which Convened at Cleveland, Ohio, yesterday morning has so far been one of the most inharmonious and anti-Campbell factions are in report this morning says:

There have been many wordy wars in the hotel lobbies to-day between Campbell delegates and their demonstrative opponents, and in several cases the disputes went to such an extent that admirers of the governor answered the threats of the Hamilton county delegates by declaring that [Campbell could be Blackbirds Winged by the Club's Unboth nominated and elected without the help of Cincinnati. All Neal delegates, all understood to be drawn. A lively fusilade followed won the trophy by ten straight kills. in which four or five shots were fired with mild results. An innocent by stander received one of the bullets after which the weapons were used as clubs with more appreciable ef fect on the contestants. They al received numerous gashes over the head and were bleeding profusely when arrested.

The full strength of Campbell's following was not appreciated un til the governor reached the city this afternoon. "There is no doub of my nomination on the first bal lot," said he this evening to an Associated press representative. "It is simply a question of addition, as I already have assurance from far more than enough delegates to insure my nomination."

A mass meeting of anti-Campbell delegates was held this afternoon at which was discussed the question whether, in the event of Campbell's nomination, the opposition should permit him to be declared the unanimous nominee or insist on a complete roll call and make the record show opposing votes. The committee reported this evening in first money. In the shoot off, Jones favor of opposing Campbell to the bitter end. This persistent opposition is the sensation of the town eleventh, Weber took second money to-night, and has destroyed the last and Gus Hyers and J. G. Richey dihope of a harmonious convention.

Women and Baseball.

We are always glad to chronicle a which is now presented to us in the tax levy will be based: August number of Demorest Fami- Mayor and council ... ly Magazine, which has just arrived. One of the leading articles is a game of baseball all played out on paper by means of finely executed illustrations with explicit descriptions of each move. Those who have attempted to explain the game of base ball to a sister, wife, or wifeto be know what an almost hope less task it was. Now here is the whole thing done for you, and so cleverly and clearly that after reading it a woman will be as anxious as any one of the other sex to see a match, and she will neveragain say, "Well! what is there in baseball. anyhow?" The article will save you hours of explanation, and shows the enterprise of this progressive Magazine, which strives to give the public just what they want. This number is certainly very attractive. "A Happy Day at Cairo," with its beautiful illustrations gives a splendid idea of home life in Egypt; "Summer's Bird" is one of

Olive Thorne Miller's charming papers; "The Game of Lawn Crooketta" describes the new pastime that is almost as fascinating as tennis; there are absorbing stories and beautiful poems; all the numerous departments are overflowing with good and seasonable things; and in addition there are over two hundred fine illustrations, including a beautiful water-color of "Swallows." It is published by W. Jennings Demorest, at 15 East 14th St., New York. Price 20 cents; or \$2 per year. Any of our local newsdealers will be glad to supply
