. Soon after gold dust became so plenteous that it supplanted cottonwood lumber as currency. It was the custom to carry gold dust in buckskin pouches, and a small THE public life of ex-Governor Foster | pair of scales to weigh the precious metal
