A Man of Nerve.

A pretty exhibition was given by the students of Springfield Medical college, under the auspices of the Young Men's Christian association. It was the resuscitation of a man who had been smothered by smoke. In a large hall had been erected a wooden structure, which was filled with Roman candles, firecrackers and other combustibles. In the midst of all these the unfortunate had been placed for suffocation, and the building fired.

Shortly afterward the victim of the experiment was taken from the house of smoke in a thoroughly unconscious condition. He was put through a process of pumping and rubbing, and in the course of thirty minutes was again walking around the hall. This Mr. Taylor thinks the quickest process he has ever seen for bringing to life a person who has been smothered or one who was suffocated from smoke.—Richmond Dispatch.

A New Use for Telephones.

The telephone is about to have a new application, namely, that of foretelling storms. A new discovery has been made as to one of the properties of this means of transmitting sound. By placing two iron bars at seven or eight meters distance from each other, and then putting them in communication on one side by a copper wire covered with rubber, and on the other side with a telephone, a storm can, it is said, be predicted at least twelve hours ahead through a dead sound heard in the receiver.

According as the storm advances the sound resembles the beating of hailstones against the windows. Every flash of lightning, and, of course, every clap of thunder that accompanies the storm produces a shock similar to that of a stone cast between the diaphragm and the instrument.—Cincinnati Commercial Gazette.

A process has been discovered for making flour of bananas. Chemical experiments show that this flour contains more nutriment than rice, and that when eaten with beans, corn or sago it forms a very palatable and nourishing diet.

Blood travels from the heart through the arteries ordinarily at the rate of about twelve inches per second; its speed through the capillaries is at the rate of three one-hundredths of an inch per second.

Reports from the Bahamas state that the cultivation of sisal hemp is proving to be a great success, and the product will soon amount to 60,000 tons annually. The quality is said to be very fine.

The Japanese lie upon matting with a stiff uncomfortable wooden neckrest. The Chinese use low bedsteads, often elaborately carved, and supporting only mats or coverlets.

The largest animal known is the rorqual, which is 100 feet in length; the smallest is the twilight monad, which is only the twelve-thousandth of an inch.

Pepper was known to the ancients. In the Middle Ages it was one of the most costly of spices, a pound of it being a royal present.

A Tree That Produces Milk.

A growing wonder is the cow tree of South America, which is credited with yielding a lactical fluid which, in color, taste and nutritive property closely resembles the offerings of your milkman. It forms large forests in some districts of Venezuela and is much prized for its product.—Philadelphia Times.

A Big Bed of Coal Aglow.

There is a mountain of coal in Wild Horse valley, Wyoming, which has been burning for more than thirty years. It sends up dense volumes of smoke, and at times the gas from it is almost suffocating, even at a distance of fifty to seventy-five miles from the burning coal bed.—St. Louis Republic.

An author in a manual on horsemanship has succeeded in putting into print the peculiar click used in starting horses, which is made by thrusting the tongue against the roof of the mouth. He spells it "Kik."

Dr. George Turner states that a cat fed with the refuse food of some children sick with diphtheria also suffered severely with what seemed to be the same disease.

The Call from Omaha. A dispatch from Omaha dated 2:30 p. m. says that the Bee claims the election of the entire city and county ticket with the exception of county treasurer which is very close.

MASSACHUSETTS DEMOCRATIC.

Governor Russell Re-elected by a Handicapped Majority. BOSTON, Mass., Nov. 3.—On account of the new law passed by the last legislature requiring votes to be counted by two different officials in order to secure correctness, the returns are coming in more slowly from all sections of the state than ever before, although the electoral machinery has never been in more perfect condition than in the present election. The returns from fifty country towns show a net republican gain of 708, or fourteen per town over last year. On this basis the republican gain in the 352 towns of the state would be 4942. Last year Governor Russell's plurality was 9153 in the state. Indications so far from the large cities are that he has held his plurality of last year and that he is elected by at least 4,000 plurality. The balance of the republican state ticket is undoubtedly elected. As the returns of only fifty towns are now in it is utterly impossible to give any idea of the complexion of the legislature.

An honest Swede tells his story in plain but unmistakable language for the benefit of the public. One of my children took a severe cold and got the croup. I gave her a teaspoonful of Chamberlain Cough Remedy, and in five minutes later I gave her one more. By this time she had to cough up the gathering in the throat. Then she went to sleep and slept good for fifteen minutes. Then she got up and vomited; then she went back to bed and slept good for the remainder of the night. She got the croup the second night and I gave her the same remedy with the same good results. I write this because I thought there might be some one in the same need and not know the true merits of this wonderful medicine. CHARLES A. THOMPSON, Des Moines, Iowa. 50 cent bottle for sale by F. G. Fricke & Co.

"Firemen's Ward."

Rice's Comedians played to a good house last night—a house which enjoyed every act, and gave evidence of their delight by loud and repeated applause. Mr. Rice has surrounded himself with a first-class company, every one of which took the audience last night.

In fact, there is not a poor player in the company, and each player seems peculiarly fitted for his role. The great fire scene is grand, and causes the cheek to tingle with intense excitement. The play abounds healthy and hearty hilarity and will undoubtedly prove a great success this season. As for Grand Island, the appreciation made manifest by the applause last night, clearly shows that "Rice's Comedians" have taken the town, and our city will give them a full house, whenever they choose to come this way again.—Grand Island Times, Thursday, Sept. 18. Don't fail to see this great play at the opera house to-morrow night. Secure your tickets now. Prices 75, 50, and 35 cents.
