

Weeping Water Husband assault his Wife with a Revolver.
Falling news was received in this city this morning to the effect that Chas. Blake, who resides about four miles from Weeping Water had shot his wife. Investigation shows that they were married about one year since but have since separated. Since that time Mrs. Blake has been teaching school north of Weeping Water, and as she was returning home in the evening on horseback she overtook a carriage. As she passed by Chas. Blake fired three shots at her, one which took effect in the thigh. She would-be-murdered was captured in this city and is now lodged in jail here. His trial will take place in the district next Monday.

Nebraska in Illinois.
The special correspondent for the Bee writes as follows regarding the attention paid the train in Illinois:

PEORIA, Ill., Oct. 16.—The Nebraska special advertising train now enroute, made its first stop for exhibition at this city, where it arrived at 7:15 this morning. The trip from Omaha to Peoria was altogether uneventful, with the exception of a stop of ten minutes at Plattsmouth to receive a portion of the Cass county exhibit. A crowd of 400 had assembled at the Plattsmouth depot, but had to content themselves with worshipping afar off, as the cars were not opened. The train stopped at Red Oak for supper. The run from Red Oak to Creston was made at exactly the rate of a mile a minute. A great number of people have visited the train here and all express unqualified surprise and admiration over the great variety and high quality of the Nebraska products which are exhibited.

At Mendota a stop of three hours will be made. Sunday will be spent in Chicago, Monday morning at Galparasio and Monday afternoon at Plymouth.

GALESBURG, Ill., Oct. 16.—The train was visited at Peoria by fully 2,500 people prior to its departure at 1 o'clock this afternoon, and when the hour of departure came there was a large crowd assembled who had been unable to gain admission. The train reached Galesburg at 3:30 this afternoon and was immediately surrounded by several hundred persons gathered at the depot. All told, nearly or quite 5,000 people have passed through the train to-day, inspected the exhibits and expressed their praise and wonder in no measured terms. The members of the board and of the entire party are using every effort to impress visitors with the high character of the exhibit and are greatly pleased with the results of their labors. The surprise at the real character of the products exhibited is no greater than the surprise evidenced on all sides that the much circulated calumny and starvation stories could ever have obtained credence. The train will remain in Galesburg until 8 a. m. to-morrow.

Diatriot Court.
The case of Rowe vs. Smith, on a charge of assault and battery was tried this morning. The prosecution was conducted by County Attorney Travis, and Sullivan and Gering defended. Our readers will doubtless remember that THE HERALD gave a full account of the circumstances some time since, in which it appeared that Smith two assistants unmercifully and without sufficient provocation beat Rowe over the head. The jury is still out.

As we go to press a case, State vs. Smith, that was appealed from Justice Martin's court of Union, is being tried. The defendant is charged with using obscene language in the presence of ladies. A verdict will probably be rendered this evening.

LATER.—The prisoner has been discharged.

October Weather.
Prof. Hicks, the weather prophet, has the storms down for this month as follows:

Storms originating in September will reach their crisis Oct. 2. A smart dash of early winter will appear on the heels of these storms. Equinox of Venus on the 7th will greatly intensify reactionary disturbances on the 6th and 7th. The 10th to 13th will call for dangerous storms, especially on the lakes. The most concerned please note this fact. Cold and freezing will follow to the north until higher temperature on the 17th and 18th reacts into secondary storms. From the 22d to the 25th is a period in which Vulcan, Mercury, Venus and Moon will combine their disturbing forces. Lake and sea navigators ought to be watchful of such indications. Snow in extreme north and west, with sleet. Reactionary storms about 28th, followed by frosty close.

A Novel Idea.
We have received a very unique and attractive souvenir, which reads on one side "compliments of the Michigan Stove Company," and upon the other side, "This is a sample of aluminum which is mixed with the iron from which Garland stoves and ranges are made." If this material can be used effectually as is claimed, it will doubtless be a great improvement owing to its light weight and its strength, being three times lighter than steel and much stronger. The stoves are sold by leading dealers everywhere.

The Time Extended.
Owing to the success of the Sioux City Corn Palace exposition the authorities have concluded to extend the time of the exhibit from the 17th to the 25th. The B. & M. will continue to sell tickets at one and one-third fare for the round trip good to return on the 26th.

How Baking Powders are Made.
While rival companies are disputing as to what ingredients are to be found in the "best baking powder," the public will be interested in the following definition of these now indispensable articles as given by Appleton's Cyclopedia, the acknowledged American authority:

"The best baking powders are composed of bitartrate of potash (cream of tartar) tartaric acid, carbonate of ammonia, and soda bicarbonate, bound together by a little starch."

As an evidence of the progress being made in penmanship in the city schools thus far we mention a speed contest that took place this morning in the grammar rooms of Miss Wilson and Miss Searl. The word "num" was selected as the copy, which was written, with the muscular movement, by five pupils 63, 66, 68, 71 and 72 times respectively in 60 seconds, the best time being made by Claude Harris. There was also an average time made by all the pupils of 50 words to the minute. Attend school, thou youth, and get the benefit of this drill.

A Small Blaze.
The lumber office of J. D. Graves & Co. was found to be on fire at 2:45 this afternoon, but by prompt action of the fire company the flames were soon extinguished. The building was built by J. D. Simpson in 1858, hence, doubtless, one of the oldest buildings in the city.

The fire originated from a defective pipe. The company carries insurance upon the lumber yard but it is not known whether it includes the building or not.
