THURSDAY, OCTOBER 8, 1891

STATE TICKET.

For Associate Justice of the Supreme Court A. M. POST of Platte.

REPUBLICAN COUNTY TICKET.

For Clerk of the District Court: A. SALISBURY.

THE REPUBLICAN PLATFORM.

The republican party of the state of Nebraska gives renewed expression of its devotion to the principles of the republican party and declares that those principles, as expressed by the national republican convention, should be the strong point of union between all republicans in the state of Nebraska.

We congratulate the people upon the marvelous prosperity attending the development and growth of the state of Nebraska during its twenty-four years of statehood under republican administration, and which has brought us to the front rank among the leading states of the union; and we can fearlessly assert that no state which has been controlled by democratic power, during any considerable time of the same period, can compare with us in the economical management of public affairs, in the rapid ratio of increase in population, wealth and general prosperity, notwithstanding the fact that there are within the borders of the state a number of dissatisfied persons who took advantage of the general financial depression which swept over the entire country to pave their way into temporary prominence by declaiming against the welfare of our people and slandering the fair name of our state.

We arraign the democratic party as the enemy of labor, scheming to break down the defense of protective laws, to block the wheels of home industry, and to degrade the masses of the people—a party controlled by aristocratic and sectional tendencies, the legacy of slavery.

The republican party of Nebraska appeals to the intelligence and to the integrity of the people of this state and from all good citizens we invite support.

IN a recent issue of the Journal, after severely criticizing the Omaha World-Herald for espousing the cause as led by Edgerton, the editor of that paper closes with the following words: "It is melancholy to think of a man of bright prospects like Mr. Hitchcock, throwing them to the dogs."

After making this remarkable flop the editor proceeds to take the course always adopted by the vanquished, and charges Judge Post with being a railroad man. This amounts to nothing in the face of the record which Judge Post has made, and the unmistakable evidences of his meritorious services in behalf of the people as evidenced by testimony of his neighbors of all parties.

Our contemporary proceeds to quote the democratic platform and applies it to the views entertained by Edgerton. Now it matters little what the democratic platform declares, in the face of their past record. The independent party favors the Newberry bill as vetoed by Gov. Boyd. If the democratic and independent parties are one on railroad control, why, Mr. Journal, did not the democratic convention condemn Boyd's veto and approve the Newberry bill?

We are surprised that our democratic contemporaries do not keep prominently before the people, the beneficial results likely to accrue to our people, in the event of the adoption of the proposed law favoring the free and unlimited coinage of silver. We suppose, however, that they take notice of the way affairs are terminating in Iowa, Ohio, New York and elsewhere and are content to "lay low."

among our own people nor destroy the developing industries of our country.

We are heartily in favor of the general provisions of the interstate commerce act, and we demand the regulation of all railway and transportation lines in such a manner as to insure fair and reasonable rates to the producers and consumers of the country.

We favor such legislation as will prevent all illegal combinations and unjust exactions by aggregated capital and corporate powers. We insist upon the suppression of all trusts, combines and schemes designed to artificially increase the price of the necessities of life.

We regard the world's Columbian exposition as an important event in the world's history, and we are in hearty sympathy with every effort to make it a success. We should make a creditable exhibit of Nebraska's products, and we favor an additional appropriation by the next legislature for this purpose, that our prosperity and greatness may be fully exemplified. We take pride in this state. We recognize its growth and power, its prosperity and good name have been the fruits of its industrial people, and we believe in such policies, state and national, as will promote justice and widen the opportunities among these classes. To their support in the future, as in the past, we pledge our most intelligent judgment and most sincere endeavor.

We denounce the Grand Island platform of the democratic party as framed with the deliberate purpose to mislead and deceive; wherein sympathy is expressed where none is felt; wherein help is proposed where none is rendered; wherein purposes are avowed which are not entertained. In support of this indictment we point to the pretended friendship for the soldier, while at the same time the democratic party has always proclaimed against the granting of liberal pensions; to the free silver plank, intended to deceive the supporters of free and unlimited coinage of silver, when it is known that many of the leaders of the party are opposed to the doctrine; to the failure to give the relief from exorbitant freight rates while it was afraid to either approve or censure the action of its acting alien governor for vetoing the Newberry bill.

We denounce the democratic party for its insinuations against the integrity of the supreme court of the state as an effort to make the judicial powers subordinate to political parties and as disgraceful to a political organization.

We denounce the democratic party for its double dealing with the civil and political rights of the people, wherein it appears to favor free and untrammelled elections in the state of Nebraska, but never raises its voice against the political outrages practiced against the republican voters, white and black, throughout the democratic states of the south.

We arraign the democratic party as the enemy of labor, scheming to break down the defense of protective laws, to block the wheels of home industry, and to degrade the masses of the people—a party controlled by aristocratic and sectional tendencies, the legacy of slavery.

The republican party of Nebraska appeals to the intelligence and to the integrity of the people of this state and from all good citizens we invite support.

IN a recent issue of the Journal, after severely criticizing the Omaha World-Herald for espousing the cause as led by Edgerton, the editor of that paper closes with the following words: "It is melancholy to think of a man of bright prospects like Mr. Hitchcock, throwing them to the dogs."

After making this remarkable flop the editor proceeds to take the course always adopted by the vanquished, and charges Judge Post with being a railroad man. This amounts to nothing in the face of the record which Judge Post has made, and the unmistakable evidences of his meritorious services in behalf of the people as evidenced by testimony of his neighbors of all parties.

