We are pleased to note that Hou. T. M. Britt, of Hillsdale, was chosen, at the recent election, on the republican ticket to represent Mills county in the legislature. A SOCIAL EVENT.

A Pleasant Time Was Had Saturday Evening.

The remembrance of a social charge in the district, whether and Mrs. M. B. Murphy last Saturday evening, in commemmoration stay to the close. Come praying Chas. Murphy, will be cherished by all present as one of the most enjoyable social events of the season. The hours, from 9 to 11, were whiled away playing high five. After a summing up and a comparison of notes it was ascertained that Will Stadelman was entitled to the king prize and Edith White very reluctantly received the booby prize. The party then repaired to the dining room, where a sumpmous and delicious repast, prepared by Mrs. M. B. and Mrs. Fred Murphy, assisted by Mrs. Chas. Eads, was partaken of. It was the unanimous opinion that the geniality and hospitality exhibited by the host upon this occasion could rarely be excelled. Charles was presented with a handsome diamond and pearl scarf pin as a manifestation of the high regard in which he is held by his friends.

The following were present: Dora Fricke, Edith White, Janet Livingston, Nannie Moore, Menota Eikenbary, Verna Leonard, Birdie Irish, Maggie Vallery, Maggie Oliver, Mrs. Fred Murphy, of Cedar Creek; Harry Phelps and Geo. Palmer, of Omaha; Will Stadelman, Chas. Sherman, Frank Irish, Chas. Vallery, Fred Murphy, Will Clement and Arch Coleman.

A Pure Baking Powder.

A baking powder that can be depended upon to be free from lime and alumfis a desideratum in these days of adulterated food. So far as can be judge from the officials reports, the "Royal" scems to be the only one yet found by chemical analysis to be entirely without one or the other of these substances, and absolutely pure. This, it is shown, results from the exclusive use by its manufacturers of cream of tartar specially refined and prepared by patent process which total ly remove the tartrate of lime and other impurities. The cost of this chemically pure cream of tartar is much greater than any other, and it is used in no baking powder except the "Royal," the manufacturers of which control the patents under which it is refined. Dr. Edward G. Love, formerly

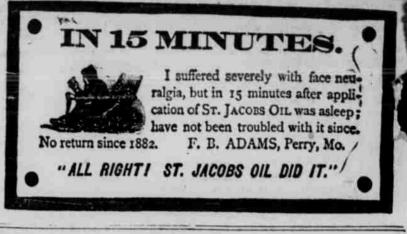

analytical chemist for the U.S. Government, who made the analysis for the New York State Board of Health in their investigation of baking powders, and whose inti mate knowledge of the ingredients of all those sold in this market enables him to speak authoritatively, says of the purity, wholesomeness, and superior quality of the "Royal:" "I find the Royal Baking Powder composed of pure and wholesome ingredients. It is a cream of tartar powders, and does not contain either alum or phosphates, or other injurious substances.

Prof. Love's tests, and recent of-ficial tests by both the United States and Canadian Governments, show the Royal Baking Powder to be superior to all others in strength and levening power. It is not only the most economical in use. but makes the purest, finest flavored and most wholesome food.

Nearly 200 delegates from all parts of the state and elsewhere, arrived and are in attendence at the twelfth annual session of the Young Men's Christian Association of Nebraska. The many homes of Lincoln's christian people have been gladly tendered to these visitors and a warm congeniality is making them all teel at home. The opening yesterday was held at the First Baptist church, and State Secretary Nash gave a very interesting Bible study.

The evening session filled the church and the audience listened with pleasure to a descriptive and entertaining talk on Bible study by Henry E, Brown, secretary of the international committee, who enlarged upon the results attained by a careful reading of the Bible condensed to leading thoughts.