Our contemporary proceeds to quote the democratic platform and applies it to the views entertained by Edgerton. Now it matters little what the democratic platform declares, in the face of their past record. The independent party favors the Newberry bill as vetoed by Gov. Boyd. If the democratic and independent parties are one on railroad control, why, Mr. Journal, did not the democratic convention condemn Boyd's veto and approve the Newberry bill?

We are surprised that our democratic contemporaries do not keep prominently before the people, the beneficial results likely to accrue to our people, in the event of the adoption of the proposed law favoring the free and unlimited coinage of silver. We suppose, however, that they take notice of the way affairs are terminating in Iowa, Ohio, New York and elsewhere and are content to "lay low."

A good crop and a ready market is ascertained, turn jack frost and the calamity howlers loose.

Now that Broady has declined, where will the democracy find a candidate to run against Judge Post?

THE republican party has selected its Post which suggests the idea that it will be looking after its fences henceforth.

FREE silver and free trade are the battle cries of the democracy. It will be a free pass up Salt Creek after the November election.

THE republican county ticket represents all sections of the county, which will serve to unite the different factions and insure a triumphant election of the ticket.

THE republican theory is, that when the farmer sells his products for 100 he should be paid in money worth 100 cents. The democratic theory is that he should be paid in a 75 cent dollar. Which do you prefer to receive.

THE republican party declares that the Union soldiers should be paid in a dollar worth 100 cents, throughout the world, while the democracy claims that a 75 cent dollar is good as he deserves. There is nothing at all surprising in that, however.

Every western newspaper that expresses an opinion in regard to the matter, favors Omaha as a suitable location for the republican national convention. It is but natural that the eastern papers would favor Chicago, owing to its easiness of access for the east; but it is certainly a just demand that the west be represented, and in that event, the unanimous choice will be the metropolis of Nebraska.

THE Banner, published at Athens, Ga., the official organ of the Alliance of that state speaks as follows concerning the third party movement in that state: "There is no new south! Call it the south, if you please, but not the new south. Not until the names of Lee and Jackson and of the immortal Jeff Davis have faded from the hearts of the patriots. The political attitude of the south to-day is not unlike the attitude she held when she called upon her sons to shoulder their muskets and march fourth to battle for over wrong. The solid south must not be broken.

Let us stand by the democracy. The democracy of Ohio is badly torn up and the fool friends of Governor Campbell are digging a pit under him that will upset all his plans for a campaign of silence on the coinage question. Young Allen Thurman and other demagogic leaders have disobeyed the commands of the state central committee and have taken the stump for free and unlimited coinage thinking that they will make hay out of the cranks and soft money lunatics and build up themselves at the expense of the party which is hopelessly divided on the coinage plank of the state platform.

Consequently the silver question is rapidly becoming the main issue in spite of the determination of the managers of the democratic concern to drop it out of sight and howl against the McKinley bill. The victory of Major McKinley and the republican party is already assured by these tactics of the enemy. —Lincoln Journal.

RECIPROCITY.

On the first day of September the reciprocity treaty between the United States and the West Indies went into effect. Prior to this agreement, our government placed a duty upon West India sugar, molasses and other tropical products and she had a tariff upon our products. But by this treaty all duties have been removed and goods admitted into each country without hindrance.

Is this not right? It appears to us, to be the only proper thing to do. What can this country gain by placing a tariff upon a commodity, we cannot produce? Such a tariff cannot have a tendency to stimulate home production, and consequently, the amount of the tariff would be added to the original cost of the article and be paid by the consumer. The tariff is not protection because it does not protect the American, but on the contrary it serves as a tax, purely.

This is an exchange that will create a vigorous demand for the products of the American farm and in return it will enable our people to obtain necessities of life without paying the tariff.

Sleepiness might make miserable by that terrible caught Shilohs remedy is the cure for you, by F. G. Frick, and O. H. Snyder.

SOUTH PARK

Continues to Offer the Opportunity for Investment.

No Excuse for not having a Home of Your Own.

Put What you are paying out for Rent into a home.

7 per cent money for persons wishing to build in South Park.

Look to the Future and invest now in South Park.

THE OPPORTUNITY OF A LIFE TIME.

Among other reasons why it is better to invest in South Park than elsewhere in the city, are these:

Property is more saleable if you wish to sell, more rentable if you wish to rent; if looking for an increase in value, no other part of the city will compare with it in prospect.

The 5th ward composed largely of South Park, less than three years ago could hardly muster up a vote at the last general election the vote was 139 and all were not polled. It has been less than two years since the city invited us into the corporate limits, yet we have over one hundred newly built house and others in process of construction, owned with few exceptions, by the parties now living in them.

This part of the city has a store water mains, electric arc lights, church and school privileges and a new church edifice just erected of which the whole city is proud.

Plattsmouth's steady growth for five years past almost doubling its population; the advance stand it has taken regarding public improvements, the certainty of a new \$80,000 court house; the completion of the great Missouri Pacific railway into this city, giving us another great trunk line and competing market; the constant increasing pay roll of the C. B. & Q. shops, together with many other well known reasons, assure a steady and permanent advance in realty, which will doubtless effect South Park more favorably than any other portion of Plattsmouth.

With a view to the encouragement of a still greater growth of this part of the city, we will continue to sell lots on monthly payments, furnish money with which to erect houses will exchange lots for other improved city property or for desirable improved or unimproved lands.

It is not so much the speculator as the permanent resident that we wish to purchase this desirable property. Out of over EIGHTY present owners of South Park property none are speculators hence there are no fictitious values and lots are selling at about the price they were immediately after it was platted—a strong argument why the present is a most desirable time for investments. Much additional information regarding South Park may be had by calling at my office on Main street over Bank of Cass County.
